AMENDED ARTICLES OF INCORPORATION OF

ALLIANCE SELECT FOODS INTERNATIONAL, INC. formerly Alliance Tuna International, Inc.

Know All Men By These Presents:

The undersigned incorporators, all of legal age and majority of whom are residents of the Philippines, have this day voluntarily agreed to form a stock corporation under the laws of the Republic of the Philippines.

THAT WE HEREBY CERTIFY:

FIRST: That the name of this corporation shall be:

ALLIANCE SELECT FOODS INTERNATIONAL, INC.

(As amended by the Board of Directors in their meeting held on May 26, 2010 and approved by the stockholders in their meeting held on July 1, 2010)

SECOND: A. That the primary purpose of this corporation is to engage in the business of manufacturing, canning, preserving, preparing, processing, packing, repacking, trading on a wholesale basis, marketing, distributing, importing, exporting, shipping and selling food products such as marine, aquaculture, agriculture, and meat products, their by-products, other products with food base or their derivatives or those analogous or similar food products of every class and description, fresh, processed, preserved or otherwise, and all food and other preparations; to own, acquire, pledge, buy, sell, convey, assign and transfer, food products such as marine, aquaculture, agriculture, and meat products, their by-products, other

products with food base or their derivatives or those analogous or similar food products of every class and description, fresh, processed, preserved or otherwise, goods and merchandise of every kind or description which may be incidental in carrying out the business of the corporation.

and IN FURTHERANCE of the foregoing purposes:

- 1. To purchase, acquire, own, lease, sell and convey real properties such as lands, buildings, factories and warehouses and machineries, equipment and other personal properties as may be necessary or incidental to the conduct of the corporate business, and to pay in cash, shares of its capital stock, debentures and other evidences of indebtedness, or other securities, as may be deemed expedient, for any business or property acquired by the Corporation and in accordance with Philippine laws.
- 2. To borrow or raise money necessary to meet the financial requirements of its business by issuances of bonds, promissory notes and other evidences of indebtedness, and to secure the repayment thereof by mortgage, pledge, deed of trust, or lien upon the properties of the Corporation or to issue pursuant to law, shares of its capital stock, debentures and other evidences of indebtedness in payment for properties acquired by the Corporation or for money borrowed in the prosecution of its lawful activities:
- 3. To invest and deal with the money and properties of the Corporation in such manner as may from time to time be considered wise or expedient for the advancement of its interests and to sell, dispose of or transfer the business, properties and goodwill of the Corporation or any part thereof for such consideration and under such terms as it shall see fit to accept;
- 4. To aid in any manner any corporation, association, domestic or foreign, or any firm or individual, any shares of stock in which or any bonds, debentures, notes, and securities, evidences of indebtedness, contracts or obligations of which are held by or for the Corporation;

- 5. To enter into any lawful arrangement for sharing profits, reciprocal concession, or cooperation, with any corporation, association, partnership, syndicate, entity, person or governmental, municipal or public authority, domestic or foreign, in the carrying on of any business or transaction deemed necessary, convenient or incidental to carrying out any of the purposes of the Corporation;
- 6. To acquire or obtain from any government or authority, national, provincial, municipal or otherwise, or any corporation, company or partnership or person, such charter, contracts, franchise, privileges, exemption, licenses and concessions as may be conducive to the business of the Corporation;
- 7. To establish and operate one or more branch offices or agencies and to carry on any or all of its operations and. business without any restrictions as to place or amount including the right to hold, purchase or otherwise acquire, lease, mortgage, pledge and convey or otherwise deal in and with real and personal property anywhere within and/or outside the Philippines;
- 8. To conduct and transact any and all lawful activities, and to do or cause to be done any one or more of the acts and things herein set forth as its purposes, within or without Philippines, and in any and all foreign countries, and to do everything necessary, desirable or incidental to the accomplishment of the purposes or the exercise of any one of the powers herein enumerated, or which shall at any time appear conducive to or expedient for the protection or benefit of the Corporation; and
- 9. To make and alter all kinds of investments and make mortgage loans or with any kind of guarantee to make monetary investments; in whatever may be necessary or incidental to the business of the Corporation, guarantee in behalf of the Corporation, solely or jointly, any debt, obligation or loan of any of its subsidiary companies or any other company where it has an interest, or mortgage, pledge or encumber the properties and assets of the Corporation for stated purposes. (As amended by the Board of Directors in their meeting held on May 26, 2010 and approved by the stockholders in their meeting held on July 1, 2010)

B. That the corporation shall have all the express powers of a corporation as provided for under Section 36 of the Corporation Code of the Philippines.

Report of an Independent Certified Public Accountant on the Conduct and Result of the Required Verification Procedures

To the Securities and Exchange Commission:

In connection with the application for increase in authorized capital stock of Alliance Select Foods International, Inc., the undersigned declares:

- (1) That, as an external auditor engaged by the Company, we conducted the verification procedures required under Section 2 of the Guidelines on On-site Verification of Financial Records Relative to Certain Applications Filed with the Commission, and that we observed all the requirements of existing auditing standards and practices applicable to the said engagement; and
- (2) That since the foregoing engagement does not involve an audit or review of the Company's financial statements but only the conduct of a set of agreed-upon procedures and issuance of a report of the factual findings thereon, we gave a "no assurance" statement in our September 1, 2015 report attached to this letter. We understand, however, that the "no assurance" statement in our said report does not exempt us from responsibility over the conduct of the said procedures and the factual findings stated therein.

Gentlemen:

We have performed the procedures agreed to with the management of Alliance Select Foods International, Inc. (the Company) with respect to the proposed increase in the Company's authorized capital stock from \$1.5\$ billion, divided into 1.5 billion common shares with a par value of \$1.0 a share, to \$3.0 billion, divided into 3.0 billion common shares with the same par value. Our engagement was undertaken in accordance with Philippine Standards on Related Services (PSRS) 4400, "Engagements on Agreed-Upon Procedures." The procedures were performed solely to assist the Company with its application with the Securities and Exchange Commission (SEC) for the proposed increase in authorized capital stock as required under Section 2 of SEC Memorandum Circular No. 6, Series of 2008, "Guidelines on On-Site Verification of Financial Records relative to certain Applications Filed with the SEC."

The on-site verification procedures we performed, in accordance with Section 2 of SEC Memorandum Circular No. 6, Series of 2008, and the related findings are as follows:

1. We obtained and reviewed the schedule of cash received on the proposed increase in capital stock. The receipts were recorded in the accounting records under the account "Deposit on subscription" aggregating ₱1.048 billion as at August 27, 2015. We checked the mathematical accuracy of the schedule and found it in order. Details are as follows:

	PER GENERAL LEDGER						
Date	Particulars	Stockholder	Amount				
8/27/2015	Subscription of shares thru Stock Rights Offer	Raymond Kee Hiok See	₽103,333				
8/27/2015	Subscription of shares thru Stock Rights Offer	Stephen G. Soliven	gy. 386

8/27/2015	Subscription of shares thru Stock Rights Offer	PCD Nominee Corporation (Foreign)	47,382,167				
Total			₽1,047,613,174				

We understand that the proceeds from the subscription will be used for: (a) capital expenditures, (b) repayment of loans, (c) purchase and installation of new management information system, and (d) working capital requirements.

Further, based on the terms of the Rights Offer, "In the event that the number of Rights Shares to be received by an Applicant is less than the number covered by its Application, or if an Application is rejected by the Company, then the Company shall refund, without interest, via check payable to the relevant Applicant, beginning on the fifth (5th) Banking Day from the end of the Offer Period, the amount corresponding to the number of Rights Shares not issued to such Applicant".

2. We traced the amounts received from subscribers to the general ledger and the cash receipts books. All receipts aggregating \$\mathbb{2}\$1.048 billion were made through check deposits on the same date. Below are the details of cash receipts received from the subscribers.

- 3. We compared the amount of the subscriptions as approved by the Board of Directors (BOD) with the amount per schedule of cash receipts as at August 27, 2015. Both records showed a total of #1.048 billion.
- 4. We obtained and reviewed the copy of the Corporate Secretary's certificate of the minutes of meeting of the BOD and the Stockholders held on February 17, 2015 and March 31, 2015, respectively, approving the following:
 - a) Increase in the authorized capital stock of the Company from \$\mathbb{2}1.5\$ billion divided into 1.5 billion common shares with a par value of \$\mathbb{2}1.0\$ a share to \$\mathbb{2}3.0\$ billion divided into 3.0 billion common shares with the same par value.
 - b) Stock rights offering of up to 1.0 billion common shares with a par value of \$\text{P}\$1.00 per share, by way of pre-emptive rights offering to eligible existing common shareholders of the Company at the proportion of one (1) Right Share for every one and one-half (1.5) existing common shares held as of August 7, 2015 at an offer price of \$\text{P}\$1.00 per Right Share, or for an aggregate offer price of \$\text{P}\$1.0 billion.
- 5. We compared the amounts received from the subscribers with the Sales Report for Stock Rights Offering and Official Receipts from the Development Bank of the Philippines evidencing the deposit for trust fund. Below is a summary of cash receipts from the subscribers. No exception was noted.

- 6. We examined the cash disbursements book of the Company for the period January 1, 2015 to August 27, 2015 and noted that the amounts were not disbursed to the Company's stockholders in the form of loans and/or advances and subsequently paid back to the Company.
- 7. We examined the cash disbursements book of the Company subsequent to August 27, 2015 up to the date of this report and noted that the amounts were not disbursed to the Company's stockholders in the form of loans and/or advances.
- 8. We obtained a direct confirmation from the bank of the amount received from the subscribers amounting £1.048 billion. We compared the amount as confirmed by the bank with the amount shown in the schedule and noted no exceptions.
- 9. We obtained and reviewed the summary of the cash in bank account of the Company and bank reconciliation statements as of July 31, 2015. We checked the mathematical accuracy of the schedule and no exception was noted.

The sufficiency of the procedures above is solely the responsibility of the Company. Consequently, we make no representation regarding the sufficiency of the procedures either for the purpose for which this report has been requested or for any other purpose.

Because the above procedures do not constitute either an audit or a review made in accordance with Philippine Standards on Auditing or Philippine Standards on Review Engagements, we do not express any assurance on any of the financial statement accounts of the Company.

Had we performed additional procedures or performed an audit or a review of the financial statements in accordance with Philippines Standards on Auditing or Philippine Standards on Review Engagements, other matters might have come to our attention that would have been reported to you.

Our report is solely for the purpose set forth in the first paragraph of this report and for your information and is not to be used for any other purpose or to be distributed to any other parties. This report relates only to items specified above and does not extend to any financial statements of the Company taken as a whole.

Any expense incurred in connection with such issuance of certificates shall be for the account of the Applicant.
- 15. Registration of Forcian Investments—The IBSP requires that investments in Philippine securities listed on the PSB funded by inward remittance of foreign currency be converted to Philippine Pesos and registered with the BSP if the foreign exchange needed to service capital repatriation or dividend reinittance is to be sourced from the domestic banking system. The registration with the BSP of all foreign investments in the Rights Shares shall be the responsibility of the foreign investor and all costs therefore borne by such foreign investor.
- 16. Restriction on Ownership—The Philippine Constitution and related statutes set forth restrictions on foreign ownership of companies engaged in certain activities. At present, there are no foreign ownership restrictions on the outstanding capital stock of the Company with respect to its business as presently conducted.
- 17. Listing and Trading Date—The Company's application for the listing of the Rights Shares was approved by the PSE on July 8, 2015, all of the Rights Shares are expected to be listed on the PSE on October 20, 2015, after obtaining the SEC an application for increase in the authorized capital stock. The Company will file with SEC an application for increase in the authorized capital stock after the completion of the Rights Offer. Trading is expected to commence on the same date that the relevant Rights Shares are listed on the PSE.
- 18. Timetable The timetable of the Rights Offer is scheduled as follows:

Pricing Date February 17, 2015
Ex-Date August 4, 2015

Record Date: August 7, 2015

Offer Period August 17, 2015 9:00 am. (Manila time) to August 26, 2015 12:00 mon (Manila time)

The dates listed above are subject to market and other conditions and may be changed at the discretion of FOOD and Abacus Capital, subject to the approval of the PSE.

19. Underwriter's Firm Commitment to Purchase—Abacus Capital, the Issue Manager and Underwriter, in accordance with the Underwriting Agreement, shall purchase or procure subscribers to purchase the unsubscribed Rights Shares after the mandatory Second Round of the Offer and after the implementation of the commitment by the major shareholders to subscribe to the unsubscribed Rights Shares, to ensure that the Rights Shares covered by the Rights Offer are fully subscribed.

Alliance Select Foods International, Inc.'s Application

To Increase Its Authorized Capital Stock

HIP REGISTRATION DIVISION

Dear Hon. Chairperson Herbosa and Director Sales:

We refer to the application submitted by our client Alliance Select Foods International, Inc. ("Alliance") to increase its authorized capital stock ("ACS") from One Billion Five Hundred Million Pesos (\$\mathbb{P}\$1,500,000,000.00) to Three Billion Pesos (\$\mathbb{P}\$ 3,000,000,000.00) to the Company Registration and Monitoring Department of the Securities and Exchange Commission (the "Commission"), on 2 September 2015 (the "Application") for pre-filing monitoring, in accordance with existing policy of the Commission. As stated in the Director's Certificate accompanying the Application, the increase in Alliance's ACS was approved by a majority of the members of its Board of Directors on 17 February 2015 and ratified by its Stockholders representing at least two-thirds (2/3) of the outstanding capital stock of Alliance on 31 March 2015.

To date, the Application has not yet been acted upon by the Commission despite the submission of all documentary requirements required by the Commission having been complied with and submitted.

As the Commission may be aware, Alliance is a publicly-listed company and the increase in the authorized capital stock of Alliance was supported by the Stock Rights Offering ("SRO") conducted by Alliance from 17 to 26 August 2015. In connection with said offering, the Commission issued to Alliance a Confirmation of Exemption dated 21 July 2015 noting that the offer is by way of subscription to an increase in the authorized capital stock of Alliance, a transaction exempt under Section 10.1(i) of the Securities Regulation Code.

The approval of the Application directly affects the success of the SRO, a fund raising activity of Alliance. It urgently needs the funds for the conducts of its business.

Despite several follow-ups, the Application remains unacted upon. We can only surmise that the approval of the Application has been put on hold because of the pending cases between certain stockholders of Alliance as disclosed in the Secretary's Certificate issued by Ms. Barbara Anne C. Migallos. However, as explained below, there is no legal impediment to the Commission's favorable action on the Application.

1. There is no order restraining or prohibiting the Commission from acting upon or approving the Application.

As can be gleaned from the records, Commercial Case No. 15-234 entitled "Harvest All Investment Limited, et al. v. Alliance, et al." filed with the Branch 159 of the Regional Trial Court of Pasig City does not involve the propriety of the increase in ACS of Alliance. Rather, that case involved the propriety of scheduling the Annual Stockholders' Meeting after the conduct of the SRO. There was even no prayer that the Commission be enjoined from approving the increase in the ACS of Alliance.

Even assuming *arguendo* that said case involved the issue on the propriety of the increase in ACS, Plaintiffs Harvest All Investment Limited, et al.'s application for a writ of preliminary injunction was denied, and more importantly, their Complaint dated 31 July 2015 was dismissed. Certified true copies of the Resolutions dated 14 August 2015 and 24 August 2015 are attached hereto as Annexes "A-1" and "A-2".

Under Section 4 of A.M. No. 01-2-04-SC, as amended by OCA Circular No. 139-06, otherwise known as the Proposed Interim Rules of Procedure Governing Intra-Corporate Controversies Under R. A. No. 8799 "all decisions and orders issued under these Rules shall immediately be executory except the awards for moral damages, exemplary damages and attorney's fees, if any. No appeal or petition taken therefrom shall stay the enforcement or implementation of the decision or order, unless restrained by an appellate court. Interlocutory orders shall not be subject to appeal." (emphasis supplied) Thus, the abovementioned Resolutions are immediately executory despite Plaintiffs' appeal to the Court of Appeals.

It is worth emphasizing that to date, there is no order from any court enjoining the Commission from approving the Application. In their appeal to the Court of Appeals, Plaintiffs Harvest All Investment Limited, et al. pray that injunctive relief be issued so that the record date for the Annual Stockholders' Meeting be a date prior to the SRO. Thus, they prayed that, "Upon the filing of the Petition and find that the threat of great and irreparable injury exist which is imminent, issue a temporary restraining order restraining Respondent Alliance, Respondent Directors and Respondent Corporate Secretary, their agent, and persons acting under their authority, from implementing the 20 October 2015 record date for the 17 November 2015 Annual Stockholders Meeting." Clearly, Plaintiffs Harvest All Investment

Limited, et al. do not at all pray that this Honorable Commission be restrained or enjoined from approving the Application on the increase in the ACS of Alliance.

Therefore, there being no temporary restraining order or writ of preliminary injunction, there is no legal impediment on the Commission on acting on the Application.

2. The Confirmation of Exempt Transaction of the Stock Rights Offering of Alliance issued by the Commission clearly shows that the stock rights offering is by way of subscription to an increase in authorized capital stock.

In a letter dated 21 July 2015, the Market Securities Regulation Department, confirmed, "in view of the representation of Alliance that the subject offer is by way of subscription to an increase in authorized capital stock based on the corresponding rights and that no compensation or remuneration shall be paid or given in connection with the sale or disposition of said securities, the exempt status of the transaction under Section 10.1 of the Securities Regulation Code."

In said letter, the Commission clearly recognized that the SRO of Alliance is by way of subscription to an increase in ACS. Alliance cannot support its offering without the approval of the Commission of the Application. A delay in the Approval will prejudice not only Alliance, but also the investing public who subscribed to (and fully paid for) the shares during the SRO. Any such delay will, for example, subject the investing public to opportunity lost related to the movement of share prices of Alliance.

3. Deferment of the Approval of the Application would gravely prejudice the interests of Alliance and its public shareholder/investors.

It is the Commission's mission "to strengthen the corporate and capital market infrastructure of the Philippines, and to maintain a regulatory system, based on international best standards and practices, that promotes the interests of investors in a free, fair and competitive business environment." But deferment of its action on the Application would gravely prejudice the interests of the investors who invested their money in Alliance's SRO. Without the increase in ACS, these investing shareholders will be denied the issuance of their Alliance shares and their right to vote those shares. Alliance would also suffer grave prejudice because it will be hindered from proceeding with its legitimate business interest and from utilizing the funds raised from the offer.

We hope this letter clarifies any impact that the Case may have on the Application and that such Case does not hinder this Commission from acting favorably on said Application.

We hope your favorable and prompt response on the Application.

Very truly yours,

PICAZO BUYCO TAN FIDER & SANTOS

RESOLUTION

Before this Court is a Complaint involving an Intra-Corporate Controversy pursuant to A.M. 01-2-04-SC, (March 13, 2001), otherwise known as the "Interim Rules of Procedure Governing Intra-Corporate Controversies," with application for the issuance of a Writ of Preliminary Mandatory Injunction and Temporary Restraining Order/Writ of Preliminary Injunction filed by plaintiffs on August 5, 2015 and raffled to this Court on August 7, 2015.

In the Complaint, plaintiffs claimed that their rights have been materially and substantially invaded with the defendants having unreasonably imposed a condition to the exercise of their proportionate rights, that is, the holding of the Stock Rights Offering (SRO) and subscription thereto, prior to the conduct of the Annual Stockholders Meeting. Allegedly, if the SRO is not enjoined before the Annual Stockholders Meeting, plaintiffs will have already been deprived of their full voting rights proportionate to their

shareholdings at the time that the June 15, 2015 Annual Stockholders Meeting should have been held, as provided under the defendant corporation's By-Laws. Further, should the SRO ensue, plaintiffs stand to suffer great and irreparable injury and damage that cannot be measured with reasonable accuracy nor susceptible of mathematical computation. Thus, unless a TRO is immediately issued to prevent defendants-officers and Directors, their agents and persons acting under their authority, from carrying out the SRO, plaintiffs and all other minority stockholders who may exercise their sound judgment against subscribing to the SRO will all be deprived of the exercise of their full voting rights on the basis of their existing shareholdings.

Defendants, except for Barbara Anne C. Migallos, filed their respective Oppositions on the Application for Issuance of a Temporary Restraining Order raising the following grounds, among others: (a) the Court's lack of jurisdiction for failure of plaintiffs to file the correct filing fees; (b) plaintiffs' willful and deliberate forum shopping; (c) plaintiffs' failure to implead all the indispensable parties; (d) plaintiffs' failure to exhaust ordinary and available remedies; (e) plaintiffs' failure to establish the requirements for the issuance of an injunctive writ; (f) the primary jurisdiction of the Philippine Stock Exchange over the case; (g) the prohibition from filing the complaint under the Interim Rules for being a nuisance and harassment suit; (h) plaintiffs' coming to court with unclean hands; and (i) the prejudgment of the main case.

From the many issues raised during the summary hearing, this Court deems it prudent to rule on the most pressing issue at hand and the issue for which the summary hearing for the application of the TRO was called for on August 12, 2015 – whether or not plaintiffs are entitled to the issuance of a TRO, more specifically, whether or not defendants should be restrained from implementing all acts in furtherance of the SRO until the 2015 Annual Stockholders Meeting has been held and adjourned.

A writ of preliminary injunction and a TRO are injunctive reliefs and preservative remedies for the protection of substantive rights and interests. Essential to the grant of such is the existence of an urgent necessity in order to prevent serious damage. Hence, a TRO is issued only in cases of such extreme urgency that grave injustice and irreparable injury would arise unless it is issued immediately. Under Section 5, Rule 58 of the Rules of Court, a TRO may be issued only if it appears from the facts shown by affidavits or by the verified

STATE OF THE STATE application that great or irreparable injury would be inflicted on the applicant before the writ of preliminary injunction could be heard.1

Thus, to be entitled to the injunctive writ, petitioners must show that (1) there exists a clear and unmistakable right to be protected; (2) this right is directly threatened by an act sought to be enjoined; (3) the invasion of the right is material and substantial; and (4) there is an urgent and paramount necessity for the writ to prevent serious and irreparable damage.2

Plaintiffs failed to sufficiently meet the foregoing requisites to warrant the issuance of a TRO being prayed for. Based on the summary hearing and the arguments raised in the Application for TRO and Oppositions thereto by the parties, it appears that plaintiffs have no clear and unmistakable right that has been violated or would be violated by the defendants to warrant the Court's intervention through the issuance of a TRO. If at all, the right of plaintiffs that may be impeded is their right to the exercise of their full voting rights in proportion to their existing shares on the date mandated for the holding of the Annual Stockholders Meeting under the defendant corporation's By-Laws. Also, even assuming that plaintiffs have a clear and material right that would be breached with the consequent diminution of their voting rights after the SRO, nonetheless, the issuance of a TRO is unwarranted. While plaintiffs may suffer damage and injury as a result of the diminution in their voting rights and dilution of their shares, the damage, though apart from being contigent, does not seem to be so grave and irreparable to necessitate the issuance of an injunctive relief presently being sought. On the contrary, as to whether plaintiffs' shareholdings will be diluted and their concomitant voting rights severely affected, from which they now seek protection, these lie in the hands of plaintiffs themselves who are given by defendant corporation pre-emptive right to subscribe to the SRO to increase their shareholdings for their better representation and greater voting rights in the corporation.

Notably, there seems to be an absence of urgent necessity as well to warrant the issuance of a TRO considering that plaintiffs have been informed of the SRO on February 17, 2015 when the Board of Directors authorized the Rights Offer and the postponement of the Annual Stockholders Meeting on May 29, 2015, yet, no immediate action has been taken to seek redress for their rights that have been or would be allegedly violated. 的 \$76岁 #4.054 #3. 多比如19.45。5

In not finding that the plaintiffs have an ostensible right to the issuance of a TRO, this Court is further guided by the maxim that it should avoid issuing a writ of preliminary injunction which would in effect dispose of the main case without going into a full-blown trial. Instructive is the following pronouncement of the Supreme Court in Nerwin Industries Corporation v. PNOC-Energy Development Corporation, et al.³:

Moreover, judges dealing with applications for the injunctive relief ought to be wary of improvidently or unwarrantedly issuing TROs or writs of injunction that tend to dispose of the merits without or before trial. Granting an application for the relief in disregard of that tendency is judicially impermissible, for it is never the function of a TRO or preliminary injunction to determine the merits of a case, or to decide controverted facts. It is but a preventive remedy whose only mission is to prevent threatened wrong, further injury, and irreparable harm or injustice until the rights of the parties can be settled. xxx.

In addition, it has been consistently held that there is no power the exercise of which is more delicate, which requires greater caution, or more dangerous in a doubtful case, than the issuance of an injunction. It is the strong arm of equity that should never be extended unless to cases of great injury, where courts of law cannot afford an adequate or commensurate remedy in damages.⁴

Finally, every court should remember that an injunction is a limitation upon the freedom of action of the defendant and should not be granted lightly or precipitately. It should be granted only when the court is fully satisfied that the law permits it and the emergency demands it.⁵

WHEREFORE, in view of the foregoing, the prayer for the issuance of a Temporary Restraining Order is hereby **DENIED**.

Considering the issues on filing fees and forum shopping raised by the defendants during the summary hearing on the application for TRO, the parties are required to submit their respective

RESOLUTION

0 1 OCT 2015

On August 14, 2015, the Court issued a Resolution directing the parties to submit their respective Memorandum of Authorities on the issues on filing fees and forum shopping.

Except for defendant Barbara Anne C. Migallos and defendants Marie Grace T. Vera-Cruz and Atty. Antonio C. Pacis, who adopted the arguments and Memorandum of Authorities of their codefendants, the parties submitted their respective Memorandum of Authorities relative thereto.

And so, the Court is called upon to resolve the following issues:

(a) whether the plaintiffs paid the correct amount of filing fees and if not, whether the Court has jurisdiction over the case; and (b) whether the plaintiffs are guilty of forum shopping.

On the issue of filing fees, citing the case of Manchester Development Corporation v. Court of Appeals', defendants argue that the Court did not acquire jurisdiction over the subject matter of the instant complaint due to the failure of the plaintiffs to pay the correct filing fees. Relying also on the case of Lu v. Lu Ym, et al.,2 defendants assert that an intra-corporate controversy always involves a property in litigation, the value of which is always the basis for computing the applicable fees. Thus, applying the principle laid down in the Lu case, the properties in litigation in the present complaint are the corporation's shares available for subscription in the Stock Rights Offering (SRO), the total value of which amounts to One Billion Pesos. Under Section 7(a) of Rule 141 of the Rules of Court, in relation to A.M. No. 04-2-04-SC, the plaintiffs should have paid more or less Twenty Million Pesos as filing fees and not the measly sum of Php8,860.00. Defendants argue further that the failure of the plaintiffs to state in their prayer that the capital infusion involved in the SRO amounts to One Billion Pesos was a clear manifestation of plaintiffs' intention to evade the proper payment of filing fees.

Plaintiffs, on one hand, maintain that they paid the correct filing fees. They contend that defendants' reliance on the case of Lu vs. Lu Ym, et al. and invocation of the ruling therein is erroneous inasmuch as they do not claim any right to recovery over the amount of the shares of the corporation offered in the SRO. According to plaintiffs, the subject matter of their complaint is the calling and the holding of the 2015 Anual Stockholders Meeting prior to and as a condition for implementing the SRO and does not in any way relate to any claim on the One Billion Peso SRO. As such, the nature of the action deals with the performance of an act and not a claim for a sum of money or properties in litigation. Besides, even assuming that there was error in the computation of the filing fees, such error did not strip the court of its jurisdiction over the case. Plaintiffs likewise aver that they were in good faith and that they did not have any intention to defraud the government as they simply relied on the assessment made by the Clerk of Court. On the contrary, plaintiffs' actual payment of the assessed docket fees negates any imputation of bad faith or intent to defraud the government on their part.

The Court upholds the position of the defendants.

To be sure, the filing of a complaint or appropriate initiatory pleading **and** the payment of the prescribed docket fee are the acts that vest a trial court with jurisdiction over the subject matter or nature of the action.³

COMM'L. CASE NO. 15-234 RESOLUTION, dated August 24, 2015 Page 3 of 8

ATTY. ANA FLORENCE S. CUNTAPAY-OAMIL Branch Clerk of Court 2015

Plaintiffs filed this Complaint with application for the issuance of a Writ of Preliminary Mandatory Injunction and Temporary Restraining Order/Writ of Preliminary Injunction pursuant to A.M. 01-2-04-SC, otherwise known as the "Interim Rules of Procedure Governing Intra-Corporate Controversies." Thus, the instant Complaint is treated as an intra-corporate controversy case and covered by the Rules governing the same.

The Rule applicable on the computation of filing fees is Rule 141 of the Rules of Court on Legal Fees, as amended by A.M. No. 04-2-04-SC (Re: Proposed Revision of Rule 141, Revised Rules of Court on Legal Fees), which took effect on August 16, 2004. The instant Complaint, being an intra-corporate controversy case, is explicitly governed by Section 21(k) of Rule 141:

SEC. 21. Other fees. - The following fees shall also be collected by the clerks of the Regional Trial Court or courts of the first level, as the case may be:

XXX XXX XXX

(k) For petitions for insolvency or other cases involving intra-corporate controversies, the fees prescribed under Section 7(a) shall apply. (Underlining supplied)

Section 7(a) of the same Rules provides:

SEC. 7. Clerks of Regional Trial Courts. -

a) For filing an action or a permissive OR COMPULSORY counterclaim, CROSS-CLAIM, or money claim against an estate not based on judgment, or for filing a third-party, fourth-party, etc. complaint, or a complaint-in-intervention, if the total sum claimed, INCLUSIVE OF INTERESTS. PENALTIES, SURCHARGES, DAMAGES OF WHATEVER KIND, AND ATTORNEY'S FEES, LITIGATION EXPENSES AND COSTS and/or in cases involving property, the FAIR MARKET value of the REAL property in litigation STATED IN THE CURRENT TAX DECLARATION OR CURRENT ZONAL VALUATION OF THE BUREAU OF INTERNAL REVENUE, WHICHEVER IS HIGHER, OR IF THERE IS NONE, THE STATED VALUE OF THE PROPERTY IN LITIGATION OR THE VALUE OF THE PERSONAL PROPERTY IN LITIGATION AS ALLEGED BY THE CLAIMANT, XXX. (Emphasis supplied)

000554

Notably, prior to the amendment by A.M. No. 04-2-04-SC, the prevailing rule on legal fees was governed by A.M. No. 00-8-10-SC which states that "the basis for computing the filing fees in intracorporate cases shall be Section 7(a) and (b) 1 & 3 of Rule 141." However, paragraphs (b) 1 & 3 which pertain to "actions where the value of the subject matter cannot be estimated" and "all other actions not involving property," were omitted from the amended provision of the Rules of Court on Legal Fees. The said omission was elucidated by the Supreme Court in Lu vs. Lu Ym,4 viz:

The new Section 21(k) of Rule 141 of the Rules of Court, as amended by A.M. No. 04-2-04-SC (July 20, 2004), expressly provides that [f]or petitioners for insolvency or other cases involving intra-corporate controversies, the fees prescribed under Section 7(a) shall apply. Nota dignum is that paragraph (b) 1 & 3 of Section 7 thereof was omitted from the reference. Said paragraph refers to docket fees for filing [a]ctions where the value of the subject matter cannot be estimated and all other actions not involving property.

By referring the computation of such docket fees to paragraph (a) only, it denotes that an intra-corporate controversy always involves a property in litigation, the value of which is always the basis for computing the applicable filing fees. The latest amendments seem to imply that there can be no case of intra-corporate controversy where the value of the subject matter cannot be estimated. Even one for a mere inspection of corporate books. (Emphasis adopted)

In the present case, as admitted by the plaintiffs in their Complaint, the SRO is valued at One Billion Pesos. The SRO being the property in litigation, its One Billion Peso value should be the basis for the computation of the correct filing fees. Thus, following the table for computation of filing fees under Section 7(a), Rule 141 of the Rules of Court, plaintiffs should have paid an amount of more or less Twenty Million Pesos as filing fees. Yet, records reveal that plaintiffs paid Php8,860.00 only as filing fees. The disparity between Php8,860.00 as the assessed/paid amount of filing fees and the more or less Twenty Million Pesos correct amount of filing fees evidently shows that plaintiffs did not pay the correct amount of filing fees as mandated by the Rules. Hence, on this ground alone, the complaint should be dismissed for lack of jurisdiction over the case, following the pronouncement of the Supreme Court in Manchester Development Corporation v. Court of Appeals.5

CERTIFIED TRUE PHOTOCOPY

This rule on the payment of filing fees enunciated in the Manchester case was however relaxed in Sun Life Insurance Office v. Asuncion, and echoed in the case of Heirs of Bertuldo Hinog v. Melico, wherein the Supreme Court held that the non-payment of filing fees does not automatically result to the dismissal of the case, viz.:

> Plainly, while the payment of prescribed docket fee is a jurisdictional requirement, even its non-payment at the time of filing does not automatically cause the dismissal of the case, as long as the fee is paid within the applicable prescriptive or reglementary period, more so when the party involved demonstrates a willingness to abide by the rules prescribing such payment. Thus, when insufficient filing fees were initially paid by the plaintiffs and there was no intention to defraud the government, the Manchester rule does not apply. (Underscoring supplied)

While the insufficiency of the filing fees does not immediately divest the trial court of its jurisdiction over the case if there was no intention on the part of the plaintiff to defraud the government, this liberal application of the rules, however, is premised on the willingness of the plaintiff to pay the correct docket fees and the absence of intent to evade payment of the same. Thus, if there is a deliberate evasion of payment of correct filing fees with intent to defraud the government, the evident bad faith of the plaintiff bars the liberal application of the said rule.

This being so, it is then important to determine whether plaintiffs were in good faith in relying on the assessment made by the Clerk of Court; conversely, whether plaintiffs had the intention to evade payment of correct filing fees and defraud the government. On this score, the Court finds plaintiffs in bad faith and with clear intent to defraud the government for the following reasons: First, during the hearing on plaintiffs' application for TRO, when the issue of insufficiency of filing fee was first raised, plaintiffs never manifested their willingness to abide by the Rules by paying additional filing fees when so required by the Court. Second, despite admission by the plaintiffs in their Complaint that the SRO, the property in litigation, is valued at One Billion Pesos, plaintiffs chose to keep mum on the meager assessment made by the Clerk of Court. Third, while plaintiffs made mention of the value of the SRO in the body of their Complaint, they failed to indicate the same in their Prayer, thereby preventing the Clerk of Court from making the correct assessment of filing fees. OU no. 4642314

CERTIFIED TRUE PHOTOCOPY

Clearly, the rationale in requiring that the amount of damages claimed must be specified not only in the body of the pleading but also in the prayer portion cannot be overemphasized. As explained by the Supreme Court in Siapno v. Manalo:8

> The requirement that the amount of damages claimed has to be specified not only in the body of the pleading but also in its prayer portion came about to put an end to the then prevailing practice by counsels of reciting the damages praved for only in the body of the complaint to evade payment of the correct filing fees. To quote from Manchester:

To put a stop to this irregularity, henceforth all complaints, petitions, answers and other similar pleadings should specify the amount of damages being prayed for not only in the body of the pleading but also in the prayer, and said damages shall be considered in the assessment of the filing fees in any case. Any pleading that fails to comply with this requirement shall not be accepted nor admitted, or shall otherwise be expunged from the record. (Emphasis adopted)

Finally, plaintiffs' bad faith was further made evident with their filing of an Amended Complaint on August 19, 2015 deleting the prayer on the nullification of the Board Resolution approving the One Billion Peso SRO. The amendment of the Complaint appears to be a mere subterfuge to evade the payment of correct filing fees if not to cure the fatal effect of the non-payment of proper fees resulting to the divestment of the Court of its jurisdiction over the case. It is a wellsettled rule that an amendment of a complaint cannot vest jurisdiction upon the Court. For all legal purposes, there is no such original complaint that was duly filed which could be amended.9

Verily, the plaintiffs having failed to pay the correct amount of filing fees, coupled with intent to evade payment thereof and to defraud the government, the Court is constrained to dismiss this case for want of jurisdiction. Consequently, the Court not having acquired jurisdiction over the subject matter can no longer address, much less resolve the issue on forum shopping.

Corollarily, inasmuch as the Writ of Preliminary Injunction is a mere ancillary to and dependent upon the result of the main action, the Court has likewise no jurisdiction to resolve plaintiffs, application for injunctive reliefs. CERTIFIED TRUE PHOTOCOPY

SECRETARY'S CERTIFICATE

- I, BARBARA ANNE C. MIGALLOS, Filipino, of legal age, with office address at 7th Floor, Phinma Plaza, 39 Plaza Drive, Rockwell Center, Makati City, Metro Manila, after having been duly sworn in accordance with law, hereby certify that:
- 1. I am the Corporate Secretary of ALLIANCE SELECT FOODS INTERNATIONAL, INC., a corporation organized and existing under and by virtue of the laws of the Republic of the Philippines, with principal place of business at Suite 1206, East Tower, PSE Centre, Exchange Road, Ortigas Center, Pasig City, Metro Manila 1600 Philippines (the "Company").
- 2. The Company's Board of Directors, at a special meeting held on 17 February 2015, approved the increase of the Company's authorized capital stock from Php 1,500,000,000.00 to Php 3,000,000,000.00 (the "Capital Increase"). The Capital Increase was later approved and ratified by stockholders representing at least 2/3 of the total issued and outstanding capital stock of the Company at a special stockholders' meeting called for this purpose held on 31 March 2015, in accordance with the requirements of Section 38 of the Corporation Code.

A copy of the Directors' Certificate notarized on 1 September 2015 on the approval of the Capital Increase, previously submitted to the Securities and Exchange Commission (the "SEC"), is attached to this Certification as Annex "A" and made an integral part hereof.

- 3. Based on the Company's records, shareholders Harvest All Investment Limited, Victory Fund Limited, Bondeast Private Limited, Mr. Albert Hong Hin Kay and Ms. Hedy S.C. Yap Chua ("Harvest All et al." hereafter) collectively own 367,829,129 common shares of the Company, equivalent to 24.53% of the Company's authorized capital stock prior to the Capital Increase. Approval of the Capital Increase by shareholders owning at least 2/3 of the total issued and outstanding shares of the Company was thus obtained despite the negative vote of Harvest All et al.
- 4. In Commercial Case No. 14-219 filed on May 2014 and pending before the Regional Trial Court of Pasig City (the "Pasig RTC"), Mr. Kay and Ms. Chua questioned the private placement of Strongoak, Inc. ("Strongoak") into the Company. The said private placement resulted in the dilution of Harvest All et al.'s interest in the Company from around 34.4% to 24.53%. The Pasig RTC denied the prayer for a temporary restraining order. No writ of preliminary injunction has been issued. The shares of Strongoak pursuant to the private placement have been listed with the Philippine Stock Exchange. The Company has not received or been informed of any judgment by the court on this case.
- 5. As of the date of this Certification, the Company has also not received or been informed of any temporary restraining order or injunction issued by any court restraining or enjoining the said Capital Increase. Neither has the

Company received nor is informed of a judgment from any court declaring the Board and shareholders' approval of the Capital Increase as null and void.

6. The Company and the undersigned understands that approval by the SEC of the Capital Increase shall be without prejudice to any action that may be brought by the SEC against the Company, its Board of Directors, officers and the undersigned under the 2006 SEC Rules of Procedure if the Certification is proven to be false.

IN WITNESS WHEREOF, I have hereunto signed this Certificate this 27th day of October 2015 at Makati City.

SECRETARY'S CERTIFICATE

- I, BARBARA ANNE C. MIGALLOS, Filipino, of legal age, with office address at 7th Floor, Phinma Plaza, 39 Plaza Drive, Rockwell Center, Makati City, Metro Manila, after having been duly sworn in accordance with law, hereby certify that:
- 1. I am the Corporate Secretary of ALLIANCE SELECT FOODS INTERNATIONAL, INC., a corporation organized and existing under and by virtue of the laws of the Republic of the Philippines, with principal place of business at Suite 1206, East Tower, PSE Centre, Exchange Road, Ortigas Center, Pasig City, Metro Manila 1600 Philippines (the "Company").
- 2. The Company's Board of Directors, at a special meeting held on 17 February 2015, approved the increase of the Company's authorized capital stock from Php 1,500,000,000.00 to Php 3,000,000,000.00 (the "Capital Increase"). The Capital Increase was later approved and ratified by stockholders representing at least 2/3 of the total issued and outstanding capital stock of the Company at a special stockholders' meeting called for this purpose held on 31 March 2015, in accordance with the requirements of Section 38 of the Corporation Code.

A copy of the Directors' Certificate notarized on 1 September 2015 on the approval of the Capital Increase, previously submitted to the Securities and Exchange Commission (the "SEC"), is attached to this Certification as Annex "A" and made an integral part hereof.

- 3. Based on the Company's records, shareholders Harvest All Investment Limited, Victory Fund Limited, Bondeast Private Limited, Mr. Albert Hong Hin Kay and Ms. Hedy S.C. Yap Chua ("Harvest All et al." hereafter) collectively own 367,829,129 common shares of the Company, equivalent to 24.53% of the Company's authorized capital stock prior to the Capital Increase. Approval of the Capital Increase by shareholders owning at least 2/3 of the total issued and outstanding shares of the Company was thus obtained despite the negative vote of Harvest All et al.
- 4. In Commercial Case No. 14-219 filed on May 2014 and pending before the Regional Trial Court of Pasig City (the "Pasig RTC"), Mr. Kay and Ms. Chua questioned the private placement of Strongoak, Inc. ("Strongoak") into the Company. The said private placement resulted in the dilution of Harvest All et al.'s interest in the Company from around 34.4% to 24.53%. The Pasig RTC denied the prayer for a temporary restraining order. No writ of preliminary injunction has been issued. The shares of Strongoak pursuant to the private placement have been listed with the Philippine Stock Exchange. The Company has not received or been informed of any judgment by the court on this case.
- 5. As of the date of this Certification, the Company has also not received or been informed of any temporary restraining order or injunction issued by any court restraining or enjoining the said Capital Increase. Neither has the

Company received nor is informed of a judgment from any court declaring the Board and shareholders' approval of the Capital Increase as null and void.

6. The Company and the undersigned understands that approval by the SEC of the Capital Increase shall be without prejudice to any action that may be brought by the SEC against the Company, its Board of Directors, officers and the undersigned under the 2006 SEC Rules of Procedure if the Certification is proven to be false.

IN WITNESS WHEREOF, I have hereunto signed this Certificate this 27th day of October 2015 at Makati City.

CERTIFICATE OF INCREASE IN CAPITAL STOCK OF ALLIANCE SELECT FOODS INTERNATIONAL, INC.

KNOW ALL MEN BY THESE PRESENTS:

We, the undersigned, being the Chairman and the Secretary of the stockholders' meeting held on 31 March 2015, and majority of the members of the Board of Directors of Alliance Select Foods International, Inc. (the "Corporation"), do hereby CERTIFY and REAFFIRM that:

1. At the duly constituted meeting of the Board of Directors held on 17 February 2015 and at the stockholders' meeting held on 31 March 2015 at Ming Bistro and Bar, Ground Level, Philippine Stock Exchange Centre, Exchange Road, Pasig City, respectively, majority of the Board of Directors and stockholders owning or representing at least two-thirds (2/3) of the outstanding capital stock of Company, approved the increase of the Corporation's authorized capital stock from One Billion Five Hundred Million Pesos (Php1,500,000,000.00) divided into One Billion Five Hundred Million (1,500,000,000.00) common shares, with a par value of One Peso (Php1.00) per share, to Three Billion Pesos (Php3,000,000,000.00) divided into Three Billion (3,000,000,000.00) common shares with a par value of One Peso (Php1.00) per share.

The requirements of Section 38 of the Corporation Code of the Philippines have been complied with.

- 2. The amount of increase in authorized capital stock of the Corporation is One Billion Five Hundred Million Pesos (Php1,500,000,000.00) divided into One Billion Five Hundred Million (1,500,000,000.00) common shares, with a par value of One Peso (Php1.00) per share.
- 3. The following have subscribed to the increase in authorized capital stock of the Corporation, and have paid for such subscription by way of cash, as follows:

SUBSCRIBER	NO. OF SHARES	VALUE	PAID-UP
PCD Nominee Corp. (Filipino)	952,606,926	Php 952,606,926.00	Php 952,606,926.00
PCD Nominee Corp. (Foreign)	47,382,167	Php 47,382,167.00	Php 47,382,167.00

Report of an Independent Certified Public Accountant on the Conduct and Result of the Required Verification Procedures

To the Securities and Exchange Commission:

In connection with the application for increase in authorized capital stock of Alliance Select Foods International, Inc., the undersigned declares:

- (1) That, as an external auditor engaged by the Company, we conducted the verification procedures required under Section 2 of the Guidelines on On-site Verification of Financial Records Relative to Certain Applications Filed with the Commission, and that we observed all the requirements of existing auditing standards and practices applicable to the said engagement; and
- (2) That since the foregoing engagement does not involve an audit or review of the Company's financial statements but only the conduct of a set of agreed-upon procedures and issuance of a report of the factual findings thereon, we gave a "no assurance" statement in our September 1, 2015 report attached to this letter. We understand, however, that the "no assurance" statement in our said report does not exempt us from responsibility over the conduct of the said procedures and the factual findings stated therein.

Report of Factual Findings

Alliance Select Foods International, Inc.
Suite 1205 East Tower, Philippine Stock Exchange Centre
Exchange Road, Ortigas Center
Pasig City

Attention:

Ms. Elmira A. Nate

Chief Financial Officer

Gentlemen:

We have performed the procedures agreed to with the management of Alliance Select Foods International, Inc. (the Company) with respect to the proposed increase in the Company's authorized capital stock from ₱1.5 billion, divided into 1.5 billion common shares with a par value of ₱1.0 a share, to ₱3.0 billion, divided into 3.0 billion common shares with the same par value. Our engagement was undertaken in accordance with Philippine Standards on Related Services (PSRS) 4400, "Engagements on Agreed-Upon Procedures." The procedures were performed solely to assist the Company with its application with the Securities and Exchange Commission (SEC) for the proposed increase in authorized capital stock as required under Section 2 of SEC Memorandum Circular No. 6, Series of 2008, "Guidelines on On-Site Verification of Financial Records relative to certain Applications Filed with the SEC."

The on-site verification procedures we performed, in accordance with Section 2 of SEC Memorandum Circular No. 6, Series of 2008, and the related findings are as follows:

1. We obtained and reviewed the schedule of cash received on the proposed increase in capital stock. The receipts were recorded in the accounting records under the account "Deposit on subscription" aggregating ₱1.048 billion as at August 27, 2015. We checked the mathematical accuracy of the schedule and found it in order. Details are as follows:

	PER GENERA	L LEDGER	
Date	Particulars	Stockholder	Amount
8/27/2015	Subscription of shares thru Stock Rights Offer	Raymond Kee Hiok See	₽1 03,333
8/27/2015	Subscription of shares thru Stock Rights Offer	Stephen G. Soliven	386
8/27/2015	Subscription of shares thru Stock Rights Offer	PCD Nominee Corporation (Filipino)	1,000,127,288
8/27/2015	Subscription of shares thru Stock Rights Offer	PCD Nominee Corporation (Foreign)	47,382,167
Total			₽1,047,613,174

We understand that the proceeds from the subscription will be used for: (a) capital expenditures, (b) repayment of loans, (c) purchase and installation of new management information system, and (d) working capital requirements.

Further, based on the terms of the Rights Offer, "In the event that the number of Rights Shares to be received by an Applicant is less than the number covered by its Application, or if an Application is rejected by the Company, then the Company shall refund, without interest, via check payable to the relevant Applicant, beginning on the fifth (5th) Banking Day from the end of the Offer Period, the amount corresponding to the number of Rights Shares not issued to such Applicant".

2. We traced the amounts received from subscribers to the general ledger and the cash receipts books. All receipts aggregating \$1.048 billion were made through check deposits on the same date. Below are the details of cash receipts received from the subscribers.

- 3. We compared the amount of the subscriptions as approved by the Board of Directors (BOD) with the amount per schedule of cash receipts as at August 27, 2015. Both records showed a total of #1.048 billion.
- 4. We obtained and reviewed the copy of the Corporate Secretary's certificate of the minutes of meeting of the BOD and the Stockholders held on February 17, 2015 and March 31, 2015, respectively, approving the following:
 - a) Increase in the authorized capital stock of the Company from \$\mathbb{2}1.5\$ billion divided into 1.5 billion common shares with a par value of \$\mathbb{2}1.0\$ a share to \$\mathbb{2}3.0\$ billion common shares with the same par value.
 - b) Stock rights offering of up to 1.0 billion common shares with a par value of £1.00 per share, by way of pre-emptive rights offering to eligible existing common shareholders of the Company at the proportion of one (1) Right Share for every one and one-half (1.5) existing common shares held as of August 7, 2015 at an offer price of £1.00 per Right Share, or for an aggregate offer price of £1.0 billion.
- 5. We compared the amounts received from the subscribers with the Sales Report for Stock Rights Offering and Official Receipts from the Development Bank of the Philippines evidencing the deposit for trust fund. Below is a summary of cash receipts from the subscribers. No exception was noted.

- 6. We examined the cash disbursements book of the Company for the period January 1, 2015 to August 27, 2015 and noted that the amounts were not disbursed to the Company's stockholders in the form of loans and/or advances and subsequently paid back to the Company.
- 7. We examined the cash disbursements book of the Company subsequent to August 27, 2015 up to the date of this report and noted that the amounts were not disbursed to the Company's stockholders in the form of loans and/or advances.
- 8. We obtained a direct confirmation from the bank of the amount received from the subscribers amounting £1.048 billion. We compared the amount as confirmed by the bank with the amount shown in the schedule and noted no exceptions.
- 9. We obtained and reviewed the summary of the cash in bank account of the Company and bank reconciliation statements as of July 31, 2015. We checked the mathematical accuracy of the schedule and no exception was noted.

The sufficiency of the procedures above is solely the responsibility of the Company. Consequently, we make no representation regarding the sufficiency of the procedures either for the purpose for which this report has been requested or for any other purpose.

Because the above procedures do not constitute either an audit or a review made in accordance with Philippine Standards on Auditing or Philippine Standards on Review Engagements, we do not express any assurance on any of the financial statement accounts of the Company.

Had we performed additional procedures or performed an audit or a review of the financial statements in accordance with Philippines Standards on Auditing or Philippine Standards on Review Engagements, other matters might have come to our attention that would have been reported to you.

Our report is solely for the purpose set forth in the first paragraph of this report and for your information and is not to be used for any other purpose or to be distributed to any other parties. This report relates only to items specified above and does not extend to any financial statements of the Company taken as a whole.

The information supplied below is merely excerpts taken from the Prospectus filed by the Issuer with The Philippine Stock Exchange, inc. ("PSE"), as amended or supplemented. For a complete description of the Terms of the Rights Offer" in the Prospectus. Capitalized terms used herein shall have the meaning ascribed to them in the final Prospectus dated July 22, 2015, filed by the Company with the PSE, as may be amended or supplemented.

- L. Issuer-Alliance Solect Foods international, inc., formerly known as Alliance Tuna International, Inc. ("FOOD" or the "Company")
- 2. Rights Shares 1,000,000,000 Common Shares with a pai value of \$1.00 per share. All of the Rights Shares will be issued from the Company's increase in anthorized capital stock from 1,500,000,000 Common Shares to 3,000,000 Common Shares.

The Rights Shares shall rank equally in all respects with existing Common Shares, including the right to receive all dividends or distributions made, paid or declared after a valid subscription agreement is perfected between the Company and a buyer as evidenced by the written acceptance by the Company of the application to subscribe and purchase (the "Application to Subscribe and Purchase" or the "Application") of the buyer and other conditions, including listing of the Rights Shares on the PSE.

3. The Offer-The Company is offering Common Shares for subscription to Eligible Shareholders on a pre-emptive rights basis.

Strongoak Inc., one of the Company's major beneficial shareholders, has committed to subscribe to its respective Entitlement Shares, and to all unsubscribed Rights Shares remaining after the second round of the Rights Offer pursuant to its letter of commitment submitted to the PSE. To the extent that any Rights Shares remain unsubscribed in the Rights Offer after the mandatory Second Round, such Rights Shares, subject to certain conditions; will be taken up by Abacus Capital & Investment Corporation ("Abacus Capital"); as the Underwriter, who shall procure purchasers, or falling which, shall purchase the unsubscribed Rights Shares.

- 4. <u>Offer Price</u>—The Rights Shares are being offered to all El gible Shareholders at the Offer Price of \$1.00 per Share. The Offer Price is equivalent to the par value of the Company's Common Shares and represents a 19.71% discount to the volume weighted average price (*WAP*) of the Company's Common Shares for the 15-trading day period immediately preceding the Pricing Date, from January 27 to February 16, 2015. Pricing Date was set on February 17, 2015, the date the Company's Board of Directors approved the Rights Offer.
- 6. Offer Period-The Offer Period shall commune on August 17, 2015, at 9:00 a.m. (Manila time) and end on August 26, 2015 at 12:00 noon (Manila time). FOOD and Abacus Capital reserve tho right to extend or terminate the Offer Period with the approval of the PSE.

If for any reason, my day of the Offer Period is a non-Banking Day, the Offer Period shall automatically be extended to the next succeeding banking day/s such that there will always be seven (7) Banking Days comprising the Offer Period, unless sooner terminated or extended by the Company.

- 6. Minimum Subscription-Each Application must be for a minimum of one (1) Rights Share.
- 7. Eligible Shareholders-The Rights Shares are being offered to eligible existing holders of record of Common Shares as of the Record Date. The Common Shares may be held by any person or entity, subject to the right of the Company to reject an Application or reduce the number of Rights Shares applied for subscription or purchase if the same will cause the Company to be in breach of the Philippine ownership requirement under relevant Philippine laws.
- 8. Rights Entitlement-Each Eligible Shareholder shall be entitled to subscribe to one (1) Rights Share for every one and one-half (1.50) existing Common Shares held as of Record Date (Pontlement Shares).

Fractions of Rights Shares will not be allotted to existing shareholders and fractional entitlements will be rounded down to the nearest whole number of Rights Shares. Such fractions will be aggregated and sold for the benefit of the Company.

Subscription to the Rights Shares in certain jurisdictions may be restricted by law. Foreign investors interested in subscribing or purchasing the Rights Shares should inform themselves of the applicable legal requirements under the laws and regulations of the countries of their nationality, residence or domicile, and as to any relevant tax or fureign exchange control laws and regulations affecting them personally. Foreign investors, both corporate and individual, warrant that their purchase of the Rights Shares will not violate the laws of their jurisdiction and that they are allowed to acquire, purchase and hold the Rights Shares.

The offer process in relation to the Entitlement Shares shall also be known as the First Round of the Rights Offer,

Additional Subscription—I(an Eligible Shareholder (the "Applicant") fully subscribes to his/her Entitlement Shares and subject to the availability of unsubscribed Rights Shares arising from
the failure of other Eligible Shareholders to fully exercise their Entitlement Shares, the Applicant may simultaneously apply for an additional subscription of unsubscribed Rights Shares
("Additional Rights Shares"). The Additional Rights Shares are payable in full upon submission of the Application.

If the aggregate number of Additional Rights Shares available for subscription equals or exceeds the aggregate number of Additional Rights Shares so subscribed for by all Applicants, an Applicant shall be allocated the number of Additional Rights Shares indicated in his Application.

If the aggregate number of Additional Rights Shares available for subscription is less than the aggregate number of Additional Rights Shares so subscribed for by all Applicants, the available Additional Rights Shares shall be allocated among all Applicants with have applied to subscribe for such Additional Rights Shares. Such affocation will be made at the discretion of the Company primarily based on each Applicant's original shareholdings in the Company as of Record Date relative to the original shareholding of all other applicants for Additional Rights Shares as of such Record Date, provided that no Applicant for Additional Rights Shares shall be allocated Additional Rights Shares that are more than the number for which such Applicant has anothed.

There can be no guarantee made as to the number of Additional Rights Shares an Applicant may be allocated. A subscription for Additional Rights Shares is irrevocable on the part of the Applicant and may not be cancelled or modified by such Applicant.

The offer process in relation to the Additional Rights Shares shall be known as the Second Round of the Rights Offer.

- 10. Payment Terms—The Rights Shares must be paid for in full upon submission of the Application. Payment must be in Philippinia Pesos by means of: (a) a duty funded personal/company check drawn against a bank account with any brench of a Bangko Sentral ag Pilipinas ("BSP") authorized agent bank located in Metra Manila, or (b) a Managar's or a Cashier's Check. Checks must be made payable to the order of "Alliance Select Foods Rights Offer" crossed "Payer's Account Only", and dated as of the date of the Application to Subscribe and Purchase Form Check payments for regional clearing shall not be accepted.
- 11. Acceptance/Rejection of Applications—The Company has full discretion to accept and reject all or a portion of any Application under the terms and conditions of the Rights Offer. The actual number of Rights Shares to which any Applicant may be entitled to is subject to the confirmation of the Company. Applications where checks are dishonored upon first presentment and Applications which do not comply with the terms of the Rights Offer shall be rejected. Moreover, payments received upon submission of an Application do not constitute approval or acceptance by the Company of the Application.

An Application, when accepted, shall constitute an agreement between the Applicant and the Company for the subscription to the Rights Shares at the time, in the manner, and subject to the terms and conditions set forth in the Application and those described in this Prospectus. Notwithstanding the acceptance of any Application by the Company, the actual subscription and/or purchase of an Applicant of the Rights Shares will become effective only upon listing of the Rights Shares on the PSE. If such condition is not fulfilled on or before the periods provided in the Application and those described in this Prospectus, all application payments will be returned to the Applicants without interest.

- 12. Refunds—In the event that the number of Rights Shares to be received by an Applicant is less than the number covered by its Application, or if an Application is rejected by the Company, then the Company shall retund, without interest, via check payable to the relevant Applicant, beginning on the fifth (5%) Banking Day from the end of the Offer Period, the amount corresponding to the number of Rights Shares not tsaued to such Applicant. Such refund check shall be made available for pickup at the offices of Development Bank of the Philippines Trust Banking Group at DBP. Head Office, Oil J. Puyar, Makati City, Refund checks that remain unclaimed after thirty (30) days from the date such checks are made available for pickup shall be mailed at the Applicant's risk to the address indicated in the Application.
- 13. Documentary Stamp Tax-All documentary stamp taxes applicable to the original issuance of the Rights Shares shall be for the sole account of the Company.
- 14. Registration and Lodement of Shares with the PDTC-Rights Shares are required to be lodged with the Philippine Depository and Trust Corporation (the "PDTC"). Applicants must provide the required information to the Application to effect the lodgment. Applicants may request their shares to be issued in certificated form and to receive stock certificates evidencing their investment in the Hights Shares through their respective brokers after full payment, lodgment and listing of the Rights Shares and in accordance with the existing upliftment procedures. Any expense incurred in connection with such issuance of certificates shall be for the account of the Applicant.
- 15. Registration of Forcing Investments—The BSP requires that investments in Philippine securities listed on the PSE funded by inward remittance of fureign currency be converted to Philippine Pesos and registered with the BSP if the foreign exchange needed to service capital repatriation or dividend remittance is to be sourced from the domestic banking system. The registration with the BSP of all foreign investments in the Rights Shares shall be the responsibility of the foreign investor and all costs therefore borne by such foreign investor.
- 16. Restriction on Ownership—The Philippine Constitution and related statutes set forth restrictions on foreign ownership of companies engaged in certain activities. At present, there are no foreign ownership restrictions on the outstanding capital stock of the Company with respect to its business as presently conducted.
- 17. Listing and Trading Date—The Company's application for the listing of the Rights Shares was approved by the PSE on July 8, 2015. All of the Rights Shares are expected to be listed on the PSE on October 20, 2015, after obtaining the SEC approval on the Company's application to increase its authorized capital stock. The Company will file with SEC an application for increase in the authorized capital stock after the completion of the Rights Offer. Trading is expected to commence on the same date that the relevant Rights Shares are listed on the PSE.
- 18. <u>Timetable</u> The amerable of the Rights Offer is scheduled as follows:

Pricing Date February 17, 2015

Ex-Date August 4, 2015

Record Date August 7, 2015

Offer Period August 17, 2015 9:00 a.m. (Manila time) to August 26, 2015 12:00 noon (Manila time)

The dates listed above are subject to market and other conditions and may be changed at the discretion of FOOD and Abacus Capital, subject to the approval of the PSE.

19. Underwriter's Firm Commitment to Purchase - Abacus Capital, the Issue Manager and Underwriter, in accordance with the Underwriting Agreement, shall purchase or procure subscribers to purchase the unsubscribed Rights Shares after the mandatory Second Round of the Offer and after the implementation of the commitment by the major shareholders to subscribe to the unsubscribed Rights Shares, to ensure that the Rights Shares covered by the Rights Offer are fully subscribed.

Part I - BUSINESS AND GENERAL INFORMATION

Item 1 – BUSINESS

BACKGROUND

Alliance Select Foods International, Inc. (ASFI or the "Parent Company" or the "Company") is a public corporation under Section 17.2 of the Securities Regulation Code (SRC) and was registered in the Philippine Securities and Exchange Commission (SEC) on September 1, 2003. The Parent Company is primarily engaged in the business of manufacturing, canning, importing and exporting of food products such as marine, aquaculture and other processed seafood. Its shares have been listed on the Philippine Stock Exchange (PSE) since November 8, 2006.

On July 1, 2010, the Board of Directors resolved to change the corporate name from Alliance Tuna International, Inc. to Alliance Select Foods International, Inc. The change in corporate name was then approved by the SEC on July 22, 2010. While canned tuna will continue to be an important source of growth for the Parent Company, the firm decided to diversify its product line and take advantage of its manufacturing expertise and global marketing channels to introduce new products. The new name reflects that change in the Parent Company's direction.

The Parent Company's key business activity is the processing, canning, and export of canned tuna. It exports its canned tuna products to Europe, North America, Asia, Africa and South America. It is primarily a "private label manufacturer" of canned tuna and processes and cans tuna in the institutional and retail pack can sizes using its customers' brands.

To enhance margins, ASFI processes the by-products and scraps from its tuna processing operations into fishmeal, which it sells to the domestic and export markets.

The Parent Company set up a marketing representative office in Bangkok, Thailand, in May 2004 to tap the network of buyers and brokers who use Thailand as a base to buy canned tuna.

The Parent Company also acquired a 40% stake in FDCP Inc. (FDCP), a can-manufacturing company, in September 2005, to ensure the availability of quality cans at competitive prices and sustainable supply.

In May 2008, the Parent Company established a subsidiary, PT International Alliance Foods Indonesia (PT IAFI) which acquired the assets of an Indonesian tuna cannery located in Bitung, in the island of North Sulawesi. The Parent Company owns 99.98% of PT IAFI. A complete renovation of the factory and upgrade of capacity to 90 metric tons per day was undertaken. This investment in Indonesia allows PT IAFI access to rich Indonesian marine resources and expanded the combined operating capacity of the two canned tuna processing facilities to 230 metric tons per day. PT IAFI started operations in July 2009. To ensure consistent supply of tuna, its primary raw material, PT IAFI set up PT Van de Zee (PT VDZ), a fishing company in Indonesia in May 2012 with an initial stake of 80%. The fishing company has been granted a license by the Indonesian government to catch up to 30,000 MT by 2016. PT VDZ will be operated in integration with the tuna processing activities of PT IAFI thus making it the first foreign investment company to be granted a capture fishing license and allocation in the rich fishing grounds of Indonesia. In 2014, a new law in Indonesia required that domestic ownership in local entities be increased to at least 51%. As a result, PT IAFI sold 31% of its ownership in PT VDZ decreasing its shares to 49%; however PT IAFI retains the power to govern the financial and operating policies of PT VDZ.

As part of the Parent Company's product diversification strategy, it invested in a New Zealand based processor of smoked salmon in January 2009. The initial investment of a 39.00% stake in Prime Foods New Zealand, Ltd. (PFNZ) was later increased to 50% plus 1 share.

Subsequently, in October 2009, the Parent Company and PFNZ established a joint-venture company called Big Glory Bay Salmon & Seafood, Inc. (BGB) that imports salmon from New Zealand and other countries and processes it in General Santos City, Mindanao, Philippines. The smoked salmon products from BGB are sold locally and in Asia-Pacific countries.

In August 2014, PFNZ changed its business strategy and ceased manufacturing operations. PFNZ now purchases its products from BGB for resale. This change in operations is expected to decrease costs and increase the profit margin of the Parent Company's salmon division.

Since its inception, BGB has been able to export its output to leading supermarkets in countries in the region like Singapore, Japan, Hong Kong and South Korea. In addition, BGB also sells its own Superfish Pacific Salmon brand and Gold Standard Premium Salmon Brand and supplies house label salmon requirements to major retail chains in areas within Metro Manila as well as provincial cities like Pampanga, Cavite, Cagayan de Oro, Cebu and Davao. It also directly services the requirements of hotels, casual and fine dining restaurants, high-end caterers and gourmet specialty stores and concept shops. As of December 31, 2013, the Parent Company owns 50% + 1 and PFNZ owns 50% less 1 share of BGB's outstanding capital of \$1,386,014. In 2014, the Parent Company converted its advances to BGB amounting to \$777,047 equivalent to 33,630,593 shares, thus increasing its ownership in PFNZ to 68% as of December 31, 2014.

On August 10, 2011, the Parent Company acquired 100% of the issued share capital of Spence & Co. Ltd., located at No. 76 Campanelli Drive, Brockton MA 02301 USA, for a cash consideration of \$9.2 million. Spence, which became a wholly owned subsidiary of the Parent Company, specializes in the production of smoked salmon and other seafood. It is one of the leading salmon processors in USA with extensive network of clients in that country. Their products set the industry benchmark and are available in the major supermarkets in USA. The investment has given the Parent Company a beachhead to process and distribute additional smoked salmon products in USA, the world's largest market for smoked salmon. The investment in salmon processing allows the Parent Company to diversify its product line to take advantage of the changing food consumption patterns around the globe, address the issue of sourcing raw materials and improve overall margins and profitability.

As part of its expansion strategy into backward integration, the Parent Company acquired an 80% stake in Akaroa Salmon New Zealand Ltd for approximately \$2.2 million in October 2012. Akaroa is among the pioneers of farmed salmon industry in New Zealand. It was set up in 1985 and over the years they established the Akaroa Salmon brand as the premium quality brand in the country. Akaroa has been recipient of various awards and accolades from New Zealand's food industry, the latest being the Cuisine Artisan Awards 2011 when their Hot Smoked Salmon was declared the winner. It operates two marine farms in the pristine cold waters of Akaroa Harbor in the country's South Island to rear the King, or Chinook, salmon. Its processing facilities are located in the Riccarton district of Christchurch, a little more than an hour away from the Akaroa salmon farm. They also hold a 20% stake in Salmon Smolt NZ Ltd., a modern hatchery guaranteeing high quality and consistent supply of smolts (juvenile salmon) for Akaroa's farms. It is a thriving niche producer at the highest end of the quality salmon market, supplying New Zealand's leading chefs and the discerning diner with premium fresh and smoked salmon products.

STATE OF OPERATIONS

Consolidated

Alliance Select Foods International, Inc., and its subsidiaries (the "Group") incurred a net loss in 2014 and 2013 amounting to \$17,076,504 and \$2,918,933, respectively. The loss in 2014 occurred mainly as a result of management's decision to take a prudent and conservative position towards recognizing major non-recurring expenses amounting to \$19,530,881. These non-recurring expenses are mainly comprised of inventory write-down and provision for inventory obsolescence, provision for impairment of the value of the Parent Company's fishing vessels, and provision for impairment of the receivables from Wild Catch Fisheries Inc. (WCFI), a joint venture fishing company agreement by the Parent Company with CHL Fishing Industry, Inc. and CHL Construction & Development Enterprises, as a result of an amendment in the joint venture agreement between the Parent Company and WCFI as disclosed in Note 40.

Management has taken appropriate actions by implementing strategies to assist with improving operations and maintaining financial stability. These measures include a more persistent and aggressive sales effort, a focus on improving efficiencies across all area of operations, better inventory management, and better raw materials sourcing.

Parent

The Parent Company incurred a net loss in 2014 and 2013 amounting to \$13,702,240 and \$1,626,213, respectively. The loss in 2014 occurred mainly as a result of management's decision to take a prudent and conservative position towards recognizing major non-recurring expenses amounting to \$18,373,236. These non-recurring expenses are mainly comprised of inventory write-down and provision for inventory obsolescence, provision for the impairment of the value of the Parent Company's fishing vessels, and provision for impairment of the receivables from WCFI as disclosed in Note 37.

PRODUCTS

Canned Tuna

The Group's Tuna Division, comprised of ASFI and PT IAFI, packs tuna in cans in solids, chunks, and flakes cut, with packing mediums of oil, brine, vegetable broth, and water.

The market for canned tuna is comprised of the institutional and retail markets. The difference between the two segments is the size of the canned product.

The institutional pack can is referred to in the industry as "603." This pack size is named as such because the can is six and 3/16 (6-3/16) inches in diameter. The standard amount of tuna or "drain weight" contained in this can-size is between 1.75 to 1.85 kg, depending on customers' specifications. The end users of the institutional sized-cans include restaurants, fast food chains, school systems, and other public feeding systems.

The retail pack can, on the other hand, is referred to in the industry as the "307." This pack size is named as such because the can is three and 7/16 (3-7/16) inches in diameter. The 307 can has a standard drain weight of between 170 to 200 grams. This pack size is sold to wholesalers, distributors, and food companies that have their own brands. The retail pack can is what consumers normally purchase in the supermarkets and groceries.

ASFI started to offer a new retail can size, known as "211" in the middle of 2005. The 211 can has a standard drain weight of between 90 to 100 grams. This can size is exported to selected European countries and the US. In 2007, it introduced new cans sizes with weights of 3 kilograms, 1 kilogram and 90 grams. The 3 kilograms and 1 kilogram can sizes are for institutional buyers with drain weights of 2.6 kilograms and 650 grams respectively. These cans are sold primarily in Europe.

To keep up with market trends and demands, ASFI introduced two new retail packs in 2008. The "401" can size has a drain weight of 280 grams. These products are sold primarily in Europe. Another recent introduction is the 5 oz. can with a drain weight of 100 grams. This can size is sold mainly in the US.

Globally, the retail can market accounts for around 80% of the total end-market, while the institutional can market accounts for the balance of about 20%. Philippine canned tuna manufacturers primarily process can, and export the institutional pack can as the country has a cost advantage in terms of raw material, tuna, but a relatively higher cost for the tin cans in which tuna is packed. It should be noted that for the institutional can size, there is more tuna packed relative to the can utilized. ASFI, however, has penetrated the substantially larger retail pack can market to tap the potential for growth that this market segment offers.

Smoked Salmon

PFNZ owns the Prime brand, and prior to September 2014, it used to process all its requirements in New Zealand for both its retail and foodservice sector customers. It now operates as the marketing arm of BGB in New Zealand and it sources all its requirements from BGB. This strategy was undertaken to take advantage of lower production costs in General Santos City, and to enhance its profit margin. PFNZ sells its products under the Prime Smoke and Studholme brands.

BGB manufactures smoked salmon products, which range from 50 to 200 grams per pack for retail size and 500 to 1000 grams per pack for institutional size. The products are frozen and vacuum packed. These products are either hot or cold smoked salmon and are sold as fillets, slices and shavings.

Currently, BGB processes King, Atlantic, and Coho salmon species. The finished products are marketed to supermarkets and other premium quality retail outlets in Singapore, Hong Kong, Japan, S. Korea and Philippines, among others.

Spence's best-selling product is the retail-sized smoked salmon ranging from 6 to 16 oz. packets. It sells the traditional and classic smoked salmon to supermarkets in the US. Salmon species that the firm smokes include Coho, Sockeye, and King. In addition to these traditional products, Spence also markets value added salmon products like Nova lox, Gravlax, Pastrami Salmon, Pinwheels, Salmon spread for bagels, Pate, Salmon Fleurette Platter, Salmon Trim, Mustard Dill Sauce, Red Hackle Smoked Salmon, Lox in a Box, Smoked Salmon Petit Fours, and Salmon rings. These salmon products are mainly sold under the Spence brand.

Spence is also a very active player in packing retail-sized private label brands, chief among them is the private label brand of one of the more popular premium supermarket chain in the US. The most popular products available under this name include the firm's Smoke Salmon and Smoke Trout packages. For one of the leading restaurants in the country, Spence produces value added smoked salmon in various flavors.

A leading seafood restaurant group is another major client of Spence. Products offered again are retail sized ranging from 6 to 16 oz. Best sellers include Smoke Roasted Honey Oak Salmon in 6 oz. pack. Scottish Style Smoked Salmon Platter in 12 oz. is a popular seller for social gatherings. Other fast moving flavors are Smoke Roasted Garlic Pepper Salmon, Smoked Nova Salmon, Smoked Wild Sockeye, and Smoked Whitefish loin in a 16 oz. pack.

Smoked salmon makes up a large portion of Spence's sales with a miniscule percentage of other seafood. These products, marketed under the Spence brand and sold in retail sized packs, include, Smoked Trout, Smoked Mackerel, Smoked Whitefish, Smoked Bluefish, Findon Haddock, Smoked Trout Pate, Smoked Bluefish Pate, and Smoked Whitefish Salad.

With the acquisition of Akaroa Salmon NZ, the Group has added fresh salmon to its product line. These are delivered to major restaurants and hotels in New Zealand. In addition, Akaroa's smoked salmon has been an award winning product in the country and continues to set the benchmark in quality in New Zealand.

Fishmeal

Fishmeal is the by-product of the canning operation. The tuna loin is the portion of the fish that is packed in cans. All other parts of the fish are processed to produce fishmeal that is sold as additives or primary ingredients for animal feed.

Salmon By-Products

The Group's salmon subsidiaries also sells salmon by-products, either individually, or as part of other salmon products. The US subsidiary sells these by-products as part of various items like pate, torta, rings and trim. Other units sell belly, collars, fins and trims etc. to various clients to maximize revenue generation potential of the products.

REVENUE BREAKDOWN

The percentage contribution to the Group's revenues broken down into major product lines for each of the three (3) years in the periods ended December 31, 2014, 2013 and 2012 are as follows:

Product	December 31, 2014	December 31, 2013	December31, 2012
Canned Tuna	59%	63%	69%
Fishmeal (Local)	5%	5%	4%
Salmon	37%	33%	26%
Total	100%	100.0%	100.0%

^{*}Numbers might not add up due to rounding errors

DISTRIBUTION METHODS, SALES AND MARKETING

ASFI and PT IAFI are private label manufacturers of canned tuna. Based on the specifications provided by the customers, ASFI processes tuna, packs these in the specified can size, and labels the canned tuna products using the labels of its end-customers. For customers who do not own a brand, ASFI offers its own house brand, Sea Harvest.

The Tuna Division has positioned itself as a supplier of canned tuna to a wide range of buyers and agents. Most of the products that the Tuna Division ships out to customers are finished and labeled, and are ready for shipment to their respective end-destinations.

At present, the Tuna Division exports its entire production of canned tuna. The Tuna Division's primary market is Europe. Fishmeal, on the other hand, is mainly sold to the domestic market but it can also exported.

BGB's products are sold to major supermarkets in the Asia-Pacific region and in the Philippines where we are rapidly expanding market reach through local supermarkets and foodservice division.

PFNZ sells to supermarket companies. It has hired dedicated salesmen to market its products in New Zealand (NZ). Product is delivered anywhere in NZ within 24 hours of receiving the order. Foodservice clients include hotels, restaurants, and food manufacturers. Promotional activity is mainly by way of weekly specials in retail, with some occasional print and radio media advertising.

For Spence, the marketing effort was placed on retail sales with a special emphasis on brand name and innovation. Spence's sales efforts have been led by professionals with experience in the distribution industry, with previous employment in leading firms like Sysco and Whole Foods. Their efforts and contacts have enabled the firm to tap into a network of established and well known food distributors in the region.

In addition to using its own sales force, Spence also uses food brokers to market its products. A major food broker is authorized to act as Spence's exclusive agent for sales of all products sold under the name of the region's leading seafood restaurant group.

Spence has also been granted a license to produce and sell smoked salmon, whole whitefish, and whitefish salad under a major restaurant chain's trademark.

In addition, Spence has a relationship with another high-end restaurant whose celebrity chef has licensed Spence to produce and sell smoked salmon and other seafood products under his name.

Akaroa's products are primarily sold directly to its institutional and retail clients. The subsidiary's General Manager is in charge of all marketing activities and is tasked with, among others, drawing up and implementing all marketing plans.

COMPETITION

There are seven (7) companies engaged in tuna canning in the Philippines. Six (6) are located in General Santos City and one (1) in Zamboanga.

Competitors for the export market are General Tuna Corporation, Phil. Best Canning Corporation, Ocean Canning Corporation, Celebes Canning Corporation, Permex Producer & Exporter Corporation and Seatrade Canning Corporation.

Most Philippine canned tuna processors produce two (2) can sizes: the retail pack and the institutional pack can sizes. Four (4) canneries pack tuna in pouches.

The US and EU markets account for approximately 75.00% of world tuna consumption. These two (2) major markets are the primary markets of Philippine canned tuna companies.

The smoked salmon industry in the US is highly fragmented with no national brand selling across all the regions in the country. Each region has a number of local smokers with sales to that particular region only. A majority of the smokers are the "mom and pop" variety with a small customer base and highly localized marketing effort.

According to estimates, Spence has the third largest market share in the North East region, where it is located. Spence's biggest competitor is a subsidiary of Marine Harvest Group, a publicly listed firm on the Oslo Bors. Another large seafood company in the region is the Brooklyn-based seafood company. It sells various smoked fish specialties in addition to side dishes like coleslaw salad etc.

The business model that BGB follows, i.e. importing salmon from New Zealand and other countries, and using the competitively priced and highly efficient Filipino work force to export a premium product from the Philippines is unique, and no other processor follows the same strategy.

Akaroa has a number of competitors who also have their own marine farms in New Zealand. Its major competitor is also the country's largest salmon farmer and exports a large chunk of its output. In addition, there are some similar sized salmon farms, but unlike, Akaroa, cannot supply fresh salmon to its clients year round.

FISH SOURCING

Skipjack, Yellowfin and Salmon

Skipjack and Yellowfin tuna are the main raw fish inputs for canned tuna products.

The early fishers of Yellowfin and Skipjack were dominated by pole-and-line or "baitboat" vessels. The longline vessels primarily caught Big eye, and the larger Yellowfin species for the sashimi markets.

The introduction of the purse seine catching method in the 1950s changed the nature of the Skipjack and Yellowfin fishers. They were introduced into the Atlantic in the early-1960s, and into the Indian Ocean on a large scale in the mid-1980s. The increasing trend in total global catch goes hand-in-hand with the expanding scale of these purse seine fishers. By the end of 2013, the combined global catch of Skipjack and Yellowfin was about 3.8 million MT, or about 85% of global tuna catches.

More than 75% of the total catch was supplied by purse seine vessels. Tuna caught using longline and pole-and-line each account for about 10% of global tuna catch.

ASFI and PT IAFI both purchase its fish from fish suppliers in their respective countries.

BGB sources its salmon primarily from fish farms in New Zealand. It is also sourcing from Chile and Norway. It receives the salmon in H&G (headed and gutted) form. This is then processed into hot or cold smoked salmon. Akaroa's fresh chilled salmon and smoked products are sourced from its own farms.

Spence processes and markets Atlantic salmon. While some of the Atlantic salmon is wild caught, the overwhelming majority of the Atlantic salmon consumed in the world is produced through aquaculture. The fish are grown in commercial fish farms and the two leading nations for Atlantic salmon are Norway and Chile. Though Chile suffered an outbreak of a contagious disease that wiped out large portions of the salmon industry, the country has recovered and expects to reach its pre-disease highs in a couple of years.

Key Fishing Areas - Tuna

A key resource or catching area for tuna is the Pacific Ocean. According to the Western and Central Pacific Fisheries Commission's WCPFC Tuna Fisheries Yearbook 2013, world tuna catch in 2013 from this fishing area accounted for almost 71% of global tuna catch. The Western Pacific Ocean accounted for 57% of the total while the Eastern Pacific Ocean accounted for another 14% of the global tuna catch. The Pacific Ocean is followed by the Indian Ocean and accounts for 18% of the catch with the Atlantic Pacific accounting for the balance 10%.

Key Sourcing Area - Salmon

Almost all of the salmon processed by BGB and Akaroa is sourced from fish farms in New Zealand, Chile and Norway. This ensures a consistent supply of raw materials for our salmon subsidiaries.

Farmed Atlantic salmon, which Spence processes, is sourced from local fish brokers in the North East region of USA. These brokers in turn buy their raw materials primarily from Norway, Scotland & Chile.

Tuna Catching Nations

The major tuna catching nations are concentrated in Asia, traditionally led by Japan and Taiwan. However, in the last few years Indonesia, the Philippines, Korea and China have become significant players.

In the Western and Central Pacific Ocean, the main hunting ground for tuna, Indonesia is the largest tuna catching country with a steady increase in catch over last 3 years. In 2012, Indonesian tuna catch was 443,316 MT. This is higher than its catch of 390,279 MT in 2011 and 351,264 MT in 2010. Japan and Korean fleets were also major players in the area in 2012. Japan caught 342,527 MT in 2012 while the Korean fleet caught 290,123 MT that year. Other important players in the region in 2012 were USA, with a total catch of 272,806 MT, Taiwan with 243,194 MT, Papua New Guinea with another 240,055 MT. Philippines also made its presence felt with its fleet catching 211,689 MT which was slightly higher than the 192,956 MT of fish caught in 2011.

In Europe, Spain and France are major tuna catching countries that fish in the Indian Ocean.

Latin American countries, Ecuador, Mexico, and Venezuela are also tuna-catching countries. However, their competitiveness is undermined by the variability of tuna resources, reliance on imported tuna, declining canned tuna consumption in major importing countries, and unjustified barriers and other forms of protectionism in major markets.

CUSTOMERS

The Tuna Division has a client base spread over 60 countries. One customer accounted for more than 20% of export sales in 2014. Both ASFI and PT IAFI do not have any major existing sales contracts,

The salmon products are mainly sold in New Zealand. In addition to New Zealand, PFNZ exports its products to Australia and the United Arab Emirates. PFNZ does not have any major long-term sales contracts. Two of its clients accounted for more than 20% each of sales in 2014. Spence sells its products to the U.S. One customer accounted for more than 20% of the unit's sales in 2014.

For BGB, one client accounted for more than 20% of sales in 2014. None of Akaroa's clients accounted for more than 20% of total sales.

TRANSACTIONS WITH AND/OR DEPENDENCE ON RELATED PARTIES

Alliance Mingjing Holdings, Inc. (AMHI) and FDCP, Inc.

The land where the Group's canned tuna and smoked salmon operations are located in the Philippines is currently being leased from AMHI. The contract of lease was entered into by AMHI as lessor and ASFI as lessee, effective January 1, 2013 until December 31, 2017 unless sooner terminated by any party for cause. The lease period shall be renewable every five years, upon such terms and conditions mutually agreeable to the parties. The Parent Company owns 40% of AMHI.

On December 28, 2012, a Deed of Absolute Sale was executed between the Parent Company and AMHI whereby the Group has acquired some of AMHI's building, plant machinery and equipment with an aggregate purchase price of \$2,080,218.

FDCP, a can-manufacturing subsidiary of First Dominion Prime Holdings, Inc. (FDPHI), is 40.00% owned by ASFI. FDCP is ASFI's major supplier of tin cans.

ACCREDITATIONS, PATENTS & TRADEMARKS

The Group is accredited by a number of international rating and accrediting agencies, as well as domestic rating and inspection bodies.

The Group's tuna operations in General Santos, Philippines and in Bitung, Indonesia have passed various tests and standards for the quality of its products, adherence to HACCP standards, adherence to Kosher and Halal processing guidelines, and adherence to dolphin-safe practices.

The Group's various accreditations allow it access to most of the major markets for canned tuna products. These accreditations are:

- United States of America Food and Drug Administration
- European Union issued through Bureau of Fisheries and Aquatic Resources (BFAR)
- Certificate of Conformity from British Retail Consortium Global Standard Issued by NFS
- International Food Standard Certified by NFS
- Dolphin Safe Accredited
- Kosher Accredited
- Halal Certified
- HACCP Program Documentation and Implementation Certified
- Certificate of Good Manufacturing Facilities

In addition, the Group also has registered patents and trademarks. The "Alliance Tuna International, Inc." name was registered with the SEC on September 2003 and is valid for 50 years. The name "Alliance Select Foods International, Inc." was registered with the SEC, and approved, on July 22, 2010. The name Prime Foods New Zealand has also been trademarked and the Group has rights to the name until March 3, 2015. The Group's farmed salmon subsidiary in New Zealand owns the "Akaroa Salmon" trademark.

Most of ASFI and PT IAFI's clients have their own brand names. In the private label business, producing canned tuna for a client's label is the norm in the industry. ASFI uses its house brand, Sea Harvest, for clients who either do not have their own brands or are looking for alternative brand names. The number of containers shipped under the Sea Harvest brand is small but serves as a useful alternative if clients want to use the name.

The Company also has trademark registrations for the brand Big Glory Bay and Sea Harvest. A trademark application to protect the name Spence & Co. Ltd. has been filed.

REGULATORY FRAMEWORK/GOVERNMENT APPROVAL-GENERAL SANTOS OPERATIONS

Industry-particular Governmental Laws and Approvals

The BFAR is a line bureau reconstituted under the Department of Agriculture, by virtue of Republic Act No. 8550 (Philippine Fisheries Code of 1998). This code provides for the development, improvement, management, and conservation of the country's fisheries and aquatic resources.

ASFI had received a certification from BFAR, on behalf of EU, authorizing the implementation of the HACCP System. The accreditation is valid until December 17, 2015. To secure a renewal in future, ASFI has to show that it manufactures the goods in compliance with the HACCP system for assuring food safety.

ASFI is registered with BFAD as a food manufacturer/exporter of fish and marine products. Its license to operate is valid until June 3, 2015.

BGB has received a certification of recognition for the implementation of Hazard Analysis Critical Control Point (HACCP) System from Bureau of Fisheries and Aquatic Resources (BFAR) and the certification is valid until June 28, 2015.

BGB is also registered with Food and Drug Administration (FDA) as a food manufacturer/exporter of processed seafood products. Its license to operate is valid until May 25, 2015.

Environment-particular Governmental Laws and Approvals - Environmental & Safety Issues

The Philippine Environmental Impact Statement System (Presidential Decree No. 1586, as amended) covers projects and undertakings that are classified as environmentally critical as well as projects situated in environmentally critical areas. These projects or undertakings are required to be covered by an Environmental Compliance Certificate (ECC). ASFI's operation of its processing and production facilities is classified as an environmentally critical project.

ASFI obtained an Environmental Compliance Certificate on July 25, 2011 which is still valid. In addition to this, ASFI also has a Waste Water Discharge permit which is valid until October 28, 2017. A Permit to Operate (Boiler) was also issued on January 17, 2006 and allows it to operate a boiler until October 12, 2016.

For its Bitung facility, PT IAFI was awarded the Certificate of Recommendation that states that the firm has complied with environment and safety regulations on April 8, 2015. In addition, the Ministry of Marine Affairs & Fisheries has awarded the HACCP certification on behalf of EU after they conducted tests in March 20, 2014 which it passed with flying colors. They have also been certified with Good Management Practices and the certification

will expire on August 27, 2015. The International Food Service certification for the subsidiary is valid till July 8, 2015. In addition, the subsidiary also has Kosher certification will expire on June 30, 2015.

BGB obtained an Environmental Compliance Certificate on February 12, 2010 which is still valid. In addition to this, BGB also has a Waste Water Discharge Permit which is valid until June 15, 2019. A Permit to Operate (Diesel Engine Generator) was also issued on October 10, 2011 which is valid till June 26, 2017. BGB was also registered with the United States Food and Administration (USFDA) on March 26, 2015.

Business-particular Governmental Laws and Approvals: Labor and Employment

The Department of Labor and Employment (DOLE) through the Labor Standard Enforcement Division of DOLE Region XII Office, conducts inspection of the General Santos plant to determine compliance with labor laws, particularly those relating to occupational health and safety. On August 22, 2014 the DOLE Region XII Office issued a Certificate of compliance which is valid for two years.

The Indonesian subsidiary has to submit an annual report called Bentuk Laporan that PT IAFI has complied with all the relevant labor laws and regulation. The current certification will expire on February 23, 2016.

NUMBER OF EMPLOYEES

As of December 31, 2014, the Group had a total of 2,361 contractual/temporary and permanent employees. It canned tuna facilities in General Santos City. Philippines and its smoked salmon facility in the same city had a total of 1,330 people with the Indonesia accounting for another 873 employees. Alliance's two subsidiaries in New Zealand had 58 employees while the wholly owned US subsidiary employed another 65people. Finally, its marketing office in Thailand consisted of 2 employees.

None of the employees, including contractual workers, are under any collective bargaining agreement. The Group did not experience any work stoppage or strike and does not anticipate a significant increase in its workforce in the year 2014.

MAJOR RISK FACTORS

Risks relating to tuna supply

To ensure continued profitability, the Group's canned tuna operations need timely and adequate access to the primary raw material, tuna. Fish suppliers should be able to catch tuna where it is abundant without any unreasonable restrictions placed on their operations.

Traditionally, Filipino fishermen delivering frozen fish caught their tuna in Philippine, Indonesian and international waters. These waters are extremely rich in skipjack and yellowfin tuna, the two species that ASFI and PT IAFI produce.

However, in the last few years there has been a trend toward resource nationalization and environmental sustainability. Both these trends have made it challenging for Tuna Division's suppliers to deliver adequate quantities of tuna in a timely manner.

Indonesia, one of the leading tuna catching nations, closed its territorial waters to foreign flagged fishing boats. ASFI's Filipino suppliers thus lost access to lucrative fishing grounds and were forced to catch fish in either the international waters or in the Philippines thus increasing competition in the area. Revised catch rules in Indonesia now allow only Indonesian flagged boats to catch fish in their waters and deliver all the catch to local canneries. Without access to these resources, ASFI's canned tuna operations had to depend on suppliers fishing in Philippine waters to fulfill its requirements.

As a way to stabilize fish supply, the Group decided to complement its current base of fish suppliers by starting its own fishing operations. The Group established PT VDZ in Indonesia to fish in Indonesian waters. This fishing company has been granted a license to fish up to 30,000 MT by 2016.

Risk relating to salmon supply

BGB sources all of its salmon from New Zealand, Chile and Norway.

Akaroa Salmon New Zealand Ltd., has its own salmon farms and sources all of its salmon raw materials from its farms.

Spence procures all of its salmon raw material from local fish brokers who in turn source the fish from farms in Chile, Norway or Scotland. Supplies from these farms fluctuate and may carry with them a risk of outbreak of contagious disease which may affect supply, and hence prices.

Risks relating to competition and tuna selling prices

Aside from market price of tuna, competition from Philippine and international tuna canners also affects the market price of canned tuna.

The Tuna Division has been able to address this situation by ensuring that its primary product input, tuna, is matched with firm orders from its buyers.

Risks relating to competition and salmon selling prices

After ceasing manufacturing operations in 2014, PFNZ's main risk is related to its sales activities. PFNZ's main price risk comes from price promotions by its main competitor. It mitigates the risk by having its own price promotions.

BGB also faces price risks from its competitors. However, it is able to command a premium price because it has established itself as a producer of high quality smoked salmon and its raw materials sourced from New Zealand, Chile, and Norway are of premium quality and sells at price points higher than other species of salmon. But it is also balanced by the competitive labor costs in the Philippines that have mitigated the cost factor to a large extent.

Spence also operates in a very competitive market and though price is not the only deciding factor in a consumers mind it does play a role. It distinguishes itself from its competitors on the quality of products and innovation. The subsidiary's products are difficult to plagiarize and hence can command a premium price.

Akaroa's products are sold at the high end of the market too. High fish quality and excellent fish handling means that it can command premium pricing. They are only of the two farms in the country that can provide fish year round from its farm so has become preferred vendor to a number of its clients.

Risks relating to quality assurance failure on processes

Canned tuna and smoked salmon are for human consumption. As such, a high quality assurance standard for the product is required as product failure can affect human health. The presence of toxins, foreign materials, and the like in the finished products would necessitate the recall of an entire production batch. Product failures would also have an adverse negative effect on a canned tuna manufacturer's reputation.

The Group's quality assurance department has experienced and trained personnel. The Group is staffed by graduates of chemical engineering, microbiology, and fisheries. The quality assurance department is responsible for its

HACCP plan, Good Manufacturing Practices (GMP) and hygiene compliance, and addressing customers' complaints.

The risks include underweight products, high bacteria counts and Listeria. The effects of these are mitigated by a production process that places a premium on good practices and training of personnel to spot problems before the goods are shipped.

Risks relating to the leasing of land and facilities

Some of the Group's subsidiaries lease the land where their processing facilities are located. The land where the Group's canned tuna and smoked salmon operations are located in the Philippines is currently being leased from AMHI. It has long term lease contracts to mitigate this risk.

Land where ASFI's facilities in New Zealand, both Prime Foods and Akaroa Salmon, are located is being leased from their respective owners. This is true of Spence & Co as well. ASFI has mitigated this risk by entering into long term contracts with the land owners.

Risks relating to contractual arrangements

Due to the commodity nature of the canned tuna industry, buyers will go to the suppliers that provide quality products at the lowest possible price.

At present, the Tuna Division's contractual arrangement with its buyers is undertaken on a "per purchase order" basis, wherein the shipment period normally does not exceed three (3) months. Under no circumstances do ASFI and PT IAFI enter into a long-term supply of canned products given that tuna prices are volatile.

Item 2 – PROPERTIES and LEASE AGREEMENTS

Alliance Select Foods International, Inc. (ASFI)

The Parent Company's canned tuna plant in the Philippines leases the land where its processing facilities are located from AMHI. It pays monthly fees of \$\mathbb{P}2,322,290\$ for the first year of lease agreement with a 5% lease fee increase per annum and lease period from January 1, 2013 to December 31, 2017.

The Parent Company leases from Dominion Property Holdings Corporation its office spaces located at Suites 1205, 1206A & B and 1207A in the Philippine Stock Exchange Centre East Tower, Pasig City for a monthly rate of P267,553 and for a period of one (1) year, commencing on March 1, 2014 and expiring on December 31, 2014, renewable upon mutual agreement of the parties.

The Parent Company also leases another property from Dominion Property Holdings Corporation, namely its office space located at Suites 1405 & 1406A in the Philippine Stock Exchange Centre East Tower for a monthly rate of \$\frac{220,975}{220,975}\$ and for a period of one (1) year, commencing on January 1, 2014 and expiring on December 31, 2014, renewable upon mutual agreement of the parties.

PT International Alliance Foods Indonesia (PT IAFI)

PT IAFI is located in the town of Bitung, North Sulawesi in Indonesia. The largest nearest town is Manado, which is about a two-hour drive from its processing facilities. The land area occupied by the factory complex is 14,200 sq.

The Company owns its production and processing facilities through its subsidiary, PT IAFI, in Bitung Indonesia. These include the land, production facilities, administration building, and all plant and office equipment. PT IAFI leases one (1) 603 and one (1) 307 filling machines from Luthi Machinery Company, Inc.

Prime Foods New Zealand, Ltd. (PFNZ)

PFNZ's processing facilities are located in Hororata, New Zealand. The plant is about a one hour drive from Christchurch in South Island.

The facilities owned by PFNZ are kept in good condition through regular and preventive maintenance and are located on a 6,436 sq. property that PFNZ also owns.

PFNZ has no plans to purchase additional properties in the next 12 months.

Big Glory Bay Salmon and Seafood Company, Inc. (BGB)

BGB's facilities are also located in the same compound where ASFI's canned tuna and can making facilities are located in General Santos City, Mindanao, Philippines.

BGB is leasing the land with an area of 1,223.86 sq. from AMHI. The rental cost is P80,775 per month and the lease agreement expires on December 31, 2017.

Spence & Co. (SPENCE)

Spence does not own any properties. The processing facilities are leased from Gael Land Realty LLC. The current lease payments are \$17,900 per month. The lease will continue till May 31, 2020. There will be no increase in rent for the first four years; thereafter annual base rent for each year shall be equal to the fair market rental value of the property. Moreover, as part of the agreement, ASFI and Spence will have the option to purchase the property in the future or have a right of first refusal.

Akaroa Salmon NZ Ltd. (AKAROA)

Akaroa's factory, situated at 6 Pope Street, is being rented from New Zealand Guardian Trust Company Ltd. The rental agreement is from June 1, 2012 until May 30, 2017 and the rental payable per annum is NZ \$60,000.

Item 3 - LEGAL PROCEEDINGS

On 11 June 2014, the Company, to protect its interests, filed a criminal complaint for Revealing Secrets with Abuse of Office against two of its directors, Hedy Yap – Chua and Albert Hong Hin Kay, because it had reasonable cause to believe that Yap-Chua and Hong acted in breach of their fiduciary duty to the company when they revealed information relating to the Company's financials given to them in confidence. The Office of the City Prosecutor of Pasig City dismissed the case, and the Company has since filed its appeal with the Department of Justice, where the case remains pending.

On 16 June 2014, the Company, to protect its interests, likewise sought to intervene in the Intra-Corporate Case filed by Hedy S. C. Yap-Chua and Albert Hong Hin Kay, against Board Directors George E. Sycip, Jonathan Y. Dee, Alvin Y. Dee, and Ibarra A. Malonzo, and Corporate Secretary Avelino M. Sebastian. The Company filed a Motion to Intervene and to Admit Attached Answer-in-intervention with Compulsory Counterclaims (with Opposition to the Application for Writ of Preliminary Injunction) ("Motion to Intervene"), with a prayer for the court to provide it an opportunity to be heard on the matters in litigation because any decision in the case would directly affect the Company. In its Answer-in-Intervention, the Company takes the position that the subject Board resolutions sought to be annulled by Yap-Chua and Hong are valid, and defends its decision to accept Strongoak's offer of investment of more than \$\mathbf{P}\$563,000,000.00. The Company also prayed that the injunctive relief prayed for by petitioners Yap-Chua and Hong to enjoin the listing of the Strongoak Inc's shares in the PSE be denied. In an order dated 8 July 2014, the Court denied the Company's motion to intervene, and the Company has since filed its appeal with the Court of Appeals, where its petition for review remains pending.

On appeal with the Securities and Exchange Commission (SEC) en banc is an order of the Enforcement and Investor Protection Department (EIPD) imposing on the Company a fine of \$\mathbb{P}100,000.00\$ for violation of paragraph A, subparagraphs (i) and (iv) of Article 6 of the Revised Code of Corporate Governance, on account of a complaint by a stockholder who was supposedly barred from entering the venue of the Company's annual stockholders' meeting held on June 16, 2014. It appears that the finding of the SEC EIPD was a result of the alleged failure of the Company to respond in a timely manner to their letter dated 12 September 2014. In its appeal, the Company clarified that it responded to the SEC EIPD letter within the stipulated time of 15 days from the Company's receipt of the letter on 18 September 2014; the SEC received the reply from the Company on 23 September 2014 at 3:29:29 pm. The Company appealed the fine imposed by the SEC EIPD on the basis of replying within the stipulated time, and the actions taken by the Company were just and reasonable under the circumstances. The appeal remains pending before the SEC Commission en banc.

On 5 May 2014, the Company's Board of Directors approved the issuance of 430,286,226 common shares to Strongoak Inc. The issuance of these shares is an exempt transaction under Section 10.1 (k) of the Securities Regulation Code (SRC); as such, these shares were not registered with the Securities and Exchange Commission under the SRC. Any future offer or sale of said shares will be subject to registration requirements under the SRC, unless such offer or sale qualifies as an exempt transaction.

Notice of said sale was provided to the Commission on 5 May 2015.

The total proceeds of \$\mathbb{P}\$563,674,956.06 (approximately \$12.8 million based on the exchange rate on 5 May 2014) for the subscription shares was paid in cash (partly paid directly to the account of the Company, and partly paid in an escrow account). The price of the transaction, Php 1.31/share, was a 3.3% premium on the 30 days volume weighted average price (VWAP) of FOOD shares covering the March 18, 2014 to May 2, 2014 period.

Item 6 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF OPERATION

II. OPERATING PERFORMANCE

The Group's consolidated revenue reached \$81.3 million which was a 4% decrease from \$84.3 million the previous year. Almost two thirds of the total revenue was contributed by the Tuna Division while the rest was contributed by the Salmon Division. Revenue of the Tuna Division declined by 9% to \$52 million while revenue of the Salmon Division grew by 9% from \$27 million to \$30 million due to an increase in sales volume. Shipments of canned tuna totaled 823 containers versus 734 last year or an increase of 12%. Although despite higher sales volume, net revenue declined by 9% due to lower selling prices of \$58 thousand per container versus \$72 thousand in 2013. The lower selling price was brought about by a drop in raw material prices worldwide.

The year 2014 has been the most challenging year of the Group due to drastic and unprecedented drop of tuna prices in the global markets which led to price pressures for canning plants. After reaching a historical high of \$2,390 per MT in April 2013, global raw material prices experienced a free fall in 2014, losing half of its value by April 2014 when it went down to \$1,150 per MT. Most part of the year was spent waiting for demand to come in while the spread between the fish buying price and selling prices stayed within a very narrow band.

The Group's gross profit increased by \$551 thousand or 8% from \$7.3 million to \$7.9 million. Gross margin of the tuna business declined by 1%, from 6% to 5%, while the salmon business increased from 14% to 18%, bringing the combined gross margin to 10% from 9% last year.

Save for non-recurring expenses, the Group was able to cut Selling and Administrative expenses by 4% from \$8.5 million to \$8.1 million as a result of a cost cutting program that the Group underwent during the period.

For the year 2014, the Group took a conservative and prudent position by recognizing non-recurring expenses amounting to \$20.2 million comprising mainly of the following items:

- Inventory write down to its market value and allowance for inventory obsolescence for the Group totaling \$3.2 million. These write-downs were attributable to the volatility in raw material prices leaving the Group with finished goods produced at much higher costs relative to the market prices of finished goods by year end. In response to this situation, the management decided to take the prudent position of ensuring raw materials are matched with orders. This means that only product for booked orders will be produced.
- Provision for impairment of the value of the three (3) fishing vessels amounting to \$7.8 million carried in the Parent Co. books in accordance with the provision of IAS 36 on impairment of assets. This is likewise in line with the strategic direction of management regarding its plan for fishing operation.
- Provision for impairment of ASFI's receivable from Wild Catch (WCFI) as a result of the amendment of the joint venture agreement between the two parties following the sinking of one fishing vessel last September 2014. The receivable is comprised of the sale of three (3) fishing vessels and various advances to WCFI totaling \$8.45 million. ASFI likewise wrote down its investment in WCFI amounting to \$39,279. Subsequently, a supplemental agreement was signed between WCFI & ASFI to cancel the deed of sale of the three (3) vessels and to return the vessels back to ASFI was executed as mentioned above.

The Group's finance cost increased by 4% or \$70 thousand while the share in equity in net earnings of associates and joint ventures amounted to a loss of \$155 thousand compared to previous year's income of \$36 thousand.

For the CY 2014, the Group ended up with a net loss of \$17.1 million versus last year's loss of \$2.9 million.

II. OPERATING PERFORMANCE

The year 2013 was a challenging year in many respects. The Group faced an unprecedented softness in the global canned tuna market, which accounts for more than two-thirds of its total sales. The raw material prices for tuna reached stratospheric levels without a corresponding increase in prices to our customers. They baulked at paying these high prices so the Group's profit margins came under relentless pressure. The spread between buying and selling prices stayed within a very narrow band for most of the year and it was only towards the end of the year when there was an easing of raw material prices. Without the investments in marketing the Group had done in the past, and its excellent relationship with key buyers, it would have suffered a larger setback.

Coupled with the Group's strategic investments in fishing operations and backward integration, which will come to fruition in 2014, the Group will be able to mitigate the effect of higher raw material prices for its canned tuna division. As this investment gathers pace and as it begins to optimize its fishing resources in 2014 and 2015, the Group is well poised to take advantage of fully integrated operations to improve its profit margins and decrease dependence on higher priced raw materials.

Meanwhile, the salmon division showed a considerable increase in total revenue for 2013. Sales increased from \$21.8 million in 2012 to \$27.4 million in 2013. This increase was across all the four salmon divisions during the year, though one division, Akaroa, had only three months of operation under the Group in 2012 when it was acquired in October of that year.

Net revenue on a consolidated basis increased by 2% from \$82.3 million in 2012 to \$84.3 million in 2013.

Due to the low demand for canned tuna during the year, the Group's gross profit fell about \$3.2 million from the year earlier to \$7.3 million in 2013. This decline of 31% in the gross profit was mainly due to the lower margins in the canned tuna division. As a result of this, the gross profit margin decreased from 13% in 2012 to 9% in 2013.

Other income increased significantly from approximately \$88 thousand to \$1.1 million. This 1,173% increase was due to gains on sale of property, plant, equipment and asset held for sale. Other significant contributor was foreign exchange gain of almost \$476 thousand.

The Group experienced an increase of 47% in selling & administrative expenses (S&A). The \$3.2 million increase was mainly due to expenses related to the listing on Singapore Stock Exchange which totaled about \$1.2 million. Other significant increase was because of a \$1.1 million charge for a doubtful account.

Other operating expenses decreased by 64% from \$438 thousand to \$156 thousand. This was mainly the result of an elimination of foreign exchange loss in 2013.

In spite of an increase in sales, the Group's Finance costs decreased by \$322 thousand, or 15%, from \$2.1 million to \$1.8 million. Lower finance costs can be attributed to lower revolving credit line borrowings and partial payment of principal of the long-term loans.

III. FINANCIAL CONDITION

Total Stockholders' Equity	23,331	27,687	-16%
Total Liabilities & SE	\$65,847	\$69,460	-5%

The Groups' total assets as of December 31, 2014 decreased by 5% to \$65.8 million mainly due to decrease in property and equipment as a result of the write off of three (3) fishing vessels and decrease in receivables by 42% primarily due to the write off of receivables from WCFI.

For the year ended December 31, 2014 the Group posted a current ratio of 0.85:1

There was no impairment of goodwill recognized during the year.

Total liabilities slightly increased by 2% from \$41.8 million to \$42.5 million. Trade and other payables increased by 23%. The other change was a reduction in long term loans from \$4.6 million as of December 31, 2013 to \$3.4 million as of December 31, 2014. This decrease was due to amortization of principal of long term loans.

The hike in share capital and reserves represents the fresh capital infusion by Strongoak, Inc. last May, 2014. However, due to the loss incurred during the year, total equity declined by 16%. The Group ended in a deficit position of \$15.0 million.

Debt to equity ratio as of December 31, 2014 posted at 1.82:1.

SOURCES AND USES OF CASH

A brief summary of cash flow movements is shown below:

	Years Ended December 31	
	2014	2013
Operating Cash flows before working capital changes	\$468,469	\$671,134

Net cash used in investing activities	(1,515,523)	(836,144)
Net cash flows from financing activities	10,246,356	1,418,937

Net cash flows from operations for the year were lower than the previous year mainly due to the loss incurred by the Group during 2014.

Net cash used in investing activities included the following:

	Years Ended December 31	
	2014	2013
Additions to property, plant and equipment	(\$1,547,515)	(\$2,078,248)
Acquisition of investment in subsidiary	-	-
Proceeds from sale of property, plant and equipment	31,992	1,242,104

Major components of cash flow provided by financing activities are as follows:

	Years Ended December 31	
	2014	2013
Proceeds from bank loans	\$74,635,566	\$63,582,854
Payment of bank loans	(75,211,203)	(59,533,357)

Finance costs paid	(1,797,581)	(1,761,475)
Proceeds from (Payment of) due to related parties	9,841	(869,085)

The Group does not foresee any cash flow or liquidity problem over the next twelve (12) months. It is in compliance with its loan covenant on debt-to-equity ratio. It is not aware of any material off-balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationship of the Group with entities or other persons created during the reporting period that would have significant impact on the Group's operations and/or financial condition.

As of December 31, 2014, there were no material events or uncertainties known to management that had a material impact on past performance or that could have a material impact on the future operations, in respect of the following:

- Known trends, demands, commitments, events or uncertainties that would have a material impact on the Group;
- Known trends, events, uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/ income from continuing operations;
- Significant elements of income or loss that did not arise from the Group's continuing operations; and
- Seasonal aspects that had a material effect on the financial condition or results of operations.

IV. MATERIAL CHANGES PER LINE OF ACCOUNT

Income Statement Calendar Year Ended December 31, 2014 versus 2013

Net revenues declined by 4%. This was due to the following:

- Tuna business increased in sales volume by 12% but due to lower fish cost the net revenues decreased by 9% or \$5.4 million
- Salmon division's net revenues grew by 9% or \$2.3 million because of the full capacity utilization of the salmon company in General Santos City, Philippines

Cost of goods manufactured and sold dropped by 5% due to lower fish cost.

The upturn of 8% in gross profit was attributable to the good performance of the salmon business during 2014.

Other income was reduced by 61%. This was mainly due to the gains of \$546 thousand from sale of fishing vessels in 2013.

Save for the non-recurring expenses, the Group was able to cut selling and administrative expenses by 4% from \$8.5 million to \$8.1 million as a result of cost cutting program that the Parent Company underwent during the period.

For the year 2014, the Group took the conservative position of recognizing non-recurring expenses in its P & L amounting to \$20.2 million comprising mainly of the following items:

- Inventory write down to its market value and allowance for inventory obsolescence for the Group totaling \$3.2 million. These were attributable to the volatility in raw material prices leaving it with finished goods produced at higher cost of fish at year end.
- Provision for impairment of the value of the three (3) fishing vessels amounting to \$7.8 million which is carried in the Parent Company's books in accordance with the provision of IAS 36 on impairment of assets. This is likewise in line with the strategic direction of the Group regarding its fishing vessels.
- Provision for impairment of ASFI's receivable from Wild Catch (WCFI) as a result of the amendment of the joint venture agreement between the two parties following the sinking of one fishing vessel last September 2014. The receivable is comprised of the sale of three (3) fishing vessels and various advances to WCFI totaling \$8.45 Million. ASFI likewise wrote down its investment in WCFI amounting to \$39,279.

Other expenses increased by 310% because of the foreign exchange loss of PT VDZ and PFNZ amounting to \$186 thousand and \$249 thousand, respectively due to depreciation of Rupiah and New Zealand Dollar.

Share in equity in net earnings of associates lowered by 317%. This pertains to share in the loss of AMHI during the period which the Group owns 40% stake. In 2014, AMHI received a court order lifting all claims against Maranaw Canning Corporation resulting in the whole carrying amount of receivables amounting to \$\mathbb{P}61\$ million to be written off

Share in equity in net earnings of a joint venture improved from a loss of \$69 thousand to \$74 thousand due to the profit recognized by FDCP during the year. The Group owns 40% stake in FDCP, Inc.

Income tax expense (benefit) increased by 941 % due to net operating loss of ASFI.

Balance Sheet

Calendar Year Ended December 31, 2014 versus 2013

Cash and cash equivalents increased by 55% mainly due to the higher cash balance of Spence & Co. and the Company.

Trade and other receivables declined by 42%. This is mainly due to the reclassification of receivables relating to the sale of vessels to WCFI amounting to \$6.4 million to non-current asset..

Due from related parties decreased by 39% due to partial payment of AMHI and reclassification of advances to WCFI to non-current assets.

Inventories grew by 30%. This is primarily due to the Company's purchase of frozen fish and production of orders for early 2015 shipment.

Biological assets reduced by 8%. This is comprised of female smolt which are young salmons at the stage when it is ready to migrate from fresh water to the sea.

Prepayments and other current assets increased by 14% due to refundable income tax of Spence, creditable withholding tax of the Company, and the advance port rental of VDZ.

Investment in associates pertains to investment in AMHI and Salmon Smolts NZ Ltd. in which the Company has a 40% and 20% stake, respectively. The decrease of 68% was share in equity in net losses of the associates during the period.

Investments in a joint venture grew by 19% due to share in equity in net earnings of FDCP during the year.

Property, plant and equipment – net declined by 37% due to the allowance for impairment on the fishing vessels of the Company amounting to \$7.8 million in 2014.

Deferred tax assets increased by 432%, which pertains to income tax benefit realized from the net operating loss of the parent Company.

Other intangible assets – net decreased by 8% which pertain to the amortizations of the fishing license and salmon farming consent.

Other non-current assets – net increased by 8% which pertain to the reclassification of the receivables from WCFI and advances as fish deposit.

Trade and other payables increased by 23.29% as the Company maximized its credit terms with its various trade suppliers.

Income Tax Payable decreased by 99% due to the losses incurred within the year and due to the income tax paid by Spence in 2013.

Due to related parties pertains to advances from a shareholder and this increased by 7% mainly due to foreign currency translation adjustment.

Loans Payable - net of current portion decreased by 26% due to payment of scheduled amortization.

Retirement benefit obligation declined by 34% due to funding of the retirement fund to a trust bank and retirement of the key officers.

Deferred tax liabilities increased by 18% due to timing difference of income tax computation which was applied in 2014.

Share capital grew by 43% due to issuance of 430,286,226 shares of stocks through a private placement in May 2014.

Reserves increased by 74% mainly due to issuance of 430,286,226 shares of stocks through a private placement at a premium.

The downturn in retained earnings from \$1.3 million to a deficit of \$15.0 million was due to one-time expenses such as doubtful accounts expense of \$8.5 million, impairment loss on fishing vessels of \$7.8 million, inventory write down of \$2.0 million, obsolescence of \$1.2 million, and impairment loss on investment of \$39 thousand.

Non-controlling interest decreased by 230% due to the share in the net loss during the year of various units.

V. KEY PERFORMANCE INDICATORS

The Group uses the following key performance indicators to assess the Group's financial performance from period to period.

	Years ended December 31		
Key performance indicator	2014	2013	
Revenue growth rate	-3.6%	2.4%	
Net profit margin	-20.2%	-3.1%	
Current ratio	0.85	0.95	
Debt to equity ratio	1.82	1.51	
Return on average stockholders' equity	-64.4%	-8.8%	

The following defines each ratio:

- The revenue growth rate is the Group's increase in revenue for a given period. This growth rate is computed from the current revenue less revenue of the previous year, divided by the revenue of the previous year. The result is expressed in percentage.
- The net profit margin is the ratio of the Group's net income attributable to equity holders of the parent versus its net revenue for a given period. This is computed by dividing net income attributable to equity holders of the parent after tax by net revenue. The result is expressed in percentage.
- The liquidity ratio is the ratio of the Group's current resources versus its current obligations. This is computed by dividing the current assets by the current liabilities. The result is expressed in number of times.
- The total liabilities to equity ratio are used to measure debt exposure. It shows the relative proportions of all creditors' claims versus ownership claims. This is computed by dividing total liabilities by total stockholders' equity. The result is expressed in proportion.
- The return on average stockholders' equity ratio is the ratio of the Group's net income attributable to equity holders of the parent to the average stockholders' equity. This measures the management's ability to generate returns on investments. This is computed by dividing net income attributable to equity holders of the parent by the average stockholders' equity. The result is expressed in percentage.

Except as otherwise discussed below and to the best of the Company's knowledge, there has been no occurrence during the past five (5) years to date of any of the following events that are material to an evaluation of the ability or integrity of any director, any nominee for election as director, executive officer, underwriter, or controlling person of the Company:

- o any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer, either at the time of the bankruptcy or within two (2) years prior to that time:
- any conviction by final judgment, including the nature of the offense, in a criminal proceeding, domestic or foreign, or being subject to a pending criminal proceeding, domestic or foreign, excluding traffic violations and other minor offenses;
- being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities; and
- o being found by a domestic or foreign court of competent jurisdiction (in a civil action), the SEC or comparable foreign body, or a domestic or foreign exchange or other organized trading market or self-regulatory organization, to have violated a securities or commodities law or regulation, and the judgment has not been reversed, suspended or vacated.

Jonathan Y. Dee was a Director and Officer of the First Dominion Property Holdings, Inc. (FDPHI) Group that filed a petition for rehabilitation in 2001, docketed as Civil Case No. 68343 of Branch 158 of the Pasig City Regional Trial Court. The FDPHI Group was constrained to file the aforementioned petition due to the serious liquidity problem that it experienced in the aftermath of the Asian financial crisis. The sharp downturn in the Philippine economy in 1997 instantly created adverse market conditions, which frustrated the FDPHI Group's plan at that time for an IPO. The Group's problem arose from the precipitous plunge of the Peso vis-à-vis the US Dollar resulting in a very significant upward adjustment of the Peso value of its dollar loans, which the FDPHI Group was intending to retire with IPO proceeds had the plan for public listing materialized. The Group's petition for rehabilitation was granted and its Amended Rehabilitation Plan ("ARP") was approved by the rehabilitation court. The ARP was implemented successfully and faithfully, and upon motion of the rehabilitation receiver, the Court on 8 October 2014 issued an order declaring a successful implementation of the rehabilitation plan and the termination of the proceedings. A Certificate of Finality dated 10 December 2014 was subsequently issued by the Court, stating that the 8 October 2014 Order became final and executory on 13 November 2014, no appeal or motion for reconsideration having been filed.

On February 13, 2014, a complaint by shareholders Harvest All Investment Limited, Victory Fund Limited, Bondeast Private Limited was filed against the Company's Assistant Corporate Secretary Annsley B. Bangkas and one of the Company's independent directors, George Sycip, for alleged violations of Section 74 & 75 in relation to Section 144 of the Corporation Code. The shareholder companies claimed that Mr. Sycip and Ms. Bangkas allegedly denied them access to company records, even as the Board of Directors has met and resolved to refer the matter of inspection to independent counsel for study. The Complaint Affidavit was filed in the Office of the City Prosecutor, Pasig City. This case was subsequently consolidated with the second complaint discussed below, and is currently pending with the Department of Justice.

On March 11, 2014 a complaint was filed by shareholders Harvest All Investment Limited, Victory Fund Limited, Bondeast Private Limited against George E. Sycip, and Jonathan Y. Dee, four members of the Company's Board of Directors, for alleged violations of Section 74 & 75 in relation to Section 144 of the Corporation Code. The complainants allege the denial of their shareholders' rights to inspect the corporate records and minutes of meetings, even as the Board of Directors were still deliberating on the Notice of Inspection. The Complaint Affidavit was filed in the Office of the City Prosecutor, Pasig City (OCP Pasig). Upon motion of the shareholder companies, this case was consolidated with the aforementioned complaint. The consolidated case was endorsed to the Department of Justice, after the complainant shareholders sought the inhibition of the OCP Pasig when the relief they prayed for was not completely granted. The case remains pending with the Department of Justice.

On May 12, 2014, a Petition for the Declaration of Nullity of Board Resolutions and Inspection of the Corporate Books and Records, with Prayer for Issuance of a Temporary Restraining Order and/or Writ of Preliminary Injunction was filed with the Regional Trial Court of Pasig City (Pasig RTC) by two of the Company's directors, Hedy S. C. Yap-Chua and Albert Hong Hin Kay, against four of the Company's directors, Messrs. George E. Sycip, Jonathan Y. Dee, Alvin Y. Dee, Ibarra A. Malonzo, and its Corporate Secretary, Avelino M. Sebastian (the "Intra-Corporate Case"). The petitioners sought to nullify, among others, the board resolution relating to the issuance of shares to Strongoak on May 5, 2014. On May 23, 2015, the judge issued an order stating that "After a careful consideration of the allegations in the Petition with Prayer for Temporary Restraining Order (TRO) and/or Writ of Preliminary Injunction, this Court finds that the prayer for TRO does not appear to be of extreme urgency; hence, the same is hereby BYPASSED." The case remains pending before the Pasig RTC.

On 27 May 2014, shareholders Harwest All Investment Limited, Victory Fund Limited, Bondeast Private Limited, and Hedy S.C. Chua filed a derivative suit against Board Directors George Sycip, Alvin Dee, Jonathan Dee, Ibarra Malonzo, and senior executives Ms. Joanna Dee-Laurel, Ms. Teresita Ladanga and Ms. Grace Dogillo. The derivative suit prays for the appointment of an interim management committee. The case remains pending before the Pasig RTC.

Per the Company's Manual on Corporate Governance the Board has taken the lead in following recommended standards of Corporate Governance. To reflect its commitment to set, and maintain, high standards of governance, the Board has set up various Board Committees to guide the attainment of corporate goals. These Committees are:

<u>Audit Committee</u> - The purpose of the Committee is to assist the Board of Directors in fulfilling its oversight responsibilities for the Company's corporate governance processes relating to:

- (i) The quality and integrity of the company's financial statements and financial reporting process;
- (ii) The adequacy and effectiveness of the Company's internal control systems;
- (iii) Compliance with accounting standards, legal and regulatory requirements, including the Company's disclosure policies and procedures;
- (iv) Independence and performance of the Company's internal and external auditors;
- (v) Evaluation of risk management policies and process.

The Committee is accountable to the Board for its performance and shall prepare the report of the Committee required to be in the Company's annual report.

The Committee's duties and responsibilities include, among others, monitoring the integrity of the financial information provided by the Company, monitoring and assessing the role and effectiveness of the internal audit function, reviewing the external auditors scope of work, reviewing the effectiveness of the system for monitoring compliance with laws and regulations, overseeing interested party transactions, ensuring that the management establishes sound risk management policies and systems and performing any other activities consistent with the committees charter and Company By-Laws etc.

The Committee met four times during the year, on 10 January 2014, 28 March 2014, 4 August 2014, and 5 November 2014.

<u>Executive Committee</u> – The primary responsibility of the committee is to act on behalf of the Board on matters that require urgent and prompt action. In cases where the full Board cannot convene, but urgent matters need to be acted upon, the Committee exercises the power of the Board though it is subordinated to and responsible to the full Board at all times.

The committee can act on all matters except change the Company Articles of Incorporation and By-Laws, adopt an agreement on Mergers & Acquisitions, declare dividends or authorize issuance of stock, amend or rescind previous Board resolutions and recommend sale, lease or exchange of corporate property and assets.

The Committee has to report all the actions it takes to the Board.

The Committee met thrice during the year, on July 7 and 24, 2014, and on August 22, 2014.

Nominations Committee – The committee's primary responsibility is to pre-screen and short-list all candidates nominated to become a member of the Board of Directors. It should also define, or re-define, as the case may be, the role, duties and responsibilities of the Chief Executive Officer by integrating the dynamic requirements of the business as a going concern and future expansionary prospects within the realm of good corporate governance at all times.

The Committee met thrice during the year, on May 14, 2014, and on November 11 and 28, 2014.

Compensation & Remuneration Committee – Its responsibilities include establishing a formal and transparent procedure for developing a policy on executive remuneration and for fixing the remuneration packages of corporate officers and directors, and provide oversight over remuneration of senior management and other key personnel ensuring that compensation is consistent with the Corporation's culture, strategy and control environment. Moreover, the committee is to designate amount of remuneration to attract and retain competent corporate officers. Also, the committee should establish a formal and transparent procedure for developing a policy on executive remuneration and fixing the remuneration packages of individual directors.

The Committee met on 24 July 2014.

The Company's Acting Compliance Officer constantly monitors and evaluates compliance of the Directors and officers to its Manual on Corporate Governance. The Company has fully complied with the requirements of the Manual on Corporate Governance and the company will continue to take steps, as needed, to improve its corporate governance.

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Alliance Select Foods International, Inc. and its Subsidiaries, which comprise the consolidated statements of financial position as at December 31, 2014 and 2013, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2014, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Member of Deloitte Touche Tohmatsu Limited

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Alliance Select Foods International, Inc. and its subsidiaries as at December 31, 2014 and 2013, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2014, in accordance with Philippine Financial Reporting Standards.

1. CORPORATE INFORMATION AND STATUS OF OPERATION

Corporate Information

Alliance Select Foods International, Inc. (the "Parent Company") is a public corporation under Section 17.2 of the Securities Regulation Code (SRC) and was incorporated and registered in the Philippine Securities and Exchange Commission (SEC) on September 1, 2003. The Parent Company is primarily engaged in the business of manufacturing, canning, importing and exporting of food products such as marine, aquaculture and other processed seafoods. Its shares are listed in the Philippine Stock Exchange (PSE) since November 8, 2006.

Furthermore, the Parent Company was registered with the Board of Investments (BOI) on August 24, 2004 under the Omnibus Investments Code of 1987, otherwise known as Executive Order No. 226, on a non-pioneer status as new export producer of canned tuna and its by-product, fishmeal. As such, the Parent Company is entitled to certain incentives such as income tax holiday (ITH) for four years plus three bonus years from the date of registration and subject for approval of extension by the BOI; tax credit on raw materials and supplies used for export products; and additional deduction for labor expense, subject to certain requirements under the terms of its BOI registration. The Parent Company has been granted by the BOI three years extension of ITH that ended on August 23, 2011.

On July 1, 2010, the Board of Directors has resolved to change the corporate name from Alliance Tuna International, Inc. to Alliance Select Foods International, Inc. The change in corporate name was then approved by the SEC on July 22, 2010.

On November 25, 2011, SEC has approved the increase in the Parent Company's authorized share capital from P950,000,000 divided into 950,000,000 shares to P1,500,000,000 divided into 1,500,000,000 shares having a par value of P1 per share.

The financial position and results of operations of the Parent Company and its subsidiaries (the "Group") are consolidated in these financial statements.

The Parent Company's principal place of business is located at Suites 1205, 1206 & 1405 East Tower, Philippine Stock Exchange Centre, Exchange Road, Ortigas Center, Pasig City. It has plant facilities located in Barrio Tambler, General Santos City, Philippines.

Status of Operations

The Group incurred net losses in 2014 and 2013 amounting to \$17,076,504 and \$2,918,933, respectively. The significant loss in 2014 was a result of Management decision to take a prudent and conservative position to recognize non-recurring expenses amounting to \$19,530,881 million. These non-recurring expenses comprised mainly of the following: inventory write down and provision for inventory obsolescence, provision for impairment in the value of the Group's fishing vessels and provision for impairment of the receivables from Wild Catch Fisheries, Inc. (WCFI) as a result of an amendment in the joint venture agreement between the Parent Company and WCFI, as disclosed in Note 40.

The Management has taken appropriate actions by implementing strategies that will assist in improving the results of operations and maintaining financial stability. These measures include a more persistent and aggressive sales efforts, a focus on improve efficiencies across all areas of operations, better inventory management and raw material sourcing. Furthermore, the Parent Company intends to undertake a stock right offer (SRO) to raise funds for its operational requirements as disclosed in Note 40.

2. FINANCIAL REPORTING FRAMEWORK AND BASIS OF PREPARATION AND PRESENTATION

Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS), which includes all applicable PFRS, Philippine Accounting Standards (PAS), and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), Philippine Interpretations Committee (PIC) and Standing Interpretations Committee (SIC) as approved by the Financial Reporting Standards Council (FRSC) and Board of Accountancy (BOA) and adopted by the SEC.

Basis of Preparation and Presentation

The consolidated financial statements of the Group have been prepared on the historical cost basis, except for:

- financial instruments carried at amortized cost;
- land carried at revalued amounts;
- investments in associates and joint ventures accounted for using the equity method;
- inventories carried at the lower of cost or net realizable value;
- biological assets measured at fair value less costs to sell; and
- the retirement benefit obligation recognized as the net total of the present value of defined benefit obligation less the fair value plan assets.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of PAS 2, Share-based Payment, leasing transactions that are within the scope of PAS 17, Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in PAS 2, Inventories, or value in use in PAS 36, Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Functional and Presentation Currency

These consolidated financial statements are presented in U.S. Dollar, the currency of the primary economic environment in which the Group operates. All amounts are recorded in the nearest dollar, except when otherwise indicated.

3. BASIS OF CONSOLIDATION AND COMPOSITION OF THE GROUP

Basis of Consolidation and Non-Controlling Interest

The consolidated financial statements incorporate the financial statements of the Parent Company and all subsidiaries it controls. Control is achieved when the Parent Company has power over the investee, is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect its returns.

The Parent Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of these three elements of control. When the Parent Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

The Parent Company considers all relevant facts and circumstances in assessing whether or not the Parent Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Parent Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Parent Company, other vote holders or other parties;
- · rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Parent Company has, or
 does not have, the current ability to direct the relevant activities at the time that decisions
 need to be made, including voting patterns at previous shareholders' meetings.

Composition of the Group

Details of the Parent Company's subsidiaries as at December 31 are as follows:

The principal activities and other details of the subsidiaries are as follows:

ASFI Thailand

On March 12, 2004, the Parent Company established ASFI Thailand, a Thailand based wholly-owned subsidiary, the primary activity of which is that of a sales representative office. ASF Thailand's net assets as at December 31, 2014 and 2013 amounted to nil.

PTIAFI

PTIAFI was established under the Indonesian law within the framework of the Foreign Capital Investment Law No. 25 year 2007 based on Notarial Deed No. 101 dated May 21, 2001. The Deed of Establishment was approved by the Minister of Justice of the Republic of Indonesia in the Decision Letter No. AHU-24298.AH.01.01 dated May 28, 2008.

PTIAFI is primarily engaged in canned fish processing exclusively for international market. The plant is located at JI. Raya Madidir Kelurahan Madidir Unet Ling. II Kecamatan Madidir, Bitung, Indonesia.

This investment in PTIAFI provides the Group with access to the rich Indonesian marine resources.

On May 26, 2010 the Board of Directors authorized the Company to increase its equity investment in PTIAFI from \$825,600 to \$4,499,000 by converting its outstanding cash advances in the amount of \$3,673,400 into equity and applying the same as payment for the additional 3,673,400 shares at a par value of \$1.00. The percentage ownership thus increased from 79.92% as at December 31, 2009 to 89.98% as at December 31, 2010. The Company's joint venture partner in the subsidiary, PT Wailan Pratama, also converted part of its advances and increase its shareholdings from 206,400 shares as at December 31, 2009 to 500,001 shares as at December 31, 2010 with a par value of \$1.00.

On December 20, 2011, PTIAFI founded and established PT Van de Zee (VDZ) under the current Indonesian law with 80% percentage ownership and is considered a subsidiary of PTIAFI. VDZ will be operated in integration with the tuna processing activities of PTIAFI. VDZ's establishment as a foreign investment company has been approved by the Indonesian Investment Coordinating Board or Bedan Koordinasi Penanaman Modal and Ministry of Laws and Human Rights of the Republic of Indonesia.

On February 10, 2012, the Parent Company purchased 500,000 shares of PT Wailan Pratama, a fishing company, at book value for \$500,000 which has been approved by the Indonesia Investment Coordinating Board and the Department of Law and Human Rights in accordance to Indonesia law. This event increased Parent's stake in PTIAFI from 89.98% as at December 31, 2010 to 99.98% on February 10, 2012.

In 2014, a new law in Indonesia required that domestic ownership in local entities be increased to at least 51% to take more of profits from the country's vast mineral resources. As a result, PTIAFI, being owned by the Company, sold 31% of its ownership in PT VDZ decreasing its share to 49%. Based on Management's assessment, PTIAFI still has control over PT VDZ.

The significant information on the consolidated financial statements of PTIAFI as at and for the years ended December 31 are as follows:

PFNZ

PFNZ is a company domiciled in New Zealand and is registered under the Companies Act of 1993 on September 8, 1993. The Ministry of Economic Development assigned company number 625998 to PFNZ as part of its registration process.

PFNZ is primarily engaged in the business of processing, manufacturing and distributing smoked salmon and other seafoods under the Prime Smoke and Studholme brand for distribution in New Zealand and other countries. The investment in PFNZ is the first venture of the Parent Company in the salmon business. The plant is located in Hororata RD2 Darfield, New Zealand.

In September 2014, PFNZ started operating as a marketing arm of BGB after the cessation of its manufacturing operations.

The significant information on the financial statements of PFNZ as at and for the years ended December 31 are as follows:

	2014	2013

BGB

BGB is a joint venture between the Parent Company and its New Zealand-based subsidiary PFNZ. It was established primarily to engage in the business of manufacturing goods such as salmon and other processed seafoods. It was registered with the Philippine SEC on October 29, 2009 with registration number CS200916903. Its registered address is located at Suite 1205 East Tower, Philippine Stock Exchange Centre, Exchange Road, Ortigas Center, Pasig City, Philippines and its plant facilities is located at Barrio Tambler, General Santos City, Philippines.

The investment in salmon processing allows the Group to be the dominant player in the smoked salmon industry in the region and to continue on a path towards further product and resource diversification.

BGB started its commercial operation on August 1, 2011.

The Company was registered with the BOI and was granted ITH for four years. The ITH registration of the Company expired on June 30, 2014. As a result, the Company has been subjected to normal income tax of 30% for the second half of 2014.

In 2013, the Parent Company and PFNZ converted their respective advances to BGB amounting to \$257,000 each into equity ownership of 11,082,610 shares of BGB each with a par value of P1 per share. Ownership percentages of the Parent Company and PFNZ remain the same after the conversion.

In 2014, the Parent Company converted a portion of its advances to BGB amounting to \$777,047 into 777,047 shares of BGB, resulting in an increased ownership percentage from 50% + 1 to 68% during the year.

The significant information on the financial statements of BGB as at and for the years ended December 31 are as follows:

	2014	2013
Total assets	\$7,699,283	\$4,863,600

Other comprehensive loss	484	(659)
Total comprehensive loss	(\$ 608,593)	(\$1,206,501)

ASFIC

On April 11, 2011, the Parent Company established ASFIC in Massachusetts, USA, to serve as the Parent Company's vehicle in making investments in, or acquisitions of other companies, as well as market and distribute the Group's products in the USA. ASFIC is a wholly-owned subsidiary of the Parent Company. ASFIC does not have any revenue nor expenses as the Parent Company used it solely to acquire investments. ASFIC's net assets as at December 31, 2014 and 2013 amounted to \$10,000.

SPENCE

On August 10, 2011, the Parent Company acquired 100% of the issued share capital of Spence, located at No. 76 Campanelli Drive, Brockton MA 02301 USA, for a cash consideration of \$9,240,946 resulting in recognition of goodwill amounting to \$7,451,946. Spence specializes in the production of smoked salmon and other seafoods. Its processing facilities cover an area of 20,000 square meters with a rated capacity of 6 metric tons per day.

Goodwill arising from acquisition on August 10, 2011 amounted to \$7,451,946, computed as follows:

Investment	\$9,240,946
Net assets	(1,789,000)
Goodwill	\$7,451,946

The investment in salmon processing allows the Group to diversify its product line to take advantage of the changing food consumption patterns around the globe, address the issue of sourcing raw materials and improve overall margins and profitability.

The significant information on the financial statements of Spence as at and for the years ended December 31 are as follows:

	2014	2013
Total assets Total liabilities	\$ 4,162,435 (1,538,940)	\$ 3,844,497 (1,236,146)
Net assets	\$ 2,623,495	\$ 2,608,351
Revenues Cost and expenses	\$16,909,905 (16,094,763)	\$16,023,396 (15,409,309)
Net income	\$ 815,142	\$ 614,087

AKAROA

On October 1, 2012, the Parent Company acquired 80% of the issued shares of Akaroa with a fair value of \$276,161 at a purchase price of \$2,326,800, resulting in a goodwill amounting to \$2,050,639, recognized in the consolidated financial statements. Akaroa is a company incorporated and domiciled in New Zealand and is registered under the Companies Act of 1993. Its principal office is located in 9 Pope Street Riccarton, Christchurch New Zealand. Akaroa is engaged in the business of sea cage salmon farming and operates two marine farms in Akaroa Harbor, South Island, New Zealand. It also processes fresh and smoked salmon.

Goodwill arising from acquisition on October 1, 2012 amounted to \$2,050,639, computed as follows:

Investment	\$2,326,800
Net assets at 80%	(276,161)
Goodwill	\$2,050,639

Akaroa also holds 20% stake in Salmon Smolt NZ Ltd., a modern hatchery quarantining high quality and consistent supply of smolts (juvenile salmon) for its farm.

The Group financed this acquisition through a private placement of its authorized unissued shares. Management believes that the acquisition of Akaroa will enable the Group to stabilize its supplies of salmon and eventually strengthen its market share in the salmon industry.

The significant information on the financial statements of Akaroa as at years ended December 31 are as follows:

	2014	2013
Total assets Total liabilities	\$1,571,454 (1,538,940)	\$1,348,596 (907,723)
Net assets	\$ 32,514	\$ 440,873
Revenues Cost and expenses	\$3,364,694 (3,284,246)	\$2,704,225 (2,820,474)
Profit (Loss) for the year	\$ 80,448	(\$ 116,249)

ASF

On January 24, 2013, the Parent Company established Alliance Select Foods Pte. Ltd. (ASF), a Singapore based wholly-owned subsidiary. The initial issued and paid up share capital of the subsidiary is SGD10 (Ten Singapore Dollars) with 10 ordinary shares worth SGD1 per share. ASF has not yet started its commercial operation. The Parent Company intends to increase the paid up capital in the future as it becomes operational. The primary activity of the subsidiary will be that of general wholesaler and trader and an investment holding company. ASF's net assets as at December 31, 2014 and 2013 amounted to nil.

Due to change in Management's strategy and ASF being non-operational, the Parent Company decided to close ASF in 2014, which did not have any material impact on the Group's financial statements.

AMHI

AMHI was established primarily to engage as a property holding arm of the Group. It was registered with the Philippine SEC on June 18, 2010 with registration number CS201009131. Its registered address is located at Purok Salayda, Barangay Tambler, General Santos City, Philippines.

Initially, AMHI is a Special Purpose Entity (SPE) and considered as a subsidiary of the Parent Company. As an SPE, AMHI conducts its normal operations by exclusively allowing the members of the Group to make use of its properties under lease agreements.

On December 12, 2012, the Parent Company's officers who held key positions in AMHI resigned from AMHI. Moreover, on December 28, 2012, AMHI sold a substantial portion of its assets to the Parent Company to settle amounts due to the latter.

Effective December 28, 2012, the Parent Company ceased to exercise control over AMHI and had reduced financial interest, but continued to have significant influence over AMHI as disclosed in Note 6.

For consolidation purposes, the result of operations from January 1, 2012 up to December 27, 2012 was included in the consolidated statements of comprehensive income.

The loss of control over AMHI resulted in the reduction of the Group's retained earnings as at December 31, 2012 amounting to \$860,638.

4. ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

Adoption of New and Revised Accounting Standards Effective in 2014

The following new and revised accounting standards and interpretations that have been published by the International Accounting Standards Board (IASB) and issued by the FRSC in the Philippines were adopted by the Group effective on January 1, 2014, unless otherwise indicated:

Amendments to PAS 32, Financial Instruments: Presentation

The amendments provide clarifications on the application of the offsetting rules of financial assets and financial liabilities.

The amendments have no significant impact on the Group's consolidated financial statements as the Group does not have any financial assets and financial liabilities that qualify for offset.

Amendments to PAS 36, Impairment of Assets

The amendments to PAS 36 reduce the circumstances in which the recoverable amount of assets or cash-generating units is required to be disclosed, clarify the disclosures required, and introduce an explicit requirement to disclose the discount rate used in determining impairment (or reversals) where recoverable amount (based on fair value less costs of disposal) is determined using a present value technique.

The amendments have no significant impact on the Group's consolidated financial statements since the Group did not apply the present value technique in determining the allowance for impairment of inventories and property and equipment.

New Accounting Standards Effective After the Reporting Period Ended December 31, 2014

The Group will adopt PFRS 9 when this becomes effective:

PFRS 9, Financial Instruments

The standard requires all recognized financial assets that are within the scope of PAS 39, Financial Instruments: Recognition and Measurement, to be subsequently measured at amortized cost or at fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely for payments of principal and interest on the outstanding balance are generally measured at amortized cost at the end of subsequent reporting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent reporting periods.

For financial liabilities that are designated as at fair value through profit or loss, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or increase an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. The standard is to be effective no earlier than the annual periods beginning January 1, 2017, with earlier application permitted.

The Management is still evaluating the impact of PFRS 9 on the Group's financial assets and liabilities as of the reporting period.

New and Revised Accounting Standards Issued by IASB and Approved for Adoption by FRSC which are Effective after the Reporting Period Ended December 31, 2014 but pending for Adoption in the Philippines by BOA

The Group will adopt the following PFRS when these become effective:

Annual Improvements to IFRSs 2010-2012 Cycle

The annual improvements address the following issues:

Amendment to IFRS 2, Share-based Payment

The amendment provides new definitions of 'vesting condition' and 'market condition' and adds definitions for 'performance condition' and 'service condition' (which were previously part of the definition of 'vesting condition').

The adoption of this amendment will have no impact on the Group's consolidated financial statements.

Amendment to IFRS 3, Business Combinations (with consequential amendments to other standards)

This amendment clarifies that contingent consideration that is classified as an asset or a liability shall be measured at fair value at each reporting date.

The future adoption of this amendment may have an impact on the Group's consolidated financial statements should the Group decide to venture into a new entity as part of its strategic plans to turn-around the Group's operations.

Amendments to IFRS 8, Operating Segments

The amendments require an entity to disclose the judgments made by Management in applying the aggregation criteria to operating segments. These also clarify that an entity shall only provide reconciliations of the total of the reportable segments' assets to the entity's assets if the segment assets are reported regularly.

The adoption of these amendments will have no significant impact on the Group's consolidated financial statements.

Amendment to IFRS 13, Fair Value Measurement (amendment to the basis of conclusions only, with consequential amendments to the bases of conclusions of other standards)

This amendment states that issuing IFRS 13 and amending IFRS 9 and IAS 39 did not remove the ability to measure short-term receivables and payables with no stated interest rate at their invoice amounts without discounting if the effect of not discounting is immaterial.

The adoption of this amendment will have no significant impact on the Group's consolidated financial statements.

Amendment to IAS 16, Property, Plant and Equipment

The amendment requires that when an item of property, plant and equipment is revalued the gross carrying amount be adjusted in a manner that is consistent with the revaluation of the carrying amount.

The adoption of this amendment will have no significant impact on the Group's consolidated financial statements.

Amendment to IAS 24, Related Party Disclosures

The amendment states that an entity providing key management personnel services to the reporting entity or to the parent of the reporting entity is a related party of the reporting entity.

The adoption of this amendment will have no significant impact on the Group's consolidated financial statements.

Amendment to IAS 38, Intangible Assets

The amendment requires that when an intangible asset is revalued the gross carrying amount be adjusted in a manner that is consistent with the revaluation of the carrying amount.

The above improvements are effective for annual periods beginning on or after July 1, 2014 and shall be applied retrospectively. However, early application of these improvements is permitted under IFRS.

The adoption of this amendment will have no significant impact on the Group's consolidated financial statements.

Annual Improvements to IFRSs 2011-2013 Cycle

These annual improvements address the following issues: Annual Improvements to IFRSs 2011-2013 Cycle

Amendment to IFRS 1, First-time Adoption of International Financial Reporting Standards (changes to the Basis for Conclusions only)

The amendment states that an entity, in its first IFRS financial statements, has the choice between applying an existing and currently effective IFRS or applying early a new or revised IFRS that is not yet mandatorily effective, provided that the new or revised IFRS permits early application. An entity is required to apply the same version of the IFRS throughout the periods covered by those first IFRS financial statements.

The adoption of this amendment has no impact on the Group's consolidated financial statements as the Group is not adopting IFRS for the first time.

Amendment to IFRS 3, Business Combinations

The amendment clarifies that PFRS 3 excludes from its scope the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself.

The adoption of this amendment will have no significant impact on the Group's consolidated financial statements.

Amendment to IFRS 13, Fair Value Measurement

The amendment stresses that the scope of the portfolio exception defined in paragraph 52 of IFRS 13 includes all contracts accounted for within the scope of IAS 39, Financial Instruments: Recognition and Measurement, or IFRS 9, Financial Instruments, regardless of whether they meet the definition of financial assets or financial liabilities as defined in IAS 32, Financial Instruments: Presentation.

The adoption of this amendment will have no significant impact on the Group's consolidated financial statements.

Amendment to IAS 40, Investment Property

The amendment clarifies that in determining whether a specific transaction meets the definition of both a business combination as defined in IFRS 3, Business Combinations, and investment property as defined in PAS 40, Investment Property, requires the separate application of both standards independently of each other.

The above improvements are effective for annual periods beginning on or after July 1, 2014 and shall be applied retrospectively. However, early application of these improvements is permitted under IFRS.

The adoption of this amendment will have no significant impact on the Group's consolidated financial statements.

Amendments to IAS 19, Employee Benefits

The amendments clarify the requirements that relate to how contributions from employees or third parties that are linked to service should be attributed to periods of service. In addition, it permits a practical expedient if the amount of the contributions is independent of the number of years of service, in those contributions, can, but are not required, to be recognized as a reduction in the service cost in the period in which the related service is rendered.

The amendments are applicable to annual periods beginning on or after 1 July 2014.

The adoption of these amendments will have no significant impact on the Group's consolidated financial statements.

Amendments to IFRS 11, Accounting for Acquisitions of Interests in Joint Operations

The amendments clarify the accounting for acquisitions of an interest in a joint operation when the operation constitutes a business such that the acquirer is required to apply all of the principles on business combinations in IFRS 3 and other IFRSs with the exception of those principles that conflict with the guidance in IFRS 11. Accordingly, a joint operator that is an acquirer of such an interest has to:

- measure most identifiable assets and liabilities at fair value;
- expense acquisition-telated costs (other than debt or equity issuance costs);
- recognize deferred taxes;
- recognize any goodwill or bargain purchase gain;
- perform impairment tests for the cash generating units to which goodwill has been allocated; and
- · disclose information required relevant for business combinations.

The amendments apply to the acquisition of an interest in an existing joint operation and also to the acquisition of an interest in a joint operation on its formation, unless the formation of the joint operation coincides with the formation of the business.

The amendments are effective for annual periods beginning on or after January 1, 2016. Earlier application is permitted under IFRS but corresponding disclosures are required. The amendments apply prospectively.

The adoption of these amendments will have no significant impact on the Group's consolidated financial statements.

IFRS 14, Regulatory Deferral Accounts

The standard permits an entity which is a first-time adopter of IFRS to continue to account, with some limited changes, for 'regulatory deferral account balances' in accordance with its previous GAAP, both on initial adoption of PFRS and in subsequent financial statements. Regulatory deferral account balances, and movements in them, are presented separately in the statement of financial position and statement of profit or loss and other comprehensive income, and specific disclosures are required.

The standard is effective for annual reporting periods beginning on or after January 1, 2016. Earlier application is permitted under IFRS.

The adoption of this standard will have no significant impact on the Group's consolidated financial statements.

Amendments to IAS 16, Properties, Plant and Equipment

These amendments clarify that a depreciation method that is based on revenue generated by an activity that includes the use of an asset is not appropriate. This is because such methods reflects a pattern of generation of economic benefits that arise from the operation of the business of which an asset is part, rather than the pattern of consumption of an asset's expected future economic benefits.

The amendments are effective for annual periods beginning on or after January 1, 2016. Earlier application is permitted under IFRS.

The adoption of these amendments will have no significant impact on the Group's consolidated financial statements.

IFRS 9, Financial Instruments (Hedge Accounting) and amendments to PFRS 9, PFRS 7 and PAS 39 (2014)

On 24 July 2014, the IASB issued the final version of IFRS 9 incorporating a new expected loss impairment model and introducing limited amendments to the classification and measurement requirements for financial assets. The final version of IFRS 9 adds a new expected loss impairment model and amends the classification and measurement model for financial assets by adding a new fair value through other comprehensive income (FVTOCI) category for certain debt instruments and additional guidance on how to apply the business model and contractual cash flow characteristics test.

The Management is still evaluating the impact of the above improvements on the Group's consolidated financial statements.

New Accounting Standards Issued by IASB which are Effective After the Reporting Period Ended December 31, 2014 but pending Approval for Adoption in the Philippines

IFRS 15, Revenue from Contracts with Customers

The standard specifies how and when a PFRS reporter will recognize revenue as well as requiring such entities to provide users of financial statements with more informative, relevant disclosures. The standard provides a single, principles based five-step model to be applied to all contracts with customers.

The standard is effective for annual reporting periods beginning on or after January 1, 2017. Earlier application is permitted under IFRS.

The Management is still evaluating the impact of the new accounting standard on the Company's current revenue recognition.

5. SIGNIFICANT ACCOUNTING POLICIES

Business Combination

Acquisitions of businesses are accounted for using the equity method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interest issued by the Group in exchange for control of the acquiree. Acquisition related costs are generally recognized in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their fair value except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognized and measured in accordance with PAS 12 and PAS 19, respectively;
- liabilities and equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangement of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with PFRS 2, Share-based Payment at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with PFRS 5, Non-current assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquire (if any), the excess is recognized immediately in profit or loss as bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognized amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interest are measured at fair value or, when applicable, on the basis specified in another PFRS.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the measurement period (which cannot exceed one year from acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the changes in fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not measured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with PAS 39 or PAS 37, Provisions, Contingent Liabilities and Contingent Assets, as appropriate, with the corresponding gain or loss being recognized in profit or loss.

Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Parent Company gains control until the date when the Parent Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income of subsidiaries are attributed to the owners of the Parent Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Parent Company and to the non-controlling interest even if this results in the non-controlling interest having deficit.

The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company, using uniform accounting policies for like transactions and other events in similar circumstances. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. Unrealized gains and losses are eliminated.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Parent Company.

When the Group loses control of a subsidiary, a gain or loss is recognized in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognized in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e., reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable PFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under PAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of business combination over the interest in the net fair value of the acquirer's identifiable assets, liabilities and contingent liabilities. Subsequently, goodwill arising on an acquisition of a business is measured at cost less any accumulated impairment losses.

For purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (CGUs) that is expected to benefit from the synergies of the combination.

A CGU to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized directly in profit or loss in the consolidated statements of comprehensive income. An impairment loss recognized for goodwill is not reversed in subsequent periods.

On disposal of the relevant CGU, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Intragroup Transactions and Balances

The consolidated financial statements were prepared using uniform accounting policies for like transactions and other events in similar circumstances. Intergroup balances and transactions, including inter group profits and unrealized profits and losses, are eliminated. When necessary, adjustments are made to the consolidated financial statements of subsidiaries to bring the accounting policies used in line with those used by the Parent Company. All intra-group transactions, balances, income and expenses are eliminated in the consolidation.

Financial Assets

Initial recognition

Financial assets are recognized in the Group's financial statements when the Group becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value. Transaction costs are included in the initial measurement of the Group's financial assets, except for investments classified at fair value through profit or loss (FVTPL).

Classification and subsequent measurement

Financial assets are classified into the following specified categories: financial assets FVTPL, held-to-maturity investments, available-for-sale financial assets (AFS) and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. Currently, the Group's financial assets consist of loan and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are measured at amortized cost using the effective interest method, less any impairment and are included in current assets, except for maturities greater than 12 months after the end of the reporting period.

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the debt instrument or, when appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognized by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial. The Group's financial assets classified under this category include cash, trade and other receivables, due from related parties, and refundable lease deposit under other non-current assets.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

Objective evidence of impairment

For all financial assets carried at amortized cost, objective evidence of impairment could include:

- · significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payments; or
- it has become probable that the borrower will enter bankruptcy or financial reorganization; or
- default or delinquency in interest or principal payments; or
- the disappearance of an active market for that financial asset because of financial difficulties; or
- the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider; or
- observable data indicating that there is a measurable decrease in the estimated future
 cash flows from a group of financial assets since the initial recognition of those assets,
 although the decrease cannot yet be identified with the individual financial assets in the
 Group.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period as well as observable changes in national or local economic conditions that correlate with default on receivables.

Financial assets carried at amortized cost

If there is objective evidence that an impairment loss on loans and receivables carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, excluding future credit losses that have not been incurred, discounted at the financial asset's original effective interest rate, i.e., the effective interest rate computed at initial recognition.

The carrying amount of financial assets carried at amortized cost is reduced directly by the impairment loss with the exception of trade receivables, wherein the carrying amount is reduced through the use of an allowance account. When trade receivables are considered uncollectible, these are written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in consolidated profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss shall be reversed. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortized cost would have been had the impairment not been recognized at the date the impairment is reversed. The amount of the reversal shall be recognized in consolidated profit or loss.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statements of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire; or when the Group transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The difference between the carrying amount of the financial asset derecognized and the consideration received or receivable is recognized in consolidated profit or loss.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

Inventories

Inventories are measured initially at cost. Costs comprise direct materials, direct labor costs and those overheads incurred in bringing the inventories to their present location and condition. Subsequently, inventories are stated at the lower of cost and net realizable value. Cost is calculated using the weighted average method. Net realizable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distributing the goods.

When the net realizable value of the inventories is lower than the cost, the Group provides for an allowance for the decline in the value of the inventory and recognizes the write-down as an expense in the consolidated statements of comprehensive income. The amount of any reversal of any write-down of inventories, arising from an increase in net realizable value, is recognized as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

When inventories are sold, the carrying amount of those inventories is recognized as an expense in the period in which the related revenue is recognized.

Prepayments

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to consolidated profit or loss as they are consumed in operations or expire with the passage of time.

Prepayments are classified in the consolidated statements of financial position as current assets when the cost of goods or services related to the prepayments are expected to be incurred within one year or the Group's normal operating cycle, whichever is longer. Otherwise, prepayments are classified as non-current assets.

Investments in Associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Investment in associates is measured initially at cost. Subsequent to initial recognition, investment in associates is carried in the Group's consolidated financial statements using the equity method.

The results of operation and assets and liabilities of an associate are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held-for-sale. Investments in associates are carried in the consolidated statements of financial position at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associates, less any impairment in the value of individual investments. Losses of associates in excess of the Group's interest in those associates are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associates.

Any excess of the cost of acquisition over the Group's share of the fair values of the identifiable net assets of the associates at the date of acquisition is recognized as goodwill. Goodwill is included within the carrying amount of the investments and is assessed for impairment as part of that investment. Any deficiency of the cost of acquisition below the Group's share of the fair values of the identifiable net assets of the associates at the date of acquisition, i.e., discount on acquisition is immediately recognized in consolidated profit or loss in the period of acquisition.

When a group entity transacts with its associates, profits and losses resulting from the transactions with the associates are recognized in the Group's consolidated financial statements only to the extent of interests in the associates that are not related to the Group.

The Group's accounting policy for impairment of assets under PAS 36 is applied to determine whether it is necessary to recognize any impairment loss with respect to its investment in associates. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with the Group's accounting policy on impairment of tangible asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount, any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The investments in associates are derecognized upon disposal or when no future economic benefits are expected to arise from the investment. Gain or loss arising on the disposal is determined as the difference between the sales proceeds and the carrying amount of the investment in associates and is recognized in profit or loss.

Upon disposal of associates that results in the Group losing significant influence over that associate, any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset in accordance with PAS 39. The difference between the previous carrying amount of the associates attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associates on the same basis as would be required if that associates had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when it loses significant influence over that associates.

Investments in Joint Ventures

A joint venture is a contractual arrangement whereby the Group and other parties undertake an economic activity which is subject to joint control (i.e., when the strategic financial and operating policy decisions relating to the activities of the joint venture require the unanimous consent of the parties sharing control).

Joint venture arrangements that involve the establishment of a separate entity in which each venturer has an interest are referred to as jointly controlled entities. The Group reports its interests in jointly controlled entities using the equity method of accounting, except when the investment is classified as held-for-sale.

Investments in joint ventures are measured initially at cost. Subsequent to initial recognition, investments in joint ventures are carried in the Group's consolidated financial statements using the equity method.

The Group's accounting policy for impairment of financial assets is applied to determine whether it is necessary to recognize any impairment loss with respect to its investments in joint ventures. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with the Group's accounting policy on impairment of tangible and intangible assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount, any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

Under the equity method, investments in a joint venture is carried in the consolidated statements of financial position at cost as adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the joint venture. When the Group's share of losses of a joint venture exceeds the Group's interest in that joint venture, which includes any long-term interests that, in substance, form part of the Group's net investment in a joint venture, the Group discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture. From the date the Group disposes of its interest or when such external restrictions are placed on a jointly controlled entity that the Group no longer has joint control, the Group shall discontinue the use of equity method.

When the Group transacts with its jointly controlled entity, profits and losses resulting from the transactions with the jointly controlled entity are recognized in the Group's consolidated financial statements only to the extent of interests in the jointly controlled entity that are not related to the Group.

The investment in a joint venture is derecognized upon disposal or when no future economic benefits are expected to arise from the investment. Gain or loss arising on the disposal is determined as the difference between the sales proceeds and the carrying amount of the investment in a joint venture and is recognized in consolidated profit or loss.

Biological Assets

Biological assets or agricultural produce are recognized only when the Group controls the assets as a result of past events, it is probable that future economic benefits associated with the assets will flow to the Group and the fair value or cost of the assets can be measured reliably.

The Group measures its biological assets on initial recognition, and at the end of each reporting period, at fair value less estimated costs to sell. Estimated costs to sell include commissions to brokers and dealers, levies by regulatory agencies and commodity exchanges, and transfer taxes and duties.

The Group uses the national average market values issued by the New Zealand Inland Revenue Department (IRD) as a proxy for fair value of a class of livestock, provided that such values are applied consistent to a class of livestock.

Harvested agricultural produce are also carried at fair value less estimated costs to sell at harvest point.

The Group's classifies its biological assets as consumable biological assets. Consumable biological assets are those that are to be harvested as agricultural produce or sold as biological assets.

Gains or losses arising on initial recognition of a biological asset at fair value less estimated point-of-sale costs and from a change in fair value less estimated point-of-sale costs of a biological asset are included in the consolidated profit or loss for the period in which they arise.

Property, Plant and Equipment

Property, plant and equipment are initially measured at cost. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates;
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by Management.

At the end of each reporting period, items of property, plant and equipment are measured at cost less any subsequent accumulated depreciation, amortization and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and borrowing costs on qualifying assets.

Subsequent expenditures relating to an item of property, plant and equipment that have already been recognized are added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Group. All other subsequent expenditures are recognized as expenses in the period in which those are incurred.

Major spare parts and stand-by equipment qualify as property and equipment when the Group expects to use them for more than one year. Similarly, if the spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant, and equipment.

Estimated future dismantlement costs of items of property and equipment arising from legal or constructive obligations are recognized as part of property, plant and equipment and are measured at present value at the time the obligation was incurred.

Land held for use in the production or supply of goods or services, or for administrative purposes, is stated in the consolidated statements of financial position at their revalued amounts, being the fair value at the date of revaluation, determined from market-based evidence by appraisal undertaken by professional appraisers, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are performed with sufficient regularity such that the carrying amounts do not differ materially from that which would be determined using fair values at the end of each reporting period.

Any revaluation increase arising on the revaluation of such land is charged to other comprehensive income and accumulated in equity, except to the extent that it reverses a revaluation decrease for the same asset previously recognized as an expense, in which case the increase is charged to consolidated profit or loss to the extent of the decrease previously charged. A decrease in carrying amount arising from the revaluation of such land is charged as an expense to the extent that it exceeds the balance, if any, held in the properties revaluation surplus relating to a previous revaluation of that asset.

Depreciation is computed on the straight-line method based on the estimated useful lives of the assets as follows:

Fishing vessels	40 years
Buildings	25 years
Machinery and equipment	15 years
Office furniture, fixtures and equipment	5 years
Transportation equipment	5 years

Leasehold improvements are depreciated over the improvements' useful life of seven years or when shorter, the terms of the relevant lease.

Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment loss. Cost includes professional fees and for qualifying assets, borrowing costs capitalized in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences at the time the assets are ready for their intended use.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the consolidated profit or loss.

Intangible Assets

Acquired intangible assets

Intangible assets that are acquired by the Group with finite useful lives are initially measured at cost. At the end of each reporting period items of intangible assets acquired are measured at cost less accumulated amortization and accumulated impairment losses. Cost includes purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates and any directly attributable cost of preparing the intangible asset for its intended use.

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in the consolidated profit or loss as incurred.

Amortization of intangible assets with definite useful lives

Amortization for salmon farming consent and fishing license with finite useful life is calculated over the cost of the asset, or other amount substituted for cost, less its residual value.

Amortization is recognized in the consolidated profit or loss on a straight-line basis over the estimated useful life of salmon farming consent and fishing license, other than goodwill, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life of the salmon farming consent and fishing license for the current and comparative periods is 25 years.

Intangible assets with indefinite useful lives

Macrocystic consent with indefinite life are not amortized. However, these assets are reviewed annually to ensure the carrying value does not exceed the recoverable amount regardless of whether an indicator of impairment is present. The Group considers its macrocystic consent having an indefinite useful life for the following reasons:

- there have been no established legal or contractual expiration date;
- · impracticability of the determination of the intangible assets' economic useful lives; and
- unforeseeable limit to the period over which the fishing license and mycrocystic consent are expected to generate net cash flows for the Group.

Derecognition of intangible assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated profit or loss when the asset is derecognized.

Impairment of Tangible and Intangible Assets

At the end of each reporting period, the Group assesses whether there is any indication that any of its tangible and intangible assets may have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, assets are also allocated to individual CGUs, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

When the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognized as an expense. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit or group of units on a pro-rata basis.

Impairment losses recognized in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. A reversal of an impairment loss is recognized as income.

Goodwill that forms part of the carrying amount of an investment in associates is not recognized separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in associates is tested for impairment as a single asset when there is objective evidence that the investment in associates may be impaired.

Financial Liabilities and Equity Instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements.

Financial liabilities

Financial liabilities are recognized in the Group's consolidated financial statements when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially recognized at fair value. Transaction costs are included in the initial measurement of the Group's financial liabilities, except for debt instruments classified at FVTPL.

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities.

Since the Group does not have financial liabilities classified at FVTPL, all financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability or, when appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial liabilities are derecognized by the Group when the obligation under the liability is discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in consolidated profit or loss.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated statements of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Group are recognized at the proceeds received, net of direct issue costs.

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax. The costs of acquiring Group's own shares are shown as a deduction from equity attributable to the Group's equity holders until the shares are cancelled or reissued. When such shares are subsequently sold or reissued, any consideration received, net of directly attributable incremental transaction costs and the related income tax effects, are included in equity attributable to the Group's equity holders.

Stock dividend distributable

Share dividend payable is recognized at the date of declaration. Its measurement is dependent on the percentage of share dividends issue as compared to the total shares outstanding at date of declaration. If the percentage of declared share dividends is less than 20%, the Parent Company measures it at par value or fair market value at the date of declaration; whichever is higher and any excess of fair value over its par is considered to be share premium. If the percentage of the declared share dividends is 20% or more, the Parent Company measures it on par value.

Repurchase, disposal and reissue of shares capital (treasury shares)

When share capital recognized as equity is repurchased, the amount of the consideration paid, which include directly attributable cost, net of any tax effects, is recognized as a reduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own share account. When treasury shares are sold or reissued subsequently, the amount received is recognized as increase in equity, and the resulting surplus or deficit on the transaction is presented in non-distributable capital reserve.

Retained earnings

Retained earnings represent the accumulated income of the Group attributable to the Parent Company after deducting dividends declared by the latter.

Deficit

Deficit represents accumulated losses incurred by the Group. Deficit may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Non-controlling interest

Non-controlling interest represents the accumulated income after dividends declared attributable to the non-controlling shareholders of the subsidiaries.

Provisions

Provisions are recognized when the Group has a present obligation, either legal or constructive, as a result of a past event, it is probable that the Group will be required to settle the obligation through an outflow of resources embodying economic benefits, and the amount of the obligation can be estimated reliably.

The amount of the provision recognized is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. A provision is measured using the cash flows estimated to settle the present obligation; its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

If it is no longer probable that a transfer of economic benefits will be required to settle the obligation, the provision should be reversed.

Employee Benefits

Short-term benefits

The Group recognizes a liability net of amounts already paid and an expense for services rendered by employees during the accounting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the

Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

Post-employment benefits

The Group classifies its retirement benefit as defined benefit plans. Under the defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses
 on curtailments and settlements).
- Net interest expense or income.
- Remeasurement

The Group presents the first two components of defined benefit costs in profit or loss in the line item Retirement benefit. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognized in the statement of financial position represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods provided in the normal course of business.

Sale of goods

Sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns and volume rebates. Sale of goods is recognized when all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Sales return

Sales return is recognized at the time of actual return of goods. It is measured by the amount of the revenue previously recognized in which the return is associated. It is treated as a contra revenue account and represents a direct deduction from amounts receivable for goods provided in the normal course of business.

The Group does not offer to its customers a general right of return. However, the Group accepts returns of damaged and defective products that are shipped directly from the Group or for products that are already expired.

Sales allowance

Sales allowance is recognized if it is probable that discounts will be granted and the amount can be measured reliably. It is measured as a portion of the revenue previously recognized in which the allowance is associated. It is treated as a contra revenue account and represents a direct deduction from amounts receivable for goods provided in the normal course of business.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Dividend income

Dividend income from investments is recognized when the Group's rights to receive payment have been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

Other income

Other income is recognized when it is probable that the economic benefits will flow to the Group and it can be measured reliably. Other income includes all income generated outside the normal course of business.

Expense Recognition

Expenses are recognized in consolidated profit or loss when decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably. Expenses are recognized in consolidated profit or loss: on the basis of a direct association between the costs incurred and the earning of specific items of income; on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or immediately when an expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, or cease to qualify, for recognition in the consolidated statements of financial position as an asset.

Expenses in the consolidated statements of comprehensive income are presented using the function of expense method. Costs of sales are expenses incurred that are associated with the goods sold and includes Materials used, Direct labor and Manufacturing overhead. Operating expenses are costs attributable to administrative, marketing, selling and other business activities of the Group.

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Operating lease

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except when another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except when another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Foreign Currency Transactions and Translations

Transactions in currencies other than the functional currency of the Group are recorded at the rates of exchange prevailing on the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Gains and losses arising on retranslation are included in the consolidated profit or loss for the year.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized in the consolidated profit or loss in the period in which they are incurred.

Related Party Transactions

A related party transaction is a transfer of resources, services or obligations between the Parent Company and a related party, regardless of whether a price is charged.

Parties are considered related if one party has control, joint control, or significant influence over the other party in making financial and operating decisions. An entity that is a post-employment benefit plan for the employees of the Group and the key management personnel of the Group are also considered to be related parties.

Taxation

Income tax expense represents the sum of the current tax expense and deferred tax.

Current tax expense

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

The Parent Company's registered product was granted an ITH starting August 24, 2004 up to August 23, 2011 as disclosed in Note 1. After the ITH, the liability for current tax is calculated using a tax rate of 30% under the normal taxation or 2% of defined gross income under minimum corporate income tax (MCIT), whichever is higher.

The income tax rates of subsidiaries are as follows:

ASFIC	40%
Spence	40%
Akaroa	28%
PFNZ	28%
PTIAFI	25%
BGB	ITH (1st half of 2014)
DGD	30% (2nd half of 2014)

Deferred tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, while deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences arising on investments in associate except when the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred taxes are recognized as an expense or income in consolidated profit or loss, except when they relate to items that are recognized outside consolidated profit or loss, whether in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognized outside consolidated profit or loss.

Earnings per Share

The Group computes its basic earnings per share by dividing consolidated profit or loss attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares issued and outstanding during the period.

For the purpose of calculating diluted earnings per share, profit or loss for the year attributable to ordinary equity holders of the Group and the weighted average number of shares outstanding are adjusted for the effects off all dilutive potential ordinary shares.

Events After the Reporting Period

The Group identifies events after the end of each reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the consolidated financial statements are authorized for issue. The consolidated financial statements of the Group are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to the consolidated financial statements when material.

Segment Reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Group's Business Unit Head to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

The Group reports separately, information about an operating segment that meets any of the following quantitative thresholds:

- its reported revenue, including both sales to external customers and inter-segment sales
 or transfers, is 10% or more of the combined revenue, internal and external, of all
 operating segments, provided that;
- the absolute amount of its reported profit or loss is 10% or more of the greater, in absolute amount, of the combined reported profit of all operating segments that did not report a loss and the combined reported loss of all operating segments that reported a loss; and
- its assets are 10% or more of the combined assets of all operating segments.

Operating segments that do not meet any of the quantitative thresholds may be considered reportable, and separately disclosed, if Management believes that information about the segment would be useful to users of the financial statements.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

6. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that Management have made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognized in consolidated financial statements.

Segment reporting

The Group's revenue is classified into sales of canned and processed seafoods and sales of fishmeal. Although the revenue can be identified separately, the Group uses the same assets and resources for its sales of canned and processed seafoods and sales from fishmeal activities. Segregation and/or identification/allocation of those resources for each activity are impracticable since sales from fishmeal activities are minimal and do not exceed the 10% threshold criteria set forth in PFRS 8.

For Management purposes, the Group is currently organized activities based on its products (i.e., sale of canned and processed seafoods; and sale of fishmeal) and considers each product as one segment. The core activity is the canned and processed seafoods which account for more than 98.3% of the Group's consolidated revenues, consolidated profit for the year, and consolidated total assets. Thus, Management believes that the Group's only reportable segment is the Group's activities taken as a whole.

Leases

The evaluation of whether an arrangement contains a lease is based on its substance. An arrangement is, or contains, a lease when the fulfillment of the arrangement depends on a specific asset or assets and the arrangement conveys the right to use the asset.

Classification of lease as operating lease

Based on Management evaluation, the lease arrangements entered into by Group as a lessor and as a lessee are accounted for as operating leases because the Group has determined that the lessor will not transfer the ownership of the leased assets to the Group upon termination of the lease.

The lease contracts entered into by the Group are classified as operating leases as discussed in Note 30.

Functional currency

Based on the economic substance of the underlying circumstances relevant to the Group, the functional currency of the Group has been determined to be the US Dollar. The US Dollar is the currency of the primary economic environment in which the Group operates. It is the currency that mainly influences the Group in determining the costs and selling price of its inventories.

Determination of control

The Management assessed whether or not it has control over another entity based on whether the Parent Company has the practical ability to direct the relevant activities of an another entity unilaterally. In making their judgment, the Parent Company considered its controlling financial interest and its ability to direct and make decision over an entity's relevant activities. Accordingly, an entity is considered a subsidiary of the Parent Company based on Management consideration of control as at December 31, 2014 and 2013.

Based on the assessment made by the Management, the Parent Company has control over its subsidiaries PT International Alliance Foods Indonesia (PTIAFI), Prime Foods NZ Ltd. (PFNZ), Big Glory Bay Salmon and Seafood, Inc. (BGB), ASFI Thailand, Spence & Company, Ltd. (Spence) and Akaroa Salmon New Zealand Limited (Akaroa) as at December 31, 2014 and 2013, and special purpose entities ASFI Choice Foods, Inc. (ASFIC) and Alliance Select Foods Pte. Ltd. (ASF) as at December 31, 2014 and 2013. Accordingly, the financial statements of these entities are included in the consolidated financial statements of the Parent Company. ASF would not affect the Company's financial statements since its net assets amounted to nil as at December 31, 2014 and 2013.

Determination of joint control

Management exercises its judgment in reassessing whether the Group has joint control over FDCP Inc. (FDCP) and Wild Catch Fisheries, Inc. (WCFI) or mere significant influence by evaluating the substance of relationship that may exist between the Group over FDCP and WCFI. The recognition and measurement of the Group's investments over FDCP and WCFI will depend on the result of the judgment made.

Based on the assessment made by the Management, the Parent Company has classified its joint arrangements as joint ventures because of its rights over the net assets of FDCP, Inc. (FDCP) and Wild Catch Fisheries, Inc. (WCFI) as discussed in Note 13.

Loss of control

Based on the reassessment made by the Management due to the changes in circumstances arising from the restructuring of AMHI disclosed in Note 3, the Parent Company ceased to exercise control over AMHI effective December 28, 2012. As a result of the loss of control, the Group accounts for its 40% ownership in AMHI as an investment in associates from the time the control is lost.

Determination of significant influence

Management exercises its judgment in determining whether the Group has control over another entity by evaluating the substance of relationship that indicates the significant influence of the Group over its associates. The recognition and measurement of the Group's investments over these entities will depend on the result of the judgment made.

Based on the assessment made by the Management, the Group has significant influence over AMHI and Salmon Smolt NZ Limited (SSNZ) as at December 31, 2014 and 2013.

Biological assets

Biological assets are required to be measured on initial recognition and at the end of each reporting period at fair value less costs to sell unless fair value cannot be measured reliably. Accordingly, the Management shall exercise its judgment in determining the best estimate of fair value.

The Group believes that the fair value of its biological assets cannot be measured reliably since the market determined prices are not readily available. As an alternative, the Group uses the national average market values issued by the New Zealand Inland Revenue Department (IRD) as a proxy for fair value of a class of livestock, provided that such values are applied consistent to a class of livestock.

Revaluation of assets

Land

The Group has adopted the fair value approach in determining the carrying value of its land. While the Group has opted to rely on independent appraisers to determine the fair value of its land, such fair value was determined based on recent prices of similar properties, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices. The amounts and timing of recorded changes in fair value for any period would differ if the Group made different judgments and estimates or utilized different basis for determining fair value.

The latest revaluation of the above land was made on February 1, 2011 by John J Ryan & Associates Ltd., a registered appraiser in New Zealand. The Management believes that any effect of the changes in the assumptions from this date up to December 31, 2014 is not significant.

Going concern

It is the responsibility of the Management to determine whether the going concern assumption is appropriate in the presentation of financial statements. In determining whether a substantial doubt about the Company's ability to continue as going concern exists, Management evaluates all relevant information about conditions and events.

The Group incurred a net loss in 2014 and 2013 amounting to \$16,966,414 and \$2,833,247, respectively. The significant loss in 2014 was a result of Management decision to take a prudent and conservative position to recognize non-recurring expenses amounting to \$19,530,881 which comprised of inventory write-down, provision for inventory obsolescence, provision for impairment in the vales of the Company's fishing vessels and provision for impairment of the receivables from WCFI as a result of an amendment in the joint venture agreement between the Company and WCFI which cast a significant doubt on the Company's ability to continue as a going concern.

However, the Management has taken appropriate actions by implementing strategies that will assist in improving the results of operations and maintaining financial stability such as but not limited to more aggressive sales efforts, improve efficiencies across all areas of operations, better inventory management and raw material sourcing.

Accordingly, the financial statements have been prepared on a going concern basis.

Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

Estimating useful lives of assets

The useful lives of the Group's assets with definite lives are estimated based on the period over which the assets are expected to be available for use. The estimated useful lives of property, plant, and equipment, and intangibles assets are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the Group's assets. In addition, the estimation of the useful lives is based on the Group's collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of property, plant, and equipment, and intangibles assets would increase the recognized operating expenses and decrease non-current assets.

As at December 31, 2014 and 2013, the carrying amounts and accumulated depreciation and amortization of the Group's property, plant and equipment, and intangible assets as disclosed in Notes 14, and 15, respectively, are as follows:

	Carrying Amounts	Accumulated Depreciation and Amortization
December 31, 2014		
Property, plant and equipment*	\$11,672,952	\$5,745,321
Intangible assets**	176,642	67,836
	\$11,849,594	\$5,813,157
December 31, 2013		
Property, plant and equipment*	\$19,532,483	\$4,486,313
Intangible assets**	194,172	50,306
	\$19,726,655	\$4,536,619

^{*} The above amounts for property, plant and equipment do not include carrying amount of land amounting to \$1,554,446 and \$1,594,298 as at December 31. 2014 and 2013, respectively, which is not subject to depreciation.

Asset impairment

The Group performs an impairment review when certain indicators are present.

Determining the recoverable amounts of investment properties, property, plant and equipment, intangible assets, investments in associates and investments in joint ventures which requires the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets requires the Group to make estimates and assumptions that can materially affect the consolidated financial statements. Any resulting impairment loss could have a material adverse impact on the Group's consolidated financial position and result of operations.

The preparation of the estimated future cash flows involves significant judgment and estimations. While the Group believes that its assumptions are appropriate and reasonable, significant changes in the assumptions may materially affect the assessment of recoverable values and may lead to future additional impairment charges.

^{**} The above amounts for intangible assets does not include mycrocystic consent with a carrying amount of \$23,421 and \$24,459, as at December 31. 2014 and 2013, respectively, with indefinite useful lives which is not subject to amortization.

Total carrying amounts of investments in associates, investment in joint ventures, property, plant and equipment and intangible assets as at December 31, 2014 and 2013 are disclosed in Notes 12, 13, 14, and 15, respectively.

As at December 31, 2014 and 2013, Management believes that there is no further allowance for impairment required on its investments in associates, joint ventures, property plant and equipment and intangible assets in excess of those that were already provided.

Estimating the fair value of refundable lease deposit

In the determination of the fair value of the refundable lease deposits, the Group applies discounted cash flow method using the effective interest rates of similar type of instruments which considers the following factors:

- expected future cash flows;
- time value of money, represented by the rate on risk-free monetary assets that have maturity dates or durations that coincide with the period covered by the cash flows;
- · price for bearing the uncertainty inherent in the cash flows (i.e., a risk premium); and
- · non-performance risk relating to that liability, including the obligor's own credit risk.

The carrying amounts of refundable lease deposit, as disclosed in Note 19, would be affected by changes in these factors and circumstances.

The fair values of refundable lease deposit as at December 31, 2014 and 2013 calculated using the discounted cash flow method are disclosed in Notes 19 and 36.

Deferred tax assets

The Group reviews the carrying amounts at the end of each reporting period and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Group will generate sufficient taxable profit to allow all or part of its deferred tax assets to be utilized.

Total deferred tax assets recognized in the consolidated statements of financial position as at December 31, 2014 and 2013, amounted to \$7,489,791 and \$1,408,920, respectively, as disclosed in Note 34.

Estimating allowances for doubtful accounts

The Group estimates the allowance for doubtful accounts related to its receivables based on the assessment of specific accounts when the Group has information that certain counterparties are unable to meet their financial obligations. In these cases judgment used was based on the best available facts and circumstances including but not limited to, the length of relationship with the counterparty and the counterparty's current credit status based on credit reports and known market factors. The Group used judgment to record specific reserves for counterparties against amounts due to reduce the expected collectible amounts. These specific reserves are re-evaluated and adjusted as additional information received impacts the amounts estimated.

The amounts and timing of recorded expenses for any period would differ if different judgments were made or different estimates were utilized. An increase in the allowance for doubtful accounts would increase the recognized operating expenses and decrease current assets.

Total trade and other receivables recognized in the consolidated statements of financial position amounted to \$9,303,672 and \$16,162,372, which is net of the related allowances for doubtful accounts amounting to \$1,620,966 and \$1,175,280 as at December 31, 2014 and 2013, respectively, as disclosed in Note 8.

Estimating net realizable value of inventories

The net realizable value of inventories represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. The Group determines the estimated selling price based on recent sale transactions of similar goods with adjustments to reflect any changes in economic conditions since the date the transactions occurred. The Group records provision for excess of cost over net realizable value of inventories. While the Group believes that the estimates are reasonable and appropriate, significant differences in the actual experience or significant changes in estimates may materially affect the consolidated profit or loss and consolidated equity.

Total inventories recognized in the consolidated statements of financial position amounted to \$18,787,629 and \$14,436,955, net of the related allowance for raw materials and finished goods obsolescence of \$1,259,431 and \$67,745 as at December 31, 2014 and 2013, respectively, as disclosed in Note 9.

Retirement benefit and other post-employment benefit

The determination of the retirement obligation cost and other retirement benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include among others, discount rates, and rates of compensation increase. In accordance with PFRS, actual results that differ from the assumptions are recognized as expense and recorded as obligation in the current period. While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the pension and other retirement obligations.

Retirement expense recognized under the consolidated statements of comprehensive income amounted to \$148,979, \$122,349 and \$88,471 in 2014, 2013 and 2012, respectively, as disclosed in Note 28 and accrued retirement obligation recognized in the consolidated statements of financial position amounted to \$416,146 and \$634,958 as at December 31, 2014 and 2013, respectively, as disclosed in Note 20.

7. CASH

Cash and cash equivalents at the end of each reporting period as shown in the consolidated statements of cash flows can be reconciled to the related items in the consolidated statements of financial position as follows:

	2014	2013
Cash in banks Cash on hand	\$2,419,092 6,928	\$1,540,904 27,221
	\$2,426,020	\$1,568,125

Cash in banks earned an average interest ranging from 0.10% to 0.25% per annum in 2014 and 2013. Cash in banks are unrestricted and immediately available for use in the current operations of the Group.

Interest income earned from cash in banks amounted to \$41,579, \$27,181 and \$33,578 in 2014, 2013 and 2012, respectively, as disclosed in Note 26.

8. TRADE AND OTHER RECEIVABLES - net

The Group's trade and other receivables consist of:

	Note	2014	2013
Trade		\$ 8,563,137	\$ 8,851,560
Others:			,,
Related parties	. 19	964,407	7,317,107
Claims receivable		738,788	177,413
Advances to employees		61,082	78,687
Others		597,224	912,885
•		10,924,638	17,337,652
Less: Allowance for doubtful accounts	· · · · · · · · · · · · · · · · · · ·	1,620,966	1,175,280
		\$ 9,303,672	\$16,162,372

In 2014, receivable from related parties includes due from PT Waila, an affiliate of a subsidiary, amounting to \$942,107 which has been fully provided in 2013. It also includes receivable from FDCP amounting \$22,300, as disclosed in Note 19.

In 2013, related parties include sale of fishing vessel to WCFI amounting to \$6,375,000 and a receivable from PT Waila, an affiliate of a subsidiary, of \$942,107 which has been fully provided since 2013. In 2014, however, the Company reclassified the amount relating to the sale of vessels to other non-currents, as disclosed in Note 16.

Claims receivable includes insurance claims and refunds from government agencies.

Others pertain to advances to employees and tax credit certificates applied with the Bureau of Internal Revenue (BIR) for input value-added tax (VAT).

In 2014, the Group has written off claims from the BIR amounting to \$54,951 as a result of the denial of the Company's application for refund of input VAT covering 2010 and 2011.

The average credit period taken on sale of goods is 39 days. No interest is charged on the outstanding trade receivables even beyond their credit terms.

Trade and other receivables amounting to a total of \$8,931,327 and \$10,135,671 as at December 31, 2014 and 2013, respectively, have been pledged for the Group's short-term loans from a foreign bank and local bank with an aggregate outstanding balance of \$21,496,905 and \$17,477,705 as at December 31, 2014 and 2013, respectively, as disclosed in Note 18.

Included in the Company's trade and other receivables are debtor's accounts which are past due with carrying amounts of \$2,373,421 and \$2,505,356 as at December 31, 2014 and 2013, respectively, as disclosed in Note 37.

Movements in the allowance for doubtful accounts follow:

	Note	2014	2013

In 2013, the Group provided full allowance for doubtful accounts on its receivable from PT Wailan Pratama and from a certain supplier amounting to \$942,107 and \$183,520, respectively, as the probability of collection as at December 31, 2013 is doubtful.

In determining the recoverability of trade receivables, the Company considers any change in the credit quality of the trade receivables from the date credit was initially granted up to the end of each reporting period. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, Management believes that there is no further allowance for doubtful accounts required in excess of those that were already provided as at December 31, 2014 and 2013.

9. INVENTORIES - net

Details of the Group's inventories are as follows:

The amount of inventories recognized as expense in 2014, 2013 and 2012 amounted to \$73,382,400, \$77,000,224 and \$71,762,397 respectively, as disclosed in Note 27.

The carrying amount of raw and packaging materials amounted to \$5,283,035 and \$3,270,038 as at December 31, 2014 and 2013, respectively. Movements in the allowance for inventory obsolescence are as follows:

	Note	2014	2013

Loss on inventory obsolescence	28	1,191,686	40,067
Balance, December 31		\$1,259,431	\$67,745

The Group also recognized inventory write-downs amounting to \$2,040,961, \$338,391 and nil in 2014, 2013, and 2012, respectively, as disclosed in Note 28. These were attributable to the volatility in raw material prices, leaving the Company with finished goods purchased at higher fish cost.

Inventories amounting to a total of \$11,295,754 and \$8,926,686 as at December 31, 2014 and 2013, respectively, have been pledged as security for the Group's short-term loans from a foreign bank and local bank with an aggregate outstanding balance of \$21,496,905 and \$17,477,705 as at December 31, 2014 and 2013, respectively, as disclosed in Note 18.

As at December 31, 2014 and 2013, inventories of PTIAFI with a carrying amount of \$3,765,982 and \$4,515,143 are insured with PT Asuransi Sompo Japan Nipponka Indonesia against possible risks of losses for \$4,500,000 and \$1,469,943, respectively.

10. BIOLOGICAL ASSETS

The movement of the carrying amounts of the Company's biological assets is broken down as follows:

				
	2014	2013		
Balance, January 1	\$220,498	\$201,521		
Costs of agricultural activities	186,235	125,399		
Harvest	(202,970)	(106,422)		
Balance, December 31	\$203,763	\$220,498		

Biological assets of the Group comprised solely of consumable female smolts. Female smolts are young salmons at the stage when it migrates from fresh water to the sea.

Smolts arrive at the farm annually around October to December. They are cultured during its developmental phase which lasts around on average period of 12-18 months from the date of arrival. At this phase, water temperature is being strictly monitored not to exceed 11°C. When the water temperature exceeds 11°C, smolts are taken out from the water and will undergo a grading process, which usually happens around July or August of each year. The survival rate of fish from grading to harvesting is about 85%.

Point of harvest is usually around February of each year and continues over a 12-month period. Daily harvest ranges from 200 - 300 salmons or double the amount depending on the season.

The fair value less estimated point-of-sale costs is impracticable to determine due to the following factors that affect the determination of the growth of the biological assets:

- a. inclement weather, such as in case of raging storms that can cause havoc to the farm and lead to significant fish loss;
- b. the quality of smolts which is a crucial factor in the achievement of the desired weight of fish; and
- c. the risk of salmon disease outbreak that cannot be discounted.

Consequently, as at December 31, 2014 and 2013, the carrying amount of the Group's biological assets amounting to \$203,763 and \$220,498 are valued at their proxy market value of NZ\$0.90 per smolt or approximately US\$0.70 and US\$0.73 per smolt using the average foreign exchange rate in 2014 and 2013, respectively, less cost to sell.

11. PREPAYMENTS AND OTHER CURRENT ASSETS

Deposits represent advance payments for raw materials and rental of office spaces. As at December 31, 2013, deposits include advances to WCFI amounting to \$376,008, with the provision under a Joint Venture Agreement in which these will be liquidated against fish purchases. These advances to WCFI were reclassified to other non-current assets in 2014, as disclosed in Note 16.

Prepaid importation pertains to the Group's advance payments for costs relating to the importation of raw materials from its foreign suppliers based on an agreed price and quantity.

Others pertain to prepayments for subscriptions, membership fees and travel advances.

WCFI

On January 31, 2013, the Parent Company, CHL Fishing Industry, Inc. (CFII) and CHL Construction & Development Enterprises, Inc. (CCDEI), entered into a joint arrangement agreement to establish WCFI, an entity primarily engaged in commercial fishing within and without the Philippine waters and in the High Seas.

The Parent Company's ownership interest in WCFI, Inc. is 40% as at December 31, 2014 and 2013.

The significant financial information of the WCFI as at and for the years ended December 31, 2014 and 2013 are as follows:

	2014	2013	
Total assets Total liabilities	\$6,936,792 (9,203,534)	\$7,823,112 (7,979,127

Loss for the year	(\$2,121,272)	(\$ 258,231)	

On January 27, 2014, the Parent Company subscribed 4,800,000 common shares to the unissued shares and 33,600,000 common shares to the increased authorized capital stock of WCFI with a par value of P1.00 per share. In payment and exclusively in exchange for its total subscription of 38,400,000 common shares in WCFI, subject to SEC's approval, the Parent Company executed a Deed of Assignment, assigning and conveying unto WCFI, its successor-in-interest, the ownership of its vessel named as "FV BUENA SUERTE J-168" with an appraised value of P40,548,000 or approximately \$915,325. As stipulated in the joint venture agreement, the difference between the subscription price of the share and the approved appraised value amounting to P1,564,640 shall be treated as advances by the Company, for future fish deliveries of WCFI.

On November 10, 2014 SEC informed WCFI that after counter evaluation of the application for increase of authorized capital stock by the Division Head of the SEC on September 23, 2014, the approval has been deferred in view of the clarifications on the accounts in audited financial statements as of December 31, 2013.

In this regard, WCFI withdrew the subject application on January 29, 2015 in view of ongoing discussions of the Board of Directors. On February 6, 2015, SEC informed WCFI that in view thereof, no further action will be taken and the same shall be considered withdrawn, as disclosed in Note 40.

In September 2014, one of the vessels sold by the Parent Company to WCFI in 2012 sank in Philippine waters due to bad weather conditions and strong currents. As a result, ASFII and fellow venturers, CHL and CHLC, decided to amend the joint agreement as disclosed in Note 40.

The Parent Company recognized its share in losses in 2013 only to the extent of its investment in WCFI amounting to \$39,279. The Parent Company's unrecognized share in losses as at ended December 31, 2014 and 2013 amounted to \$869,918 and \$62,692, respectively.

In addition to the above, certain property, plant and equipment of the Group have been used as securities for the long-term loans obtained from various banks and financial institutions to finance the acquisition of machinery and equipment, as disclosed in Note 18. As at December 31, 2014 and 2013, the carrying amounts of the property, plant and equipment used as securities are as follows:

	2014	2013
Machinery and equipment	\$1,670,717	\$1,520,749
Land	700,346	740,198

	\$3,508,052	\$3,645,859

On December 29, 2011 and September 7, 2012 the Parent Company acquired the fishing vessels from BSJ, Parent Company's supplier, by virtue of "dacion en pago" as a full settlement of BSJ's obligation.

On July 16, 2013, one fishing vessel with a carrying amount of \$2,482,563 was sold to WCFI for a selling price of \$2,530,000, resulting in a gain of \$47,437.

Gains on disposals of the property and equipment amounted to \$3,899, \$47,437 and nil in 2014, 2013 and 2012, respectively, as disclosed in Note 26.

A parcel of land located in New Zealand owned by the Group, through PFNZ, was revalued on the basis of market value. The fair values as of December 31, 2014 and 2013 amounting to \$1,328,808 and \$1,594,298, respectively, as disclosed in Note 23, were determined based on the valuations carried out at February 1, 2011 by John J Ryan & Associates. The fair value hierarchy of this property is considered under Level 3 as it was derived from valuation techniques that include inputs for the asset that are not based on observable market data. The valuation was arrived at by reference to market evidence of transaction prices for similar properties located near the underlying parcel of land.

Had the land of the Group been carried at cost, its carrying amount as at December 31, 2014 and 2013 would be \$1,554,446 and \$1,478,831, respectively. The revaluation surplus is disclosed in Note 23.

The total carrying value of property, plant and equipment being held by the Group as at December 31, 2014 and 2013 amounted to \$13,227,398 and \$21,126,781, respectively.

In 2014, the Group provided an allowance for impairment of the value of fishing vessels amounting to \$7,792,307, as disclosed in Note 28, due to impairment indicators that existed in 2014. This is also in line with the strategic direction of Management to take practical position regarding its plan for fishing operations. The Management believes that there is no further allowance for impairment required other than that provided for the fishing vessels as at December 31, 2014.

Macrocystic consent is a resource consent granted by the New Zealand government to the Group in relation to its salmon farming activities.

Salmon farming consent is a marine farming license to grow, among other fish, salmon in the ocean. The Group has obtained two salmon farming consents. The consents allow the Group to have fish farms in two places in Akaroa harbor. The first consent was given on May 2, 1991 for salmon farming in Lucas Bay covering almost 1.8 hectares. The second consent was given on November 27, 2000 for salmon farming in Titoki Bay where the Group can culture green and blue mussels, rock lobster, snapper, paua and other salmon species. The licenses allow the Group to utilize a total area of approximately 2.9 hectares.

Fishing license is granted by Indonesian government to the Group to do fishing activities within the Indonesian sea region.

Management believes that there is no indication that an impairment loss has occurred on its intangible assets with definite useful lives. The Group has determined, based on annual impairment testing, that the carrying amounts of intangible assets with indefinite useful life are not in excess of their net recoverable amounts.

The long-term loans with an outstanding balance of \$3,071,430 as at December 31, 2014 and \$3,714,287 as at December 31, 2013, are secured by a guarantee up to 90% of the principal amount by Philippine Export Import Credit Agency (PHILEXIM) and assignment of Spence shares of stocks. The proceeds of the loan were utilized to partially finance the acquisition of 100% stake in Spence.

The outstanding mortgage loan of \$32,211 and \$84,365, net of current portion of \$77,711 and \$76,582, as at December 31, 2014 and 2013, respectively, pertains to loans availed by the Group from a certain local bank to finance the acquisition of the Group's transportation equipment. Transportation equipment under mortgage has a carrying amount of \$139,896 and \$163,362 as at December 31, 2014 and 2013, respectively. Interest rate is 9.18% per annum, payable on a monthly basis and maturing from April 2016 to September 2017.

The Group entered into a five-year loan facility with a local bank in the principal amount of \$770,000 drawn on February 9, 2011 to partially finance the construction of the salmon processing plant and acquisition of plant machinery and equipment. This is secured by a chattel on the Group's machinery and equipment and building and leasehold improvements with a carrying value of \$1,571,276. Moreover, the Parent Company executed a guarantee agreement in favor of Land Bank of the Philippines as part of the security for the credit facilities obtained by BGB.

On April 23, 2012, the Group entered into a Facility Agreement with a foreign bank. This facility has a maximum amount of \$300,000. The outstanding loans drawn from this facility are due within three years with eight months grace period from the date of agreement.

On September 5, 2013, the Group entered a loan facility from PT Rabobank International Indonesia to finance the capital expenditure requirement for the purchase of fishing vessels and fishing gears. The loan has maximum amount of \$720,000 or 80% of the purchase price of the fishing vessels and gear (whichever is the lower) and subject to annual interest equal to the lender's cost of funding plus 3.75%. The outstanding amount drawn from this facility is due within 3 years with 6 months grace period. This facility is secured with the Group's vessels.

The Group obtained loans from various banks and financial institutions to finance the acquisition of machinery and equipment. An existing long-term loan is secured by a mortgage on land, with certificate of title nos. 217835 and 217836 as disclosed in Note 14. In addition, some of these loans are secured by the Group's machinery and equipment and transportation equipment as disclosed in Note 14.

Total finance costs arising from loans amounted to \$1,569,467, \$1,522,843, and \$1,518,406 in 2014, 2013, and 2012, respectively, as disclosed in Note 33.

Loan Covenants

The guarantee agreement with PHILEXIM, and credit line agreement with a local bank requires the Group to give prior notice with respect to disposition of all or a materially significant portion of its property or assets, material changes in its ownership structure and Management, acquisition of stocks, encumbrance of any of its assets, incurrence of any major capital expenditures and extending loan to others except in the ordinary course of business for as long as the Group is within the prescribed financial ratios. However, in case the Group goes beyond the stipulated financial ratios, requests, to do any of the actions enumerated above shall require the prior approval of PHILEXIM and a local bank, which shall be acted upon within a reasonable time. As at December 31, 2014 and 2013, the Group was in compliance with its loan covenant on debt-to-equity ratio. On the other hand, current ratio and interest coverage ratio fell below the specified level imposed by PHILEXIM and a local bank. Management believes that these circumstances did not have any adverse effect on the Group's borrowing capacity and overall operation.

Significant Contract Agreements

- a. The Parent Company extended cash advances to AMHI which the latter used as down payment to purchase from Maranaw Canning Corporation (MCC) the plant facilities located at General Santos City.
- b. The Parent Company entered into a contract with MCC for the operating lease of the latter's land, plant, machinery and equipment in Barrio Tambler, General Santos City (Gensan Plant). The lease term started from March 1, 2004 and expired on December 23, 2010.

Upon expiration of the lease contract between the Group and MCC, the latter leased the Gensan Plant for one month or until January 23, 2011 to AMHI which in turn subleased the Gensan Plant to the Group.

The lease contract between MCC and AMHI was extended to a much longer term effective January 24, 2011 to December 23, 2013; thus, enabling AMHI to sublease the Gensan Plant to the Group for the same period.

Following the acquisition of MCC's property by AMHI, the contract of lease between MCC and AMHI was likewise terminated on May 16, 2011. On the same date, ASFII directly leased the property from AMHI for a term of 3 years until May 15, 2014.

A Memorandum of Understanding with Deed of Assignment (MOU-DA) was executed between the Group and AMHI on December 28, 2012. Under the MOU-DA, the parties intend to enter into a long-term lease contract in order to secure long-term possession of the land. The contemplated long-term lease will require the Parent Company to pay AMHI a security deposit in an amount equivalent to 36 months of the first year's monthly rental or equivalent to \$2,029,579. In order to pay the security deposits contemplated by the proposed long-term lease agreement, the Group assigned, endorsed and transferred its refundable lease deposits from MCC to AMHI with a revalued amount of \$2,020,456 on December 31, 2012, and the Group shall pay AMHI an additional amount of \$9,123 to complete the amount of the required security deposit.

The Group's refundable lease deposit receivable from AMHI was discounted at 4.2169% over five years resulting in a present value amounting to \$1,650,879 as disclosed in Note 16. The difference between its fair value and present value amounting to \$378,700 is recognized as finance cost as disclosed in Note 33. In 2014 and 2013, the related interest accretion of the discounted lease deposit resulted in interest income amounting to \$67,317 and \$67,559, respectively, was included as part of other income as disclosed in Note 26. As of December 31, 2014 and 2013, the present value of the refundable lease deposit amounted to \$1,720,579 and \$1,624,953, as disclosed in Note 16.

On January 25, 2013, a long term contract was executed between the Group and AMHI, superseding the lease contract made on May 16, 2011. The new term shall be for a period of five (5) years commencing on January 1, 2013 and expiring on December 31, 2017, unless sooner terminated by any party for cause. The lease shall be renewable every five (5) years, upon such terms and conditions mutually agreeable to the parties. Based on the contract, the rental fee shall be P2,403,065 with US dollar equivalent of \$58,540, based on foreign exchange rate of January 1, 2013, subject to an annual escalation rate of 5% or the national inflation rate as published by the National Statistics Office, whichever is higher. The lease is classified as operating lease as disclosed in Note 30.

- c. The Parent Company extended advances to WCFI which were used to finance WCFI's pre-operating expenses and working capital requirements. In addition, the Parent Company paid WCFI deposits for the purchase of tuna catch. The terms and application of these deposits against purchase price shall be subject to Joint Venture agreement between the parties. The outstanding balance as at December 31, 2013 is presented as deposits under prepayments and other current assets. The same were reclassified to other non-current assets in 2014, as disclosed in Note 11, and subsequently provided with an allowance for doubtful accounts as a result of the cancellation of the underlying contracts, as disclosed in Note 40.
- d. In 2013, the Parent Company sold three (3) fishing vessels with total carrying amount of \$6,303,503 to WCFI for total selling price of \$6,375,000, resulting in a gain of \$71,497 as disclosed in Note 26.
- e. The Group leases from MCC an office condominium unit where its head office is located for a period of two years from January 1, 2010 to December 31, 2011, renewable by mutual agreement of both parties. The lease contract was renewed on December 29, 2011 with the term of two years commencing from January 1, 2012 until December 31, 2013, with a monthly rental fee of \$3,485. The lease is classified as operating lease. The lease contract was not renewed subsequent to December 31, 2013.
- f. Duncan D. Bates extended a non-interest bearing cash advance to Akaroa as part of the Share Purchase Agreement for its working capital requirements. As at December 31, 2014 and 2013, the balance of the Group due to Duncan D. Bates amounted to \$153,604 and \$143,763, respectively.
- g. In 2013, the Group provided full allowance for doubtful accounts on its receivable from PT Wailan Pratama amounting to \$942,107 as the probability of collection as at December 31, 2013 is doubtful as disclosed in Note 8.

Intra-group Amounts and Balances

Upon consolidation, significant intra-group amounts and balances are eliminated to reflect the Group's consolidated financial position and performance as a single entity.

20. RETIREMENT BENEFIT

The Group values its defined benefit obligation using Projected Unit Credit Method by the service of an independent actuary and accrues retirement benefit expense for its qualified employees based on the minimum retirement benefit provided under Republic Act No. 7641 equivalent to one-half month salary per year of service, a fraction of at least six months being considered as one whole year. One-half month salary is defined as 15 days plus 1/12 of the 13th month pay and the cash equivalent of not more than five days of service incentive leaves. The benefit shall be payable to employees who retire from service who are at least sixty years old and with at least five years of continuous service.

The Parent Company executed a Trust Agreement with Land Bank of the Philippines on January 13, 2011, establishing the Parent Company's Retirement Plan. As of December 31, 2014 and 2013, only the Parent Company's retirement obligation is funded.

The plan typically exposes the Parent Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to high quality corporate bond yields; if the return on plan asset is below this rate, it will create a plan deficit. Currently the plan has a relatively balanced investment in cash and cash equivalents and debt instruments. Due to the long-term nature of the plan liabilities, the board of the pension fund considers it appropriate that a reasonable portion of the plan assets should be invested in fixed income securities.

Interest risk

A decrease in the government bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

No other post-retirement benefits are provided to the Group's employees.

The most recent actuarial valuation was carried out at December 31, 2014 by independent actuaries.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

	2014	2013	2012
Discount rate Expected rate of salary increases	4.83%	4.30%	5.10%
	3.5%	3.00%	5.00%

Cash and cash equivalents include High Yield Deposits (HYD) and Time Deposits (TD) and Savings Deposit maintained in local banks with an interest rate of 0.375%. Debt instruments pertain to investments in government securities, with a term of 5.9 to 9.63 years and yield-to-maturity ranging from 2.953% to 3.25%.

The significant information of the Fund as at December 31, 2014 and 2013 are as follows:

	2014		2013	
· -	Carrying	Fair Value	Carrying	Fair Value
Total assets Total liabilities	\$5,622 (647)	\$5,622 (647)	\$122,907 (76)	\$122,907 (76)
Net assets	\$4,975	\$4,975	\$122,831	\$122,831

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

	2014		20	13
	Change in Assumption	Increase (Decrease) on Retirement	Change in Assumption	Increase (Decrease) on Retirement
Discount rate Expected salary growth rate Life expectancy	1.00% 1.00% 10.00%	(\$35,668) 41,992 3,979	1.00% 1.00% 10.00%	\$53,884 55,540 3,685

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the Projected Unit Credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the statements of financial position.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior year.

The average duration of the benefit obligation as at December 31, 2014 and 2013 is 15 and 16 years, respectively. These numbers pertain to active employees.

The Group expects to make a contribution of \$227,000 to the defined benefit plan during the next financial year.

The Retirement Plan Trustee has no specific matching strategy between the plan assets and the plan liabilities.

30. OPERATING LEASE AGREEMENTS

The Group as Lessee

The Group entered into a number of lease agreements classified as operating leases summarized as follows:

- a. On January 25, 2013, a long term contract was executed between the Group and AMHI. The term shall be for a period of five (5) years commencing on January 1, 2013 and expiring on December 31, 2017, unless sooner terminated by any party for cause. The lease shall be renewable every five (5) years, upon such terms and conditions mutually agreeable to the parties. Based on the contract, the rental fee shall be P2,403,065 with US dollar equivalent of \$58,540, based on foreign exchange rate of January 1, 2013, subject to an annual escalation rate of 5% or the national inflation rate as published by the National Statistics Office, whichever is higher. Pursuant to the lease contract, the Group required to pay AMHI a total security deposit equivalent to 36 months of the first year's monthly rental as disclosed in Note 19.
- b. The Group leases from MCC an office condominium unit where its head office is located for a period of two years from January 1, 2010 to December 31, 2011, renewable by mutual agreement of both parties. The lease contract was renewed on December 29, 2011 with the term of two years commencing from January 1, 2012 until December 31, 2013, with a monthly rental fee of \$3,485. The lease is classified as operating lease. The lease contract was not renewed subsequent to December 31, 2013.
- c. On April 1, 2009 and July 1, 2010, the Group leases from Luthi Machinery Company, Inc. the two Solid Pack canning machines, serial No. SPD8-93 and SP156-95 for a period of five (5) years with an annual minimum rental of \$36,000 and \$58,000, respectively. Lessee agrees to pay an overage rental of \$0.137 and \$0.131, respectively, per case packed of filled by Lessee during each year when production from the machine during each year of the Lease term exceeds 275,000 and 300,000 cases, respectively. The lease term is renewable by mutual agreement of both parties.
- d. The Group leases from Gael Land the manufacturing, warehouse and office space, in United States, for a period of nine (9) years from January 1, 2012 to May 31, 2020, renewable by mutual agreement of both parties. In consideration of the use of the leased premises, the Group pays a monthly rental of \$17,900. The long-term lease will require the Group to pay the Lessor a refundable security deposit in an amount equivalent to two months rental or equivalent to \$35,800.
- e. In August 2012, the Group leases from Baruch Estate the manufacturing and office space, in New Zealand, for a period of five (5) years from August 2012 to July 2017, renewable by mutual agreement of both parties. Lessee agrees to pay a monthly rental of \$4,705.

Total rental expense charged in profit and loss in relation to these lease agreements amounted to \$1,243,774, \$1,128,658 and \$566,107 in 2014, 2013 and 2012, respectively, as disclosed in Notes 27 and 28.

Total rental deposits recognized in the consolidated statements of financial position, as part of other non-current assets, amounted to \$1,720,579 and \$1,624,953 as at December 31, 2014 and 2013, respectively, as disclosed in Notes 16 and 19. Outstanding prepaid rentals presented in the consolidated statements of financial position, as part of prepayments and other current assets, amounted to \$118,249 and \$13,746 as at December 31, 2014 and 2013, respectively, as disclosed in Note 11.

At the end of each reporting period, the Group had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2014	2013
Not later than one year	\$ 716,559	\$1,016,902
Later than one year but not later than five years	1,534,050	3,225,281

31. CORPORATE SOCIAL RESPONSIBILITY

For the past seven (7) years the Company has been giving back to the community by means of a Feeding Program conducted in Banisil High School located at General Santos City which aims to sustainably feed underweight students in an attempt to combat frequent absences and poor academic performance. For school year 2013-2014 which ended last March 21, 2014, 88% or 122 of the 139 underweight students attained their normal nutritional status.

Last August 8, 2014, the Company participated in the launching of the feeding program for 126 Grade 7 students of the same school. Part of the goal is to educate families about health and nutrition, so that they could sustain the progress children have made during the school year feeding program.

Total expenses related to the corporate social responsibility programs of the Company amounted to \$5,157, \$7,223 and \$10,198 in 2014, 2013 and 2012, respectively.

32. EMPLOYEE BENEFITS

Aggregate employee benefits expense consists of:

	Notes	2014	2013	2012

Deferred tax assets

The following are the composition of deferred tax assets recognized by the Group:

	NOLCO	мсіт	Unrealized Foreign Exchange Loss	Allowance for Doubtful Accounts	Allowance for Inventory Obsolescence	Allowance for impairment loss on fishing vessels	Excess of Retirement Expense Over Contribution	Rental Payable	Depreciation & Employee Benefits	Total
January 1, 2013 Charged to profit	\$ -	\$ -	\$ 3,172	\$ -	\$ -	\$ -	\$126,311	\$ -	\$83,701	\$ 212,554

Deferred tax assets as at December 31, 2014 and 2013 amounted to \$7,489,791 and \$1,408,920, respectively, arising from net operating loss carry-over (NOLCO), minimum corporate income tax (MCIT), allowance for doubtful accounts, excess of retirement expense over contribution and accrued expenses.

The Group's NOLCO and MCIT will expire in 2016 and 2017.

The Group believes that with the new strategic plan being implemented to turn-around the business, as disclosed in Note 1, the Group will generate enough taxable income to utilize the total deferred tax assets of \$7,489,791 and \$1,408,920 as at December 31, 2014 and 2013, respectively.

Deferred tax liabilities

Deferred tax liabilities as at December 31, 2014 and 2013 amounted to \$304,470 and \$258,604 arising from unrealized foreign exchange gain and excess of accelerated depreciation used for income tax purposes over the depreciation used for financial reporting purposes.

35. EARNINGS (LOSS) PER SHARE

The calculation of the basic and diluted earnings per share is based on the following data:

	Earnings (Loss)				
		2014		2013	2012
Profit (Loss) for the year Weighted average number of shares	(\$	16,555,831)	(\$	2,580,913) \$	
Outstanding	1,	353,533,033	1,0	069,426,237	1,014,299,096
Earnings (Loss) per share		(\$0.0122)	(\$	0.0024)	\$0.0013

The Group has no dilutive potential shares in 2014 and 2013; hence, basic earnings per share are equal to the diluted earnings per share.

36. FAIR VALUE INFORMATION

The fair values of the Group's financial assets and financial liabilities are shown below:

<u>.</u>	20	14	2013

^{*}The amount does not include government liabilities which are not considered as financial liabilities.

The fair values of the Group's financial assets and liabilities are determined as follows:

Due to the short-term maturities of cash and cash equivalents, trade and other receivables, due from related parties, trade and other payables, short-term loans, and due to related parties, their carrying amounts approximate their fair values.

The fair values of refundable lease deposit, long-term loans payable, and long-term due to related parties, are determined based on the discounted cash flow analysis using effective interest rates for similar types of instruments.

The fair value hierarchies of the above financial instruments are considered level 2 as they are derived from valuation techniques that include inputs other than quoted prices in active market but are observable for the asset or liability, either directly or indirectly.

The Group has adopted a policy of extending sufficient credit terms to customers such as, letters of credit and documents against payment as a means of mitigating the risk of financial loss from defaults. The Group only transacts with entities that are rated the equivalent of investment grade. The Group uses publicly available financial information and its own trading records to rate its major customers.

Based on the prior years' experiences of the Group and based on the assessment of the current economic environment and creditworthiness of its debtors, Management believes receivables are neither impaired nor uncollectible, as disclosed in Note 8.

The carrying amounts of financial assets recorded in the consolidated financial statements, represent the Group's maximum exposure to credit risk without taking account the value of any collateral obtained:

	2014	2013

The carrying amounts of financial assets that are neither past due nor impaired are rated as high grade.

The Group uses internal ratings to determine the credit quality of its financial assets. These have been mapped to the summary rating below:

High Grade - applies to highly rated financial obligors, strong corporate counterparties and personal borrowers with whom the Group has excellent repayment experience.

Satisfactory Grade - applies to financial assets that are performing as expected, including loans and advances to small and medium-sized entities and recently established businesses.

Liquidity risk

Liquidity risk refers to the possibility that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages liquidity risk by maintaining adequate reserves in cash in bank, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following table details the Group's remaining contractual maturities for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal.

^{*}The amount does not include government liabilities which are not considered as financial liabilities.

38. CAPITAL MANAGEMENT

The Group manages its capital to ensure that the Group will be able to continue as a going concern while maximizing the profits of the shareholders through the optimization of the debt and equity balance.

The capital structure of the Group consists of debt, which includes loans, and advances received from related parties as offset by cash and cash equivalents, and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings.

The debt to equity ratio of the Group at each reporting period is within the acceptable range as follows:

	2014	2013
Debt	\$41,343,473	\$40,241,292
Less: Cash	2,426,020	1,568,125
Net debt	38,917,453	38,673,167
Equity	24,129,759	27,965,894
Debt to equity ratio	1.61:1	1.38:1

Debt is composed of trade and other payables, loans payable, due to related parties, and income tax payable as discussed in Notes 17, 18 and 19, respectively, while equity includes share capital and reserves and retained earnings of the Group, less treasury shares.

Pursuant to the PSE's rules on minimum public ownership, at least 10% of the issued and outstanding shares of a listed company must be owned and held by the public. As at December 31, 2014 and 2013, the public ownership is 55.33% and 55.33%, respectively.

The Group reviews its capital structure on an annual basis. As part of this review, the Group considers the cost of capital and the risks associated with it.

As at December 31, 2014 and 2013, the Group was generally in compliance with its loan covenants except for its current and interest coverage ratios, as disclosed in Note 18.

Management believes that the above ratios are within the acceptable range.

39. RECLASSIFICATION OF COMPARATIVE AMOUNTS

Inventory write-downs and obsolescence amounting to \$338,391 and \$40,067 in 2013, and nil and \$20,000 in 2012, respectively, were reclassified from cost of goods sold to selling and administrative expenses to conform to the current year's presentation. Details are as follows:

	December 31, 2013 (As Previously Reported)	Reclassification Adjustment	December 31, 2013
Profit or Loss			
Cost of goods manufactured and sold	\$77,378,682	(\$378,458)	\$77,000,224
Selling and administrative expenses	9,636,484	378,458	10,014,942
	December 31, 2012 (As Previously Reported)	Reclassification Adjustment	December 31, 2012
Profit or Loss			.*
Cost of goods manufactured and sold	\$71,782,397	(\$20,000)	\$71,762,397
Selling and administrative expenses	6,789,785	20,000	6,809,785

Management believes that the above reclassification resulted in a better presentation of the accounts and did not have any impact on prior year's total profit or loss.

40. EVENTS AFTER THE REPORTING PERIOD

The following significant events occurred subsequent to December 31, 2014:

- 1. On November 10, 2014 SEC informed WCFI that after counter evaluation of the application for increase of authorized capital stock by the SEC's Head on September 23, 2014 the approval has been deferred in view of the clarifications on the accounts in AFS as of December 31, 2013.
 - In this regard, WCFI withdrew the subject application on January 29, 2015 in view of ongoing discussions of the Board of Directors. On February 6, 2015, SEC informed WCFI that in view thereof, no further action will be taken and the same shall be considered withdrawn.
- 2. In accordance with its obligations under the Joint Venture Agreement with CHL and CHLC for the formation of WCFI, the Company transferred a total of four (4) vessels to WCFI, namely J-103, J-107, J-168 and J-45 under various Deeds of Assignment and Contracts of Sale.

However, in a meeting held on December 8, 2014, the Board granted authority to cancel the Deed of Assignment of Vessel and Contracts of Sale of Vessel with WCFI covering J-103, J-107 and J-168 for failure of WCFI to pay the consideration for the said vessels within the agreed period.

In the same meeting, the Board also granted authority for the Company to enter into an agreement with WCFI for the assignment to the Company of any and all proceeds to be received by WCFI in the event of a sale by WCFI of the vessel and/or license pertaining to J-45.

In view of the foregoing, the Company and WCFI formally agreed and executed the following agreements:

- a. Supplemental Agreement to the Contract of Sale of Vessel with WCFI, CHL and CHLC, dated March 25, 2015 for the: (a) assignment to the Company of any and all proceeds to be received by WCFI in the event of a sale by WCFI of the vessel and/or license pertaining to J-45; (b) transfer of two (2) light boats (Princess Victoria 1 and Princess Victoria 2) and approximately two hundred four (204) rolls of ropes in favor of CHL.
- b. Cancellation of the Deed of Assignment of Vessel and Contracts of Sale of Vessel, dated April 15, 2015, covering J-103, J-107 and J-168 for failure of WCFI to pay the consideration. The said cancellation states that repairs made and improvements introduced by WCFI forms part of the vessels to be returned and inures to the benefit of ASFII
- c. Supplemental Agreement to the Joint Venture Agreement, dated April 15, 2015, whereby: (a) ASFII shall pay WCFI's trade payables as of December 31, 2014 amounting to P20,824,021.94; and (b) ASFII shall have no further funding liability or obligation under the Joint Venture Agreement.

3. In its meeting on February 17, 2015, the Board of Directors adopted a resolution to increase the Parent Company's authorized capital stock from One Billion Five Hundred million (P1,500,000,000.00) divided into one billion five hundred million (1,500,000,000) common shares with a par value of One Peso (P1.00) per share, to Three Billion Pesos (P3,000,000) divided into Three Billion (3,000,000,000) common shares with a par value of One Peso(P1.00) per share. In the same meeting, the Board of Directors approved the stock rights offering of up to One Billion (1,000,000,000) common shares ("the Rights Shares") with a par value of p1.00 per share, by way of pre-emptive rights offering to eligible existing common shareholders of the Corporation at the proportion of one (1) right shares for every one and a half (1 ½) existing common shares held as of the record date.

On March 31, 2015, the Stockholders of the Company representing 2/3 of the outstanding capital stock ratified the Board of Directors resolution to increase the authorized capital stock of the Company. This shall be submitted to the Securities and Exchange Commission for approval.

41. APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements of the Group were approved and authorized for issuance by the Board of Directors on May 11, 2015.
